## RIVER BILL IN TRIUMPH

### Boulder Victory Seems Certain

Long Dam Fight Nears End as Senate Decides to Limit Debate

Even Sponsors of Measure Surprised Over Action; Veto Only Barrier

BY ROBERT E. ARMSTRONG  
Washington Staff Correspondent

WASHINGTON, Dec. 12. (Exclusive)—Passage of the amended Boulder dam bill by the end of this week was all but made certain late this afternoon, when the Senate adopted a unanimous consent agreement limiting debate after 3 o'clock p.m. tomorrow.

After that hour, under the agreement, no Senator may talk more than fifteen minutes or more than once on the bill or any amendment. Although opponents still pending, their surrender is complete and they will push only a few. Thus, the end of the bitter, seven-year struggle for Colorado River legislation just apparently around the corner, barring a veto by the President.

The proposal to check off extended debate was made out of clear sky by Senator Kendrick of Wyoming, and took Senator Johnson of California, sponsor of the bill, completely by surprise. But his astonishment was nothing compared to the amazement of veteran Boulder dam observers in the press gallery, when Senators Ashurst and Hayden of Arizona, who have conducted the long fight against the measure, interposed no objection.

**KNEW OF MOTION**

It developed, indeed, that the two Arizonians were consulted by Kendrick in advance and knew the motion was to be made.

Sensor Smoot of Utah, who has been as unrelenting as Ashurst and Hayden in his opposition to the project, was not on the floor at the time, but his silence so far this session indicates that he would not have fought the move.

There was considerable talk tonight that the forces fighting Boulder dam are permitting the bill to go through, believing President Coolidge will veto it, but all they have to base such expectation on is the President's declaration in his annual message that "the government must keep out of the retail power business. The bill, as it now stands, and probably will be passed, contains an optional provision whereby the government may construct the proposed power plant or turn it over, on contract, to private interests. Mr. Coolidge may think this feature of the bill objectionable, but it is his successor, President-elect Hoover, who will have to sign it."

**HOUSE WILL CONCUR**

After the Senate passes the Boulder bill it must go back to the House for concurrence in amendment and a vigorous struggle to prevent final enactment is anticipated on the part of Representative Douglas of Arizona. But the House will agree, it is believed, and the long fight against the bill will be ended.

Technically the Senate agreement can be knocked out tomorrow if any Senator cares to turn the trick as it was not preceded by a quorum call as required by Senate rules. However, no one is expected to question it further, except perhaps, to make a perfunctory protest.

Up to the very moment Senator Kendrick moved for a limitation on debate, discussion in the Senate had gone along in the same singsong monotonous manner of the past sixty days and there was no indication that anything of importance was about to happen. The debate had been almost entirely about the Gila River, Senator Hayden insisting that the Senate accept his amendment providing that the Gila should at no time be called upon to supply any of the water which, subsequently, by treaty, might be allotted to Mexico.

**HAYDEN FOR SPLIT**

Hayden contended that California and Arizona should split any possible Mexican burden evenly out of their respective share of the water of the Colorado and charged that Senator Johnson, by objecting to his amendment, was trying to establish a 60-40 ratio in favor of California, or the total volume of water which Arizona will get out of both the Colorado and Gila the latter belonging entirely to Arizona.

Johnson had brought out that, in addition to its 2,800,000 acre feet of water out of the Colorado, Arizona will have approximately 3,500,000 acre feet out of the Gila, and his contention is that no particular limitation in law should be made and no specific burden imposed on either State on the Mexican phase of the Colorado River situation.

The Senate, having decided yesterday in two compromise amendments that the Gila belonged exclusively to Arizona, and has no major relation to the main stream of the Colorado, again stepped in between Johnson and Hayden and adopted an amendment by Senator Pittman of Nevada which leaves the question of whether the Gila shall ever furnish any water to Mexico up to a future conference between the three lower-basin States of California, Arizona and Nevada.

This was followed by adoption of an amendment carrying a provision for the project to proceed on the basis of six-State ratification of the Colorado River compact in case all seven States have not ratified within six months after enactment of the legislation.

**AMENDMENT ON COST**

The amendment now before the Senate is the Phillips proposal in which the project is to be paid for by the States.

## HOOVER IN ARGENTINA

### Cheers Resound at Mendoza

Snow and Clouds Hamper View of Majestic Scenery on Andes Journey

Anarchist in Capital Said to Have Confessed Plot to Blow Up Train

MELENDOZA (Argentina) Dec. 12. (P)—President-elect Hoover, this evening made his first visit to an Argentine city, stopping here for an hour en route from Santiago, Chile, to Buenos Aires.

The special train on which his party traveled had been cheered by crowds assembled at railroad stations in every town and village along the way. When the special pulled in here at 7 p.m. a throng of more than 15,000 persons jostled one another in and around the station, cheering and applauding.

The Governor of the Province of Buenos Aires, with his official staff and also the Mayor and officials of the municipality gave Mr. Hoover a warm greeting at the station.

**SCENIC GRANDEUR**

The Hoover party had spent a night on the train at Los Andes that they might see the spectacular scenery of the Cordillera by daylight. This morning Allan Hoover, youngest son of the President-elect, rode on the electric locomotive which pulled the special train over the Andean divide. His father declined a similar invitation the better to appreciate the majestic panoramas as seen from his private car.

Because of snowstorms and clouds as the train crossed the frontier at the highest point of the railroad, Mr. Hoover was unable to see the famous statue of Christ of the Andes, the monument to peace between Chile and Argentina.

In the late afternoon the train ran out of the almost uninhabited mountain region into the lower levels of the foothill country. Brief pauses were made at the little towns so that the assembled people might catch a momentary glimpse of Mr. Hoover on the rear platform of the train. In every Province the Governor and local officials boarded the train to accompany it through their territory.

**CHILEANS SAY ADEU**

The Chilean official party bade farewell to Mr. Hoover just before the train crossed the border and at the cold, bleak snowbound station of Las Cuevas American Ambassador Biles and the official representatives of President Irigoyen took their places.

At this city the Hoover party transferred to another special train, which left at 8 o'clock for Buenos Aires. Late tonight Mr. Hoover is approaching the vast Argentine pampas, in crossing which he will spend most of tomorrow.

He is due to arrive in the capital at about 5 p.m. He expects to leave Buenos Aires on Sunday morning on an Argentine warship assigned to him by the government for Montevideo, Uruguay, where he will arrive late Sunday afternoon.

After spending Monday in that capital, he will leave the United States battleship "Utah," now anchored about thirty miles off Montevideo. The next stop will be Rio Janeiro. There probably will be a visit at Havana on his way to Europe.

Reaches the United States, although the schedule after Rio Janeiro has not been announced officially.

**ANARCHIST SAID TO HAVE CONFESSED**

## BOLIVIAN VOLUNTEER

### Patriotic Fire Rules Nation

Clash With Paraguay Nears Temper of Crusade; Funds Offered

Women Nurses Enrolled; Theaters and Hotels Pledge Receipts

LA PAZ (Bolivia) Dec. 12. (P)—Patriotic manifestations continued today throughout Bolivia, as citizens rallied to the support of the foreign policy of President Biles. Offers of all kinds constantly poured into the Presidential palace, ranging from automobiles to medical supplies and cash.

A local concern dealing in motor cars and motorcycles offered its complete stock for military use, if required, while the League of Industrial Employees addressed a communication to the general commander of the army, requesting that its members be the first enrolled to march in the great crusade of conquest and civilization against Paraguay.

**HOSTS VOLUNTEER**

In Sucre, the alternate capital of the republic, enthusiasm was evidenced in the form of a letter from the city of Sucre, offering to host the President-elect Hoover.

## FOUR BOATS GO TO AID VESSEL

### Disabled Steamer Riding at Anchor Off Alaska

SEWARD (Alaska) Dec. 12. (P)—Four boats tonight were rushing to the aid of the disabled steamer Starr which was riding at anchor off Barren Pearl Island. The steamer was carrying eleven passengers from Seward to Westward, Alaska, when she struck a reef and bent her propeller shaft in a heavy storm.

In response to radio messages from the steamer that she was "in bad shape," rescue boats put out from Letchworth, Seward and Seward, all on Kenai Peninsula, northeast of Pearl Island. The steamer Alameda also turned to aid the Starr, and was expected to arrive alongside her tomorrow.

The Coast Guard cutter Unalga said she would leave Juneau tonight.

The receiving apparatus of the Starr apparently was crippled although she was still able to send messages. She was anchored in seven fathoms of water and ready to land her passengers if a north wind arose. The island is flat and covered only by grass and would afford no protection from the wind which would carry the little steamer to sea.

"The prevailing weather is favorable as the storm which drove her on the reef is over," Capt. O. A. Johnson, former master of the Starr, explained here. "Unless a north wind comes, which is unlikely, the Starr, her passengers and crew are in no danger."

The Starr, owned by the San Juan Fish Company, is a 121.1 foot steel steamer, furnishing the only regular all-year-round service to Westward.

## Auto Plates on Sale Saturday

SACRAMENTO, Dec. 12. (Exclusive)—Frank G. Snook, chief of the State Division of Motor Vehicles, today announced that the counter deliveries of 1929 automobile license plates will begin at the main office here and at branch offices on Saturday morning. The branch offices are located in Los Angeles, Long Beach, San Diego, Fresno, San Francisco and Oakland.

The automobile clubs will serve their members and have branches in practically every town and city in the State. Snook said a large force of clerks will be on hand at the main and branch offices to accommodate the rush.

## VOICE STORAGE DEVICE MADE

### Sound Recorder Capacity Six Hours of Talk

SAN FRANCISCO, Dec. 12. (P)—Perfection for commercial use of mechanism combining four phases of sound recording was announced here today by Carl Rhodemann, San Francisco orchestra leader and inventor.

The new contrivance records or "stores" sound on a different medium from any of the three now used in the commercial production of talking movies. Although the mechanical apparatus built scarcely larger than that of an ordinary cabinet radio set, it reproduces or plays back the recorded sound beginning within a third of the time required in the record; and likewise creates a visual record of the wave lengths of the sound. This last phase, the inventor declares, provides a chart of the pitch and rhythm of the human voice and admits of changing inflection, accent or cadence as desired, for the purpose of broadcasting.

In demonstrations an hour and seventeen minutes of uninterrupted conversation was reproduced. Six hours of unbroken reproduction is possible from a single "record," Rhodemann asserts.

The first commercial use of the contrivance will be for analyzing voices of motion-picture stars as tests for employment in talking movies.

Later it is contemplated the use may be extended to reproducing talking movies and "talking" conversations for telephone transmission. The nature of the medium used for recording was guarded as a secret.

## WOMAN FACES LIFE TERM

### Michigan Mother of Ten Convicted as Habitual Criminal After Fourth Liquor Sale

LANSING (Mich.) Dec. 12. (P)—For selling liquor, Mrs. Etta Mae Miller of Lansing, mother of ten children, four of whom are living, faces life imprisonment.

The first woman to feel the sting of the habitual criminal section of Michigan's new criminal code, Mrs. Miller was convicted today by a Circuit Court jury of ten men and two women of committing her fourth liquor felony. Under the new code it is mandatory that she be sent to prison for life as a fourth offender.

**HUSBAND SERVING TERM**

Mrs. Miller's husband is serving a two-year term in prison, and according to her story, she is the sole support of her children. The prosecution, however, said the oldest of the children is able to care for the others, the youngest of whom is 13 years of age.

The conviction came only a week after Chemmie Tripp, also convicted of four liquor felonies, was sentenced to life imprisonment, and at a time when a fight is being

## Southern Cross Open to Offer

SUVA (Fiji) Dec. 12. (P)—Cecil C. Maidment, an aviation engineer, said here today that Capt. Charles Kingsford-Smith and Charles Ulm intend to make a flight in the airplane Southern Cross from Honolulu to San Francisco if a satisfactory financial offer is made.

Maidment is returning to Dayton, O., from Sydney, Australia, where he went last June to over-see the Southern Cross after Kingsford-Smith and Ulm, with Navigator Harry W. Lyon and Redman James Warner, had flown it 7800 miles from Oakland, Cal., by way of Hawaii and Fiji.

## Collapse Ruins Huge Warehouse

SAN FRANCISCO, Dec. 12. (P)—A three-story warehouse, filled with canned goods, collapsed here today with loss of \$100,000.

A dozen workmen, warned by noise of the falling roof, escaped without injury.

The building, owned by the Clark, Morse Company and located at 609 Fifth street, is a total loss. Officials of the company declared.

## Sanity Test for Youthful Slayer

STANTON (Mich.) Dec. 12. (P)—A sanity test for Jimmie Beacons, 15-year-old schoolboy, slayer of Miss Florie Carter, Sheridan school-teacher, was ordered today.

## OPERATIONS HELP KING

### Physicians Take Desperate Steps in Their Endeavor to Curtail Infection

LONDON, Dec. 12. (Thursday) (P)—A report was circulated in the lobby of the House of Commons early this morning that the operation on the King yesterday involved the removal of part of one rib. It also was said that if the highest hopes of the doctors are realized His Majesty will be out of danger before Christmas.

A special edition of the Daily Express issued at 4:40 a.m. today said that the King's condition continued satisfactory.

LONDON, Dec. 12. (P)—With the heir to the throne once more at home, the finest surgeons of the kingdom today made two desperate efforts to save the life of King George. They performed two successful operations, one this morning, and another more serious tonight.

The condition of His Majesty is considered satisfactory and the hopes of his people for his recovery rapidly are rising from the despondency of the past two critical days.

This morning a puncture was made to remove some of the pleural fluid around the base of the right lung. It is indicated that further drainage will be required. The bulletin which was issued hours after the operation, said:

"The slight improvement in the King's condition noted this morning is maintained. Some purulent fluid around the base of the right lung has been removed by puncture this morning and further drainage will be necessary."

Since last Friday the physicians had been exploring by needle and X-ray for the situation. The infection, which has been located as the right lung, spread generally throughout the body and this was what gave rise to the grave anxiety of the last Friday-evening hours. The King's rally last night just before the Prince of Wales completed his dramatic journey from Africa followed what doctors describe as an almost miraculous return of localized infection instead of the general infection.

The decision seized the opportunity to begin aggressive treatment. With the morning operation successful, another was performed this evening after which a bulletin was issued saying: "An operation on the King for drainage of the right side of the chest has been successfully performed this evening. The condition of His Majesty is satisfactory."

The fact that the King has been able to maintain his strength despite the ravages of the disease during the past three weeks was one of the principal contributing factors to the success of the operation. It could not have been carried out without the helpful determination of the King to do everything possible to get well.

**CHEERFUL NEWS**

The operation this evening was performed by Sir Hugh Hilly, honorary surgeon to the King since 1917. He and other surgeons at the London Hospital and a surgeon to the Poplar Hospital for Accidents. He was surgeon to the household of the late Queen Alexandra and has been surgeon in ordinary to the Prince of Wales since 1922.

The operation was finished at 7:30

## BYRD LOCATES MYSTIC ISLE

### Tiny Land Amid Ice Fields That Scott Reported Again Sighted and Peaks Photographed

BY RUSSELL OWEN  
(Copyright, 1928, by New York Times Syndicate. All Rights Reserved Throughout the World.)

ON BOARD BARK CITY OF NEW YORK, AT SEA, Dec. 10. (Exclusive)—One gets all mixed up in dates down here. Yesterday was the 10th and so is today, because we crossed the 180th meridian. And the last twenty-four hours have been more full of incident than any since we left New Zealand. We confirmed the existence of Scott Island, which has been in doubt ever since Scott first discovered it, nearly got lost in dangerous ice packs, lost a hawser and saw a whale. Now we are nearly alongside the pack ice and are preparing to enter it.

The finding of Scott Island was a source of great gratification to Commander Byrd, as other ships have reported passing over the spot where it was supposed to exist without seeing it.

Two peaks loom amid desolation. When the course was laid out on the last day to the point where we wished to enter the ice it was seen that it lay right through the supposed Scott Island. About 7 o'clock last night two peculiar-looking peaks were seen rising sharply from the sea off the starboard bow.

**LIKE ICEBERGS**

At first it was thought that they were icebergs, but as they seemed darker than distant bergs and did not reflect the sun the belief grew that we were approaching an island. As we came nearer two black basaltic rocks stood out about 300 feet high, the loneliest islands in the world lost in a desolation of ice and a wilderness of unbroken water.

One peak was much larger than the other and was clothed on top with snow, with an ice foot running out to the south. At the north end was an opening through which the sea washed. Pieces of ice were

ONE O'CLOCK SATURDAYS

## LEAGUE OF NATIONS REPORTS RECEIPT OF BOLIVIA'S NOTE

LUGANO, Dec. 12. (AP)—The League of Nations tonight sent a message to the Bolivian Minister in Paris informing him that a long cablegram from the Bolivian government received today had been communicated to all members of the Council. The cablegram explains Bolivia's side of the conflict with Paraguay.

League officials announced that Minister here to advise his nation to reconsider its action.

Minister Medina of Bolivia had presented to the Secretary of State a communication from the La Paz government declaring that Bolivia could not participate in conciliation proceedings with Paraguay as long as the latter did not repair what Bolivia regards as the wrong she inflicted in last week's frontier clash.

Together with Secretary Kellogg's appeal for a reconsideration of the withdrawal, the American Minister in La Paz simultaneously was instructed to exhort Bolivia to enter the conference and to point out the greater benefits that would accrue to her international position if she participated in the Pan-American parley.

Further, Bolivia was invited to change her attitude on the whole subject of conciliation of her dispute with Paraguay.

The other Latin-American countries represented at the conference here, and especially those whose delegates from the special committee appointed by the parley to attempt a solution of the frontier controversy, likewise conveyed to La Paz their earnest hopes that Bolivia would reverse its determination to abandon the conference.

DELEGATES REJOICE

Announcement of Bolivia's change in attitude caused much rejoicing among all delegations which saw therein the first practical result of the conference. They believed that, as Bolivia had submitted to the massed appeal of the other American republics for her participation, so would the same pressure in the interests of peace induce both Bolivia and Paraguay to adopt reasonable attitudes in their controversy with almost a certainty of peaceful settlement.

The special committee on the Paraguayan-Bolivian controversy did not meet today as had been tentatively scheduled. Dr. Victor Maurtua of Peru, its chairman, said that, since the committee had not yet received replies from either of the disputant nations to its communications dispatched last Monday, it would be useless to meet, as the committee would have nothing to discuss.

APPROVAL DENIED

The Bolivian Minister emphasized, however, that his country's decision to participate in the conference was not to be considered equivalent to approval of the conciliation efforts of the conference's special committee. The subject of Bolivia's attitude regarding conciliation measures, before Paraguay had given his country suitable satisfaction, he asserted, still was something upon which his government had to define its position.

The only activities of the conference during the day were private interviews between the reporters of the two committees on arbitration and conciliation and various delegations, with a view to compiling reports which should provide these bodies with discussion matter upon

the Bolivian note undoubtedly will be examined by the Council at its session tomorrow.

Secretary-General Sir Eric Drummond distributed the communication to members of the Council, who conceivably may take action, although there is no appeal for intervention to the League.

The Bolivian note appears to be identical with that delivered earlier to Washington and other capitals.

their reconvening. Early reports are expected in both cases.

## BOULDER BILL'S PASSAGE NEARS

Senate Clears Tracks for Approving Vote

Veto by President Only Bar Seen by Observers

Further Debate on Measure Made Limited

(Continued from First Page)

creating the authorization of cost from \$125,000,000, as estimated by the Reclamation Service, to the \$165,000,000 figure set by the Silt Engineering Commission, of which \$25,000,000 will be charged off as Federal contribution to flood control. This amendment is expected to receive action tomorrow.

It is opposed by Senator Johnson, who contended again today that the entire project can be paid for out of power revenues. Johnson pointed out that under the bill in its present form the all-American canal, including the Coahuila Valley section, is placed under the Reclamation Act, where it must stand on its own financial feet. This would reduce the project cost by around \$38,000,000, according to Johnson.

Just before sundown Senator Hayden introduced an amendment giving Arizona the right to tax the power development if it is not undertaken by the government. It is done by the government. Arizona and Nevada, under the bill, will be taken care of by an even division of 75 per cent of all surplus revenue.

STEVENS REPORTS AGAINST BOULDER DAM PROJECT

PHOENIX, Dec. 12. (AP)—Declaring that the construction of a reservoir on the Colorado River by means of Boulder dam "is wholly unnecessary," the report of John F. Stevens, noted engineer employed by the Arizona Colorado River Commission to survey the situation, released today, states that the proper location for a dam would be in the Grand Canyon, and that water for irrigation is in Mohave Canyon, and that works to generate power should be located a short distance below the dam.

Stevens, engineer who designed the Panama Canal, declares in his report that the "promotion of Boulder dam is being urged primarily for the purpose of developing power," and that the construction of such a plant "cannot be recommended."

He maintains that in order to develop to its fullest extent the latent power the Colorado River possesses regulation works should be constructed in the Grand Canyon, and that flood control and irrigation plans should be separated from power promotion, as "they do not synchronize in operation."

SWING SPEAKS TOMORROW ABOUT ENGINEERS' REPORT

WASHINGTON, Dec. 12. (AP)—Representative Swing, Republican of California, today said that he would speak tomorrow at the House today to speak for half an hour Friday morning on the Boulder dam project on the Colorado River.

## MUSSOLINI CONTRIBUTES FUND TO BOOST ITALY'S BIRTH RATE

ROME, Dec. 12. (AP)—Premier Mussolini's latest move in his campaign for a higher Italian birth rate has been to contribute 10,000 lire (about \$500) to a newspaper fund for giving recognition to large families in Rome.

The Premier, in a letter to the director of Giornale d'Italia, says that the sum should be divided into forty prizes of 250 lire each.

"This isn't an aid, because the sum is too small for that, but is a moral recognition," the Premier wrote.

"More than aiding, you wish by your initiative to honor large families and to set them up as an example to others—voluntarily children—belonging particularly to the so-called superior classes more rich and more virtuous."

Without these profits, poorer families the grave decadence that menaces the nation's future already would have reached an extreme phase. This must be said, repeated and shouted even if the reality is bitter."

Through this financial localization of the infection so anxiously anticipated and looked for makes the direction of advance more defined and hopeful, there is still in prospect a long and difficult struggle."

From Westminster late tonight came the first authoritative word of the important part the Prince of Wales played in today's dramatic events surrounding his father's illness.

It is stated that one of the reasons for the journey of Prime Minister Baldwin to Folkestone to meet the Prince, even after he had given out word that he wanted no official or family welcome home, was to explain to him the imminent need of an operation on King George. It also is stated in this connection that, having waited late last night at the palace to see the Prince on his arrival, the physicians took the steps preliminary to an early operation today.

The timely arrival of the royal heir in London has eased considerably the responsibilities resting on the doctors in connection with the renewed infection and the fresh action which became necessary in consequence.

PRINCE GEORGE STARTS FOR HOME

HAMILTON (Bertha) Dec. 12. (AP)—Prince George, youngest son of King George, left Bermuda aboard H.M.S. Durban at 7:35 a.m. today for New York.

The Prince, who has been serving aboard the Durban, will transfer to the Berengaria at New York for England, sailing Friday.

QUEEN MARY TODAY, between operations and with every hope of a recovery, is still in prospect a long and difficult struggle before the King will be out of danger. The next few days are expected to tell whether he begins an upward grade.

## SECRETARY PUT ON SENATE GRILL

West Examined by Members of Lands Committee

Sinclair Lease Cancellation History Recounted

Illinois Reveals Disposal of Insult Stocks

WASHINGTON, Dec. 12. (AP)—Roy O. West of Chicago was questioned for two hours today by the Senate Lands Committee, which is considering his nomination as Interior Department head.

Secretary West testified on connections with the Insult interests before the Senate Lands Committee, which is considering his nomination as Interior Department head.

In a few days after he took office, he said he read the Capper letter hurriedly; that "it was all new to me and I called in Judge Finney, in whom I had great confidence." When Mr. Finney presented him with a reply, he said he signed it without reading. The reply said the case was in the hands of the Department of Justice.

"I didn't read the letter of Senator Capper again nor did he write to me again."

**INQUIRY PRESSED**

Senator Walsh inquired why he had not replied to two questions in the letter and which he contended should have been answered. The questions were:

"Was the existence of the optional contract disclosed at the time the execution of the original contract was announced in the press?"

"Is it true that the State of Wyoming received 31 cents a barrel more for its royalty oil than was received by the government for its oil from the same fields under the Sinclair lease?"

The Montanan insisted that Mr. West should have made inquiry about these questions.

"Did you ever make any further inquiry into the protest by the White Eagle Oil Company which was presented by Senator Capper?" asked Senator Walsh.

"Yes, I did," answered West. "When?" continued Walsh.

"Soon thereafter I asked about the protest," West said, "and was assured that the case was entirely in the hands of the Department of Justice, and when it acted then I would act."

**CANCELLATION TALK**

Mr. West explained how he had cancelled the Sinclair contract by wire on the day he had received the opinion from the Attorney-General that the contract was void. That was October 17. This was two days after the New York World had published the protest of the White Eagle Oil Company, Walsh explained.

West said he had done law work for the Insult interests since 1907, but principally in small criminal cases. He declared he had not served on a salary basis and that the total fees collected by his law firm from the Insult companies in twenty-six years had amounted to \$24,585.

After he had been dismissed Senator Walsh called the Secretary back to ask if he had sat as a member of the Water Power Commission in the recent hearing of the application by the Insult interests for rights on the Cumberland River. He replied he had sat as one of the three members on that application, which is still pending.

**POLITICAL HISTORY**

The Secretary declared that he and Mr. Insult had almost always been on opposite sides in Republican party campaigns in Illinois, and he referred to the 1926 Senatorial primary campaign, when he said Insult supported Frank L. Smith and he and Senator Deen supported the late Senator McKinley for the Republican nomination.

Chairman Nye at the conclusion of the hearing asked Mr. West if he cared to make any statement. The Secretary turned to Senator Deen of Illinois, an intimate friend, and asked him if there was anything else he should say that he had forgotten. While not a member of the committee, Senator Deen was present for the hearing. He, however, had nothing to suggest to West.

The two-hour morning session was devoted to a reading of the testimony of West before the Senate campaign funds investigating committee of 1926 at Chicago, when he told of his purchase of stock in the Insult companies.

**Bureau Seeks Greater Power Over Packers**

WASHINGTON, Dec. 12. (AP)—Belief that the existing Packers' and Stockyards' Act should be changed to give the Secretary of Agriculture wider supervision over the operations of packers was expressed today by A. W. Miller, superintendent of the packers' and stockyards' division of the Department of Agriculture.

Appearing before the House Agriculture Committee to introduce the Hope bill which would include packers among the provisions of the law regulating the practices of dealers on private stockyards, Miller indicated several beneficial changes he believed the Hope bill would make in the existing law.

Frank B. Young, general manager of the Farmers' Live Stock Commission Company of National Stockyards, Ill., also urging passage of the Hope bill, said that the unregulated operations of buyers for packers have in some cases had the effect of breaking up co-operative organizations.

**Ex-Prize Fighter Given Sentence**

PITTSBURGH, Dec. 12. (AP)—Frank Klaus, one-time claimant of the middleweight boxing championship of the world, was sentenced to jail in the United States Court today for violation of the probation law, but his request that he be permitted to remain at liberty until after the Christmas holidays was granted by Judge Schoonmaker.

Klaus must enter a cell January 1 and spend two months there, besides paying a fine of \$200 as a result of his plea of guilty to selling whisky in his saloon in Bradnock.

## WAR DECLARED ON INFLUENZA

Board of Strategy Formed by Surgeon-General

Plans to Curb Disease Will be Announced Later

Death Rate Steadily Rising Throughout Nation

WASHINGTON, Dec. 12. (AP)—Surgeon-General Cummings today called together a "board of strategy on influenza" to consider reports of the Bureau of Census showing an increase in the influenza death rate, and to make recommendations on steps which might be taken to curb the spread of the disease.

The board is composed of three veteran bacteriologists of the Public Health Service, Dr. G. W. McCoy, chief of the hygienic laboratory; Dr. W. H. Frost, officer of the service, also connected with the Johns Hopkins School of Hygiene, and Dr. J. P. Leake, public health officer, who has had extensive experience both in experimentation and actual fighting of epidemics.

The Surgeon-General said his board of strategy will outline a program which will be made public later. The board was in conference several hours, but its deliberations were not disclosed. They will issue a formal statement tomorrow.

Public health officials said late today that the probable cause of the influenza outbreak is "hard to prophesy," and that the seriousness of the spread will depend largely on the death rate.

Telegraphic reports to the Bureau of Census, the Public Health Service announced, showed 189 deaths from influenza during the week ending last Saturday, compared with forty-three deaths in the same cities during the week ending November 2, and while the disease now spreading still appears to be in milder form than that of the 1918 epidemic, the death rate has been steadily increasing.

Officials said this increase may be partly responsible for a rise in the death rate of the country, which was 13.3 per 100,000 population for the week, compared with 11.9 for the corresponding week of 1927, but this relationship cannot be established absolutely.

**ESTIMATE BORNE OUT**

The total of more than 200,000 influenza cases for the country estimated yesterday was more than borne out by today's reports, the census bureau said. The 40,510 cases reported today are not more than one-fifth of the cases actually existing," it was said, "indicating a real total of at least 202,530."

Reports from public health offices today showed the following number of cases: Kansas, 12,500; California, 10,200; Montana, 4,500; South Carolina, 5,145; Oregon, 1,400; Colorado, 1,200; Maine, 12; New Hampshire, 17; Massachusetts, 15; Rhode Island, 2; Connecticut, 4; New Jersey, 22; Ohio, 4; Indiana, 87; Illinois, 97; Michigan, 6; Wisconsin, 197; Minnesota, 4; Missouri, 140; North Dakota, 14; Nebraska, 304; Maryland, 10; West Virginia, 87; Virginia, 300; Georgia, 900; Florida, 17; Kentucky, 4; Tennessee, 22; Alabama, 214; Arkansas, 95; Louisiana, 30; Oklahoma, 200; Texas, 38; Idaho, 7; Wyoming, 68; New Mexico, 170; Arizona, 100; Utah, 80; Washington, 22; District of Columbia, 3, and New York City, 38.

**TOTALS "NOT REPORTABLE"**

In the following States, the bureau announced, influenza totals are "not reportable" because these States do not require a recording on the figures:

Nevada, Vermont, Pennsylvania, New York State, Iowa, Delaware, South Dakota, North Carolina and Mississippi.

The Bureau explained that the rise in deaths reported to the Bureau of Census has been gradual. For the week ending November 10, the seventy-seven cities reported fifty-nine deaths; while sixty-eight were reported during the week ending November 17; seventy-four during the week ending November 24, and 174 during the week ending the 1st inst.

**MARINE FORCES  
ABROAD PRAISED**

Chief Says They Used Tact in  
China and Nicaragua

WASHINGTON, Dec. 12. (P)—The operations of the American Marines and naval forces in China and Nicaragua were declared today by Admiral Charles F. Hughes, chief of naval operations, to have been conducted with "tact and forbearance" and in an efficient manner.

In Nicaragua, the chief of naval operations in his annual report to the Secretary of the Navy said the American troops "have used force only where absolutely necessary and have interfered as little as possible with the happiness and well-being of the Nicaraguan people."

The operations in China, he added, have been carried on for the protection of American lives and property and have contributed substantially to the improvement of conditions there.

Fewer hairpins and combs were manufactured in the United States in 1922 than in 1923.

**Mexicans Honor  
Guadalupe Day**

MEXICO CITY, Dec. 12. (P)—Many thousands of Mexicans of all walks of life congregated at the town of Guadalupe near Mexico City today to pay homage to the Virgin of Guadalupe, who is the patron saint of Mexico.

Pilgrimage to the shrine is an annual event on the day of the patron saint. Pilgrims usually number more than 100,000 and the indications today were that that number would come today. Many came from distant parts carrying flowers to deposit at the foot of the shrine, as well as candles to burn there.

**COURT SENTENCES  
YOUTHFUL SLAYER**

PHOENIX, Dec. 12. (P)—Gideon Smith, 17 years of age, of Cornville, who shot and killed John Mooney, 17, of Clarksdale, September 23, today was sentenced to the State Reform School at Fort Grant until he reaches his legal age, when he may have to face the gallows.

**FRENCH SENATE  
MEMBER QUILTS**

Resignation Follows Filing  
of Check Charges

PARIS, Dec. 12. (P)—Lucien Klotz, former Minister of Finance in the Clemenceau wartime Cabinet, resigned his membership in the French Senate today.

M. Klotz was the subject of charges filed by the Police Prosecutor of France two days ago to the effect that he had issued bank checks without sufficient funds in the institutions on which they were drawn. This is a criminal offense in France and the Prosecutor asked the Senate to lift Parliamentary immunity from M. Klotz. The former Minister has been a patient in a sanatorium and his friends have stated his collapse is due to losses on the New York Stock Exchange. He is generally considered wealthy as he is the owner of a large perfume establishment.

**Conference on  
Silk Planned**

NEW YORK, Dec. 12. (P)—Managers of the Silk Association of America today approved plans for an international technical conference on raw-silk classification, testing and grading, to be held in New York next spring with technical experts of Japan, China, France, Switzerland, Italy and America participating.

Early this year a similar conference was held with Japanese technical experts, but the proposed affair is the first planned on a wide international basis.

**ESTATE PROVIDES  
FOR SCHOLARSHIPS**

BERKELEY, Dec. 12. (Exclusive)—Announcement is made by Prof. Ed Merrill, dean of the college of agriculture of the University of California, that the will of the late Jesse D. Carr Seale has provided \$125,000 for a chair of agriculture and an additional \$30,000 for five scholarships. The chair will be named for the late Jesse D. Carr of Salinas, father of the donor, as a memorial to him.

**HONDURAS PACT  
INSURES PEACE**

Political Parties Agree to  
Work for Harmony

TEGUCIGALPA (Honduras) Dec. 12. (P)—The President and representatives of the Conservative and Liberal Republican parties today signed a tri-partite pact to insure peace and harmony following on the recent national elections.

The central peace committee had issued a manifesto calling on the Conservatives not to show resentment in their defeat in the Presidential elections and on the Liberal party to show a brotherly attitude toward the vanquished.

President-elect Collados today expressed faith in the eventual union of the republics lying between Mexico and South America. "The Central American ideal," he said, "has failed of realization many times, but it has not yet died in my spirit. I hope that the future will bring to us a large country. United Central America has always been and will always be for me my true fatherland."

**Salvagers Get  
Sway on Liner**

COBB, Dec. 12. (P)—The liner Celtic was turned over to salvagers today. The skeleton crew which had remained aboard the vessel since she ran on the Cow and Calf rocks on the entrance of Cork Harbor on Monday morning, was withdrawn. The men departed for England today.

Two salvage vessels moored alongside the Celtic and started removing her cargo of wheat, apples and other American products.

The salvaging of the cargo is furnishing employment to 100 men of Cobb. In this respect the mishap has proved a benefit to this community, particularly in view of the approach of Christmas, which promised to be gloomy in the homes of some of the workmen.

**Gang Robs Car;  
Gets \$104,500**

YONKERS (N. Y.) Dec. 12. (P)—In a daylight hold-up in the heart of the city's business section, seven or eight robbers opened fire this morning on the collection car of the First National Bank and escaped with \$104,500, after wounding one of the bank guards.

The collection wagon, a partly armored automobile, was transporting the pay roll from the post office to the bank for later delivery to the Alexander Smith & Sons Carpet Company, one of the largest organizations of its kind in the world. Two bank guards and a city policeman were riding in the car.

Adolph Kauster, one of the guards, was shot through the arm. The other guards and policeman were subdued by the robbers.

# Don't Take Safety for Granted

OUR 40th Year  
6%  
The Safety of Your Savings

The safety of your savings is a matter  
too vital to you to be taken for granted.  
How shall you appraise safety?

Although Pacific States Savings is one of the largest  
savings institutions in the west, we are frank to state  
that size is not conclusive evidence of safety.

To appraise the safety of this institution study our  
Statement of Condition and pay particular attention  
therein to the voluntary factors of strength beyond legal  
requirements that we maintain for your protection  
—and read our concise booklets\* describing the sim-  
plicity and soundness of the methods which this in-  
stitution has followed since 1889.

Then you will understand why this institution enjoys  
the confidence of more than 36 thousand savers, and  
safeguards the funds of banks, insurance companies  
and other ultra-conservative financial institutions.

# Era From Pegasus to Lindbergh Traced by Coolidge in Acclaiming New Industry

## NEW AIR SAFETY AIDS MADE BY GOVERNMENT SCIENTISTS

WASHINGTON, Dec. 12. (AP)—The measurement of storm winds for the protection of the aviator is the object of superacoustic instruments and devices now being constructed at the Naval Observatory here.

New evidence of the growing "air-mindedness" of the American government and people is afforded by the program of co-operation with the Bureau of Aeronautics for the development of aerological instruments described today in the annual report of the observatory by its superintendent, Capt. A. C. Freeman.

The assembling of three special aerological units to be used in the selection of a suitable lighter-than-air base on the west coast is reported as one of the outstanding achievements of the year.

A ceranograph, or static storm recorder, has been perfected by the observatory scientists during the year, the report asserts, and completion of an air-sounding panel is expected during the coming year. A new type of aero compass also was developed, 500 of which are to be completed during the next six months. Flight experiments with the inductor compass also have been carried on.

A special study of the gyrocompass was made in relation to its adaptation for use in the control of gunfire on battleships as well as in navigation. The report recommends the institution of a course in gyrocompass engineering for naval officers at the postgraduate school at Annapolis.

reference is to direct its attention. We are making a reality of the wonderful vision of Tennyson, who in his "Locksley Hall" wrote in 1842: For I dip into the future, far as human eye could see, Saw the vision of the world and all the wonder that would be; Saw the heavens fill with commerce, argosies of magic sails, drooping down with costly bales.

**PASSENGER LINES**

After the war European nations began to develop aeronautics as a part of their transportation systems. Passenger lines with heavy government subsidies were established between principal cities.

In America during the war 10,000 pilots were taught to fly; hundreds of aerological engineers and designers were trained; nearly 17,000 planes were manufactured by thousands of artisans who became skilled in aircraft production in many new factories.

All of this was an important foundation for building up of civil aeronautics. Prior to this period our attention had been directed to the use of the airplane as a carrier of mail. From 1912 the Postoffice Department sought money to establish air-mail lines, but not until 1918 was a special appropriation secured.

In May of that year between Washington and New York the first regular route was established. This service has been rapidly expanded, until now we have more than twenty-two mail routes with a daily mileage of nearly 31,000 miles. The air-mail postage for January, 1923, was 23,000 pounds. In October this year 467,423 pounds were carried, as compared with 423,838 in the previous month. Reduction in the postal rates last July doubled the amount carried inside of thirty days.

**OFFICE CREATED**

In 1923 this government officially recognized the importance of flying by establishing the post of assistant secretary for aeronautics in each of the War, the Navy and the Commerce departments. Since then we have made remarkable progress. Then the value of the aeronautic

transfer to a railroad for the night journey. The nineteenth century was the railroad and steamboat age. The twentieth century will be known for the development of aeronautics and air transport. The airways of the world now have a greater mileage than the railways did in 1850, the twenty-fifth anniversary of the opening of the first railroad built by Stephenson.

Attention has recently been called to the safety of air passenger service compared with that of railroads in the early days. In 1927 the Imperial Airways, Ltd., carried 52,000 passengers over 2,500,000 miles without injury to a single passenger. In 1922 eight English railways carrying 10,565 passengers over 3,562,238 miles killed twenty-two and injured thirty-four others.

**LINDBERGH TOUR**

The country-wide tour of Lindbergh in his wonderful and spectacular flight to Paris did much to make America air-minded. A large amount of civil flying is now being done here and the civilian-owned aircraft number 6000.

The aeronautic branch of our Department of Commerce is vigilant, resourceful and progressive. It has inaugurated a comprehensive system of regulation and control of aircraft manufacture as well as operation. Airways are laid out over the best flying country and aids to flying such as beacons and weather reports are furnished.

Our transcontinental airway from New York to San Francisco is over 2600 miles long. More than 5000 additional miles of airways are under the jurisdiction of the Department of Commerce.

An air-information service is maintained and aeronautic research carried on through the Bureau of Standards.

Valuable co-operation is rendered

in the establishment and equipment of airports. On October 1, 1927 ports were available for the use of the Army, Navy and commercial flyers. Municipalities and communities in all parts of the country, realizing that air contacts mean more and better business, are planning airports. Nearly 900 more are now in prospect.

**IMPORTANCE SHOWN**

Air transport means much to the United States divided as it is in the West by lofty mountain ranges and deserts. In the early days it took six months to go from Missouri to the Pacific Coast. An airplane has traveled across the continent in less than twenty-four hours.

We are stretching out our arms through the air to Canada and to our other friends and neighbors in the south.

All nations are looking forward to the day of extensive regular and reasonably safe intercontinental and interoceanic transportation by airplane and airship. What the future holds out even the imagination may be inadequate to grasp. We may be sure, however, that the perfection and extension of air transport throughout the world will be of the utmost significance to civilization. While the primary aim of this industry is and will be commercial and economic and the prosperity of the world will be immeasurably advanced by it, indirectly but no less surely the nations be drawn more closely together in bonds of amity and understanding.

This conference, I know, will have far-reaching results in the advancement of a science and industry which appeals both to the world and the reason of man and which, as the years go by will cement more and more firmly the bonds of international brotherhood.

# OVALTINE

Now a new  
"Pick-up" Drink  
from Switzerland

At Home  
Picks you up when you feel low... Ends afternoon  
"let-downs"... Keeps you on your toes

Buy, ambitious men. You'll find them everywhere now. "Hitting the ball" as hard in the late afternoon as in the early morning. This is how they are able to keep up the winning pace.

They drink a glass of Ovaltine whenever they feel mentally or physically tired. It puts them back in their stride almost instantly. For this new Swiss food-drink has the amazing power to pick you up in a natural, healthy way. To give you tireless energy that outlasts the day. This is why.

Every glass of Ovaltine is actually a meal in itself. In such easily digested form that it quickly supplies your system with energy-producing nourishment. Also helps to digest other foods you eat. Millions now drink Ovaltine regularly. At soda fountains. In their offices. At home. More than 20,000 doctors recommend it.

Drink a glass of Ovaltine when you feel tired. Served at all of our fountains. Or you can easily make it at home. We have Ovaltine in 4 different sizes for home use.

## EXTRA SESSION CALL SOUNDED

Voice of Farm Federation Raised at Convention

Agricultural Aid and Tariff Essentials Set Forth

Lowden Letter Asks Support for Hoover Program

CHICAGO, Dec. 12. (P)—Resolutions calling for an extra session of Congress to enact farm-relief legislation and tariff measures to protect surplus crop production without subsidizing agriculture were adopted today by the American Farm Bureau Federation at the closing session of its tenth annual convention.

Control of agricultural surpluses was described as the "dominant economic question, which faces us at the present time, a national issue not of concern alone to agriculture."

"It is recognized generally that agricultural tariffs and surplus control legislation are companion measures," the recommendations read, "each exerting a long-time influence. Emergency action on either measure is not sought by us since a national policy for agriculture cannot be founded on emergency treatments."

"These measures are inseparable and cannot be made major features of the second session of the Seventieth Congress, which will be considered at an extra session of the Seventy-first Congress, which we confidently expect will be called soon after the adjournment of the Seventieth. In this we are given assurance by the promise of our President-elect, who said:

"So far as my own abilities may be of service, I dedicate them to help secure prosperity and contentment in that industry where I and my forefathers were born and nearly all my family still obtain their livelihood."

"The resolutions say legislation must be adopted to make the tariff effective on surpluses using co-operative marketing associations as the instruments for marketing not only the surplus but the entire crop as well; and containing definite checks and penalties on overproduction."

"This legislation must be of a nature which does not subsidize agriculture."

Frank O. Lowden, former Governor of Illinois and candidate for the Republican nomination until he withdrew at the Kansas City convention last June, spoke "whole-hearted support" for President-elect Hoover's farm-relief program today in a letter read before the convention.

It was Mr. Lowden's first public comment since the election of Mr. Hoover, contained in a letter to Earle C. Smith, president of the Illinois Agricultural Association.

The letter, in part, follows:

"There never was a Presidential campaign, I think, in which the problems of agriculture played so conspicuous a part as in the campaign just closed. The candidates of the two chief parties each recognized the gravity and importance of the problems."

"A perfectly clean-cut issue was developed, however, as to remedies. Both proposed a Federal Farm Board. Mr. Hoover would have the board set up a stabilization corporation, with liberal advances from the government, the purpose of which would be to stabilize the market caused by such surpluses from time to time. He, however, frankly rejected the idea that the cost to the equalization corporation of thus caring for the surplus should be distributed over the commodity as a whole."

"Gov. Smith, on the other hand, clearly and forcefully asserted the principle that the cost of handling the surplus should be borne by the entire commodity. This, in substance, was the substantial principle of the so-called equalization act. Thus the issue was clearly drawn."

MANDATE OF PEOPLE

"When therefore the American people preferred Mr. Hoover to Gov. Smith, they in effect issued a mandate to Mr. Hoover to proceed with the program which he had advocated. All sincere friends of farm relief will now, in my opinion, co-operate whole-heartedly with him in giving effect to that program. In view of the fact that Mr. Hoover will have the responsibility of administering whatever legislation there may be enacted, the wise course, it seems to me at the present time, is to await the incoming of the new administration. Congress no doubt will wish freely to consult with the President as legislation is being shaped. I understand that a special session will be called. That would be the proper time, I think, for legislation on this vastly important question. If such legislation shall not prove effective, the President will no doubt lend a ready ear to further suggestions. For he forcefully said, in his acceptance address, 'the most urgent economic problem in our nation today is in agriculture.'"

Representative Dickinson of Iowa urged the American farmer to lay aside his hopes for an equalization fee arrangement for farm relief and to give full support to the President-elect's program for agriculture.

Mr. Dickinson reviewed the recommendations for farm relief made by Mr. Hoover during the campaign and contrasted the President-elect's proposals with the recommendations made by President Coolidge in his recent message to Congress.

## Committee to Decide Denver University Path

DENVER, Dec. 12. (P)—The future guidance of Denver University's educational policies has been entrusted to a committee of noted educators, it was announced today by John Evans, president of the university's board of directors. Ray Lyman Wilbur, president of Leland Stanford University, and Dr. Henry Suzzallo, former president of the University of Washington, will serve on the committee (with a third member yet to be named). Dr. Wilbur and Suzzallo will come to Denver to confer with the board of directors and will make a survey of the university. Dr. Suzzallo will meet with the faculty tomorrow.

## HYPODERMIC NEEDLE USED BY ATTACKER

OAKLAND, Dec. 12. (P)—Mrs. Corinne Noland, confronted by an attacker who tried to force her into an automobile after he had accosted her, fell unconscious after the man wounded her with what she described as a hypodermic needle. Pedestrians frightened the man away and took her to an emergency hospital.

## STILL AND ARSENAL FOUND IN HOME RUINS

LANCASTER (Pa.) Dec. 12. (P)—A miniature arsenal of rifles and shotguns was found in the ruins of a farm house near here which was burned to the ground with the loss of three lives today. Police investigating the burning of the house said they also found the remains of a still.

## PERU PLANE LANDS IN CHILE

SANTIAGO (Chile) Dec. 12. (P)—The airplane Peru, carrying the Peruvian aviators, Carlos Martinez De Pinillos and Lieut. Carlos Zegarra, landed here at 8:03 p.m. after a flight from Ilo, Southern Peru, today.

## RUMANIA POLL FAVORS MANIU

Early Returns Indicate Vote for Peasant Party

Bratianu Forces Limit Efforts to Urban Districts

Election Most Peaceful in Nation's History

BUCHAREST (Rumania) Dec. 12. (P)—Early returns tonight from the national election for members of the lower house of Parliament indicate that the Peasant party of Premier Maniu will be confirmed in office. In the rural districts the Liberal party of former Premier Bratianu made no attempt to contest the election with the Peasant candidates. They confined themselves to the large cities and towns, where they hoped the bourgeois vote would gain them at least 100 out of the 387 seats in Parliament.

The peasants, who form by far the greater number of voters in the nation, predict that the Liberals will not gain more than a dozen mandates. The final vote will not be known until late tomorrow.

Rumania never has known such a peaceful election as that of today. Millions of peasants took the opportunity to celebrate and made gay excursions dressed in their best Sunday sheepskins, while shepherd-like cotton costumes and biblical sandals. They had no such freedom at the polls since before Rumania was freed from Turkish bondage.

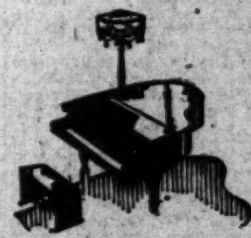

## CONFESSION REPORTED

BUFFALO, Dec. 12. (P)—Police announced today that Arthur Leonard, 18 years of age, held in Erie county penitentiary, had confessed that he shot Mrs. Juanita Jones, 63, near Towanda, Pa., and then crushed her skull, the night of the 3rd inst.

## THE MAY CO

SINCE its beginning, 105 years ago, the Chickering Piano has been a favorite of America's aristocracy. Mrs. Daniel Webster, wife of the statesman, was only one of hundreds of prominent Chickering owners in her time. Today, thousands of America's proudest families prize the Chickering. The home which holds a Chickering is the heir of America's richest traditions.

Give your home this prestige. See the late Chickering models. Imagine how one of them would add to the interest—the beauty—of your living room. The prices are moderate—the terms 10% down, with years to pay the balance. Come in today!

PRESENTING THE NEW CHRYSLER

# IMPERIAL

Supreme Attainment of  
CHRYSLER Engineering  
and Craftsmanship

{ Now on display for the first time }  
at our salesrooms

New Imperial 7-passenger Sedan, illustrated. Also available in 5-passenger Sedan, Sedan Limousine, Tour Sedan, Roadster and other custom-built body models

To the many thousands of Chrysler enthusiasts who seek the superlative in power and performance, in size and in richness of investiture, it is our pleasure to present the new Chrysler-Imperial. In the design and construction of the Imperial, cost has not been a factor. The Imperial is built for those who have so insistently requested a car representative of the utmost

in Chrysler power, smoothness, fineness and beauty. Here a discerning public quickly senses a degree of quality which would be prohibitive in cost, if produced with anything less than Chrysler efficiency and economies. In the Imperial are centered all of the advancements and scientific achievements which Chrysler engineering genius and manufacturing skill

have devised. The Imperial represents the Chrysler ideal of what a superlative large motor car should be. Nothing of highest quality can add less than what is submitted for your most discriminating examination, in full confidence that it is the supreme attainment of Chrysler engineering and craftsmanship.

## SPONGE SOUGHT IN KANSAS CITY

Plea Made to Close 1000  
Liquor Selling Places

Civic Body Asks Federal and  
State Forces to Act

Police and Prosecutor Pass  
Buck to Each Other

KANSAS CITY, Dec. 12. (P)—Telegrams requesting immediate action on the liquor situation in Kansas City, characterized by local and Federal officials alike as a "wide-open town," were dispatched late today to prohibition officials in Washington and to Gov. Baker of Missouri by the Law Enforcement Association, a civic body.

The action followed assertions that at least 1000 liquor-selling places are operating in Kansas City and charges of laxity and police protection, which were brought to the fore by the act of a mobster, Carrie Nation in wrecking a neighborhood saloon with an ax Monday.

**MERCHANTS SIGN PLEA**  
The telegrams were signed by Howard McCutcheon, Ellison A. Reed, William Volker and Russell P. Greiner, all prominent business men and members of the association.

Police place the onus on liquor-holes in the law and on the prosecutor's office, saying that a handful of convictions have been obtained out of 3000 arrests, and the prosecutor's office passed it back to police charging slipshod methods of obtaining evidence.

**ENFORCEMENT DIFFICULT**  
W. Harold Lane, chief dry enforcement officer here, and Roscoe C. Patterson, United States District Attorney, told Lincoln R. Toyne, Chief of Police, they will co-operate and prosecute liquor cases in Federal court if police will make cases which will stand up in Federal court and obtain evidence and make arrests in an approved manner.

Toyne and Sgt. Elmer Duncan, head of the police raiding activities, agreed that Lane's estimate of 1000 liquor-selling places in Kansas City is right, but said enforcement is difficult because the bootlegging trade extends into supposedly respectable residential and business neighborhoods.

Mrs. Mauda Wilson, who effectively closed a saloon by using an ax to smash fixtures after, she said, her husband and daughter had obtained liquor in the place and after authorities had failed to act, is under summons to appear before the Jackson county grand jury and tell what she knows about police and frequenting the saloon. Her husband

## FAMILY TREES LOCK BRANCHES

It Would Take Einstein to  
Figure out Eventual  
Relationships

WILLINGTON (Ct.) Dec. 12. (P)—Two Parisians and one of the Hipkys will marry two Hipkys and one of the Parisians here Saturday. It sounds confusing but it is just a case of two sisters and a brother in one family marrying two brothers and a sister in the other family.

Here is the way they will pair off: Ralph Parisen and Amelia Hipky, Charles Parisen and Irene Hipky, Paul Hipky and Barbara Parisen.

and daughter also received summonses.

Mrs. Wilson has recovered somewhat from an attack of nervous excitement, which sent her to bed yesterday, and is keeping guard over a bottle of liquor she confiscated in the saloon for evidence.

**State to Raise  
Orphans Fund**

SACRAMENTO, Dec. 12. (P)—The State administration will ask the Legislature for \$3,847,000 for support of 14,500 orphans during the next biennium. Director of Finance Heron announced today. This is \$232,000 more than allotted for the present biennium.

The State shares with counties the expense of supporting needy orphans. The counties may contribute unlimitedly while the State's share cannot exceed \$10 per month. Orphans aid work is handled under the jurisdiction of Mrs. Ana Saylor, director of the department of social welfare.

**Liquor Informer  
Taken 'for Ride'**

CHICAGO, Dec. 12. (P)—A former bootlegger who turned informer for the prohibition department, to win his freedom was found, shot to death in a prairie on the far South Side today. His death is the fourth in a week attributed to the feuds of liquor runners.

The victim was Frank Basil, 26 years of age, chauffeur for the prohibition department, husband and father of three children.

## POLISH CRISIS BEFORE LEAGUE

Lithuanian Premier Points  
Picture of Fears

Situation Declared Peril to  
Peace of Europe

Warsaw Denies Seeking to  
Widen Frontiers

LUGANO (Switzerland) Dec. 12. (P)—The Polish-Lithuanian controversy again came before the Council of the League of Nations today, the representatives of Poland and Lithuania each charging the other nation with obstructing solution of their difficulties.

Premier Waldemaras of Lithuania conjured up a picture before the Council of Poland swallowing all Lithuania. Demanding again the return of Vilna, Waldemaras insisted that Lithuania either must get back Vilna and be independent or she will lose everything else by acts similar to the military seizure of that city by the Polish general, Zeligowsky. He contended by declaring that the situation is precarious and must be clarified in the interests of the peace of Europe.

Foreign Minister Zaleski of Poland in reply insisted that the recent Koenigsberg conference had failed, as well as other efforts at reconciliation, because Lithuania is a police state of passive resistance. This, he declared, is what is preventing that good understanding on which peace depends.

**WANTS INQUIRY**  
Zaleski then urged the Council to apply the provisional plan outlined in the Council resolution of last September calling for the appointment of experts to investigate the entire dispute.

The Polish Foreign Minister sought to sweep away the spectre raised by Waldemaras' Polish aggression by solemnly declaring that Poland will never seek to enlarge her frontiers and that her entire policy is based on peace and the existing treaties.

Foreign Minister Briand of France, who is presiding at the Council session, then asked Count Quinones de Leon of Spain to submit a report on the dispute and the Council adjourned until tomorrow. The appointment of experts, which Waldemaras never accepted, was regarded at the time the resolution was adopted as a kind of warning to both parties that they must get together and settle their differences or the Council might institute economic punitive measures against the state adjudged recalcitrant. In the ground that the situation is a menace to peace.

**GERMANY'S CASE**  
Dr. Gustave Stresemann tonight belittled current reports that Germany is expecting the early and complete evacuation of the Rhineland. The German Foreign Minister, here to attend the League Council meetings, emphasized that Germany was counting on complete evacuation of German soil when the reparations problem had been adjusted, but he remarked on the great uncertainty as to when and whether the reparations question would be liquidated satisfactorily.

He also deplored what he felt is the tendency of other countries to link these two problems, which to the German mind are separate issues. Conversations between Dr. Stresemann and Foreign Minister Briand of France already have focused on the proposed creation of a committee of verification and conciliation in the Rhine area once that region is liberated of troops.

Members of the League Council, including Briand, were pleased tonight with reports from the United States indicating that yesterday's action of the Council in the Paraguay-Belgian dispute, had been considered helpful and opportune.

**MUSSEL POISONING  
CAUSE DETERMINED**

HEAT-RESISTING SECRETION  
BY BIVALES BLAMED  
FOR FATALITIES

BERKELEY, Dec. 12. (Exclusive) Secretion of a heat-resisting substance which is not poisonous to mussels, but is poisonous to humans when activated by digestion, is the real cause of the so-called mussel-poisoning epidemics which were noted in the San Francisco Bay district and Central California last year and this, according to the findings of University of California scientists.

Announcement is made by Dr. K. F. Meyer, H. Sommer and P. Shoenholz of the Hooper Foundation for Medical Research following exhaustive tests. The findings disagree with previous opinions that the sea-food poisoning was due to bacteria.

At the same time it was disclosed California has not been alone in the prevalence of the poisoning, similar epidemics having occurred in British Columbia, Scotland, England, Ireland, Prussia, Norway, France and South Wales. Total number of deaths reported from all points, it was said, is 38, although effects of the poisoning have been recorded since 1798.

**MONTEREY PRESIDIO  
WILL BE MAINTAINED**

SAN FRANCISCO, Dec. 12. (P)—The Presidio of Monterey will be retained with its garrison intact for some years to come, Maj. Gen. Eines, commander of the Ninth Corps Area, commenting on reports that the Presidio was to be abandoned, said this afternoon.

Ordinarily \$12.50 and \$15.00  
and slight extra for cash or C.O.D.  
(First Floor)

You can make her  
the proudest hostess in her set  
this Christmas

The most coveted possession of the modern home is a  
reproducing piano - almost indispensable to the resourceful hostess.  
From Paderewski to the dance kings of Broadway -  
practically every great pianist of this generation (classic or popular)  
records his masterpieces for the DUO-ART exclusively.

For the dinner party - the dance - the afternoon tea -  
the bridge game - the children's party - the evenings of rollicking fun.  
For all these occasions - formal or informal -  
which center in the home of the popular hostess -  
her unfailing lieutenant for entertaining is the Duo-Art.  
What woman has not coveted the Duo-Art with all her soul?  
And like many interesting things,  
it is far easier to own than you may imagine.  
To begin with - a liberal allowance will be made for your old piano.  
Your Duo-Art may be paid for over a period of two years or more.  
and the first payment is extremely modest.  
The Duo-Art is built into the three great international instruments -  
and in dozens of models to fit any purse.

There is a DUO-ART in the immortal Steinway (\$4075) - \$350 down  
A gorgeous Louis XVI Steinway DUO-ART (\$5355) - \$400 down

# Don't Overlook the Opportunities in Santa Monica

SIXTY years ago, Santa Monica became Southern California's first summer resort. Land was cheap and plentiful. Men took only the "cream" and cast the rest aside. Its Climate and Setting made Santa Monica the natural choice for Play and Recreation.

Even in the 80's, 200,000 people came in a single year to enjoy the glistening beach, purple mountains, refreshing air and glorious sunsets of Santa Monica Bay.

Since then, uncounted millions have come to enjoy these classic gifts of Nature. Many have traveled across continents just to stand for a few minutes on the Palisades and feel well paid for their trouble.

INTO the lap of Southern California is now pouring the wealth of a nation. Along with industrial supremacy is developing one of the Finest Cultural Environments the World Has Ever Known.

Education, Music, Art, Literature, Religion, Sport are receiving new impulses toward higher goals. Ancient institutions are emerging in glorified form. Pacific Palisades Association (essentially a Chautauqua) and the Botanic Gardens (essentially a park) are two examples. Others are the Easter Sunrise services, Hollywood Bowl concerts and Santa Monica's Community Chorus.

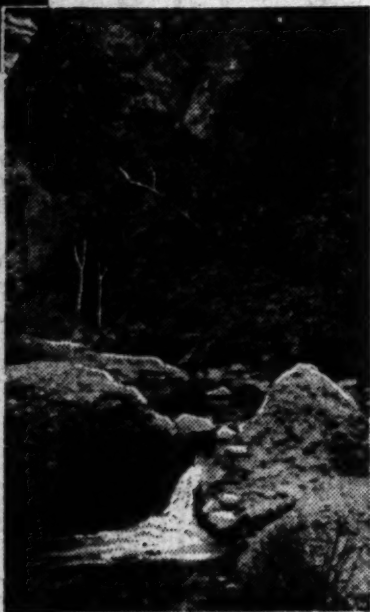

THROUGH it all, Santa Monica has stood out as an inspiration and a guide. Santa Monica . . . serenely beautiful . . . wholesomely clean . . . reflecting the stability of age and experience . . . certain of her destiny as the Ideal Home Community. Santa Monica has been a tremendous magnet, attracting the Good and Beautiful in Human Institutions, the Able and Intelligent in human beings themselves.

Through it all, it has ever been as it was 60 years ago, that men have turned toward the setting sun over Santa Monica Bay for the perfection of Climate and Setting that makes Home Life and Recreation most worth while. Hence it is that along the five major boulevards that reach from the city to the sea at Santa Monica, there has been established everything that Man could possibly want for Home and Recreational environment—magnificent residential suburbs, country clubs, flying fields, country estates, parks, bridge trails, polo fields, beach clubs, mountain resorts.

YOU can't go wrong by investing anywhere along the magic ways that lead to Santa Monica. And you can't go wrong in Santa Monica itself, first established and most strategically situated of all the fair communities in this Amazing Cultural Growth. Homesites in the best section of Santa Monica can be bought for as little as \$3000. Investigate Santa Monica. Don't overlook its opportunities.

## SANTA MONICA

- Population 50,000
- 17 miles from Los Angeles by wide boulevards through the Southland's proudest residential sections.
- Climate 10 degrees cooler in summer and 10 degrees warmer in winter than downtown Los Angeles.
- Clean wide streets, beautiful parks.
- Municipal airport.
- Municipal golf links, tennis courts, archery field.
- Twelve country clubs within a few miles. Polo fields.
- Wonderful beaches, several beach and swimming clubs. Amusement piers.
- Few minutes ride to new universities.
- Commission form of government.
- Splendid schools, churches, stores and hotels.
- Excellent woman's club.
- Various cultural and civic enterprises sponsored by a high type of citizenship.

## DUAL EXCHANGE SEATS SEVERED

Memberships on Curb Made Transferable

Brokers on Parent Market May Sell Interest

Combined Value Now Raised to \$210,000 Mark

Divorce of Los Angeles Curb Exchange membership from the parent organization, the Los Angeles Stock Exchange, will become effective January 1, next, Norman B. Courtney, secretary and manager of the older organization, announced yesterday.

All members of the stock exchange were awarded seats on the curb upon its organization by the former institution last June. These seats were nontransferable separately, transfer of membership in the stock exchange including curb representation.

With the split-up in the identity of the two memberships there will be a corresponding rearrangement of seat values due to this privilege of separate transfer. The last sale of a combined membership was at the record price of \$175,000.

Viewed separately, however, the two seats would now cost \$210,000 based on the last sale of a treasury seat of each exchange, the difference of \$35,000 being the estimated value of the privilege of separate transfer. The last sale of a treasury seat on the stock exchange was recently consummated at \$150,000 and a curb seat at \$80,000, the latter more than double the previous sale.

Value of curb membership since organization has jumped \$53,000. The first treasury seat was sold at \$70,000. Stock exchange seats have soared from \$22,500 at the first of the year to \$150,000, an increase of \$127,500.

October transactions on the curb were valued at \$23,453,164, as against an estimated value of \$30,750,000 on the San Francisco Curb Exchange for the same month. November sales here reaching \$35,766,681 eclipsed the northern market by approximately \$5,000,000. Mr. Courtney stated, seats on the San Francisco curb are selling currently at \$80,000.

The original quarters of the curb have already been outgrown and preparations are now under way to provide 5000 additional square feet of space by the removal of the clearinghouse quarters on the curb floor. A third trading post was recently installed.

**Seeks Location Here**  
J. L. Dobbins and Ronald Bernier, vice-presidents of Russell, Colvin Company, members of the San Francisco stock and curb exchanges, arrived here yesterday to look over the local investment situation with the view of establishing an office in this city shortly after the first of the year. Russell, Colvin Company was founded in San Francisco in 1922.

## LOCAL IRON INDUSTRIES IN COMBINE

Llewellyn, Baker, Union Companies Join to Form \$6,000,000 Unit

Consolidation of the Llewellyn Iron Works, Baker Iron Works and the Union Iron Works, all of Los Angeles, into a new company under the name of the Consolidated Steel Corporation, is nearing completion, it was learned yesterday. Negotiations have been handled by Lee A. Phillips of the Pacific Mutual group.

When completed, the consolidation will result in a \$6,000,000 combination of steel companies equipped to handle a large volume of business on a more economical basis.

The three companies do a similar business and have been operating independently for more than twenty years.

Manufacture of elevators, structural steel, machinery, millinery, etc., is carried on in the plants of the respective companies entering into the consolidation. After the merger is effective, it is expected that various manufacturing operations will be segregated in the different plants in the interests of efficiency and economy.

Directors and officers, capitalization of the company and other details will be announced by Mr. Phillips in about two weeks.

**Optimistic Note in Forecast on Auto Industry**

NEW YORK, Dec. 12. (Exclusive)—With introduction of new models several weeks prior to the annual motor show, many automobile manufacturers have announced schedules which, at least, indicate an unusually optimistic view of the industry's prospects for 1936. On the basis of these schedules, it is evident that production of between 6,000,000 and 7,000,000 cars and trucks will be necessary to meet the ambitious plans under way are to be realized.

Although the industry in the past has been noted for its ability to confound pessimistic predictions of its future, few authorities are paying serious attention to present extravagant forecasts except in so far as they show the immediate prospect of record-breaking output. It is generally realized that predictions a year in advance in an industry so dynamic as the motor industry, must be considered flexible. Optimistic utterances in connection with new lines serve their purposes in stimulating enthusiasm among dealers and the public concerning new product, but they have little value statistically.

In the present instance, however, sufficient is known of the immediate plans for production of new models to indicate a period of unusually great activity during the early part of next year. Some of the leading volume producers have announced their new offerings unusually early and the results should be the accumulation of a heavy log of orders by the time plants are in full production and deliveries are going forward.

**DROP IN COTTONSEED CRUSHINGS REPORTED**

WASHINGTON, Dec. 12. (AP)—Cottonseed crushed in the three-month period ending November 30, last, totaled 2,267,308 tons, compared with 2,407,864 tons for the same period in 1934, and cottonseed on hand at mills November 30, totaled 1,323,267 tons, compared with 1,118,165 tons a year ago, the Census Bureau announced today.

**NILES-BEMENT-POND TO CALL PREFERRED**

NEW YORK, Dec. 12. (Exclusive)—Niles-Bement-Pond Company will call the approximately 15,000 shares of preferred stock for redemption at \$100 a share on June 30, next, according to present plans. Directors today declared two regular quarterly dividends of \$1.50 per share, payable March 31, and June 30, next, on stock of record March 20 and June 19, respectively.

**COCA COLA VOTES TO CARVE HUGE MELON**

NEW YORK, Dec. 12. (Exclusive)—Following the approval today by stockholders of the creation of 1,000,000 new class A shares bearing an annual rate of \$5 per share, Coca Cola Company directors voted to issue this stock as a dividend share for share, or amounting to a 100 per cent stock dividend. The stock, which is callable at \$25.50 a share, is payable to stock of record January 15, next.

## NEW AIR LISTINGS PLANNED

Total for Los Angeles Exchange May Reach Six, or Second to New York Curb Market

Definite progress has been made by the Los Angeles market in the race for honors as the leading trading center for airplane securities. Three popular stocks of this type are regularly listed on the Los Angeles exchanges, two more are active in the unlisted and over-the-counter market and are preparing to list, and another, it is understood, is investigating listing requirements.

Interest here in airplane issues naturally follows the remarkable rise in Southern California of aircraft and equipment manufacturing, passenger and mail lines and training and experimental projects. The United States Department of Commerce statistics show that Southern California is leading the world in aircraft owned and operated, planes sold, hours flown, students trained and number of pilots and personnel.

**APPELITE GROWS**  
Since the introduction of Lockheed Aircraft to the trading public, the appetite of Southern California traders for this type of security has grown enormously. The market is taking in more and more shares which they have had an opportunity to become familiar with, and another company manufacturing locally, were given a good reception, and the recent offering of Lockheed Aircraft was oversubscribed more than five times a Southern California.

Lockheed, Kinner and Fokker are listed on the Los Angeles Curb Exchange, although Fokker, it is reported, may soon apply for listing on the Stock Exchange. Douglas Aircraft, also manufacturing here, is expected to apply for Stock Exchange listing, and Maddux Air Lines will probably go on the Curb Exchange shortly. After the recapitalization of Western Air Express is effective, this company is expected to apply for listing on the Stock Exchange.

If these additional listings materialize, the Los Angeles exchanges will boast a total of six airplane stocks, more than any other market in the country, and more than New York Curb. And all of them, including Fokker, which will soon announce plans for a plant here, are Southern California enterprises.

**OTHERS POSSIBLE**  
As the trading in these securities increases, will the attraction for other airplane companies to list here become greater. For one reason, Southern California is regarded as the greatest potential market for airplanes in the Western Hemisphere and popularity of securities is usually an aid to the sale of the company's products, and vice versa. Boeing Aircraft and Transport, a possibility, and Transcontinental Air Transport, also a passenger and mail line, is another. Both would benefit from a wide and active market in their shares.

Of the manufacturers, Bellanca Aircraft, Travel Air Manufacturing, Swallow Aircraft, the Bensen and Cessna Aircraft, B. F. Mahoney Aircraft, Consolidated Instrument, Moth Aircraft, American Eagle Aircraft and Graceland Aircraft, among the likely prospects.

Retail business, while showing improvement, is far below last year, according to the weekly letter of Bradstreet's on Los Angeles conditions, issued yesterday. Holiday and novelty goods sold fairly well in November, but collections are slow. An advertising campaign for women's wear is in progress in an effort to "keep the cash" in the stores. Wholesale complaints of small sales and unsatisfactory collections.

Drug trade reports business good as does the electrical trade. Mail-order houses and chain grocers continue to report satisfactory business with a small monthly increase in gross sales. The weather is good for the crop, winter rain is needed. Produce prices are lower, due to heavy receipts on hand in local markets.

**Trade in Local Area Improves**

THE stock market was steady today, with talking machine issues in demand. The industrial list generally had a firm tone. The oil group was better demanded, especially Royal Dutch and Shell issues. Outside of a demand for Mond Nickel the mining group was dull. Wireless securities had a better tone and tobacco was in the rubber. The textile, and artificial silk groups were dull.

The gilt-edge division had a better tone. Foreign issues were quiet, Home and Argentine rails were calmer.

**Greece to Get Sizeable Loan**

ATHENS, Dec. 12. (Exclusive)—The contest between the Greek government and the Hambros international bank, which has been going on since the 18th inst., is over. A Greek loan is to be issued without guarantee from the International Control Commission, the Hambros bank has agreed to guarantee the National Bank of Greece, which pays the interest and sinking fund from the government's surplus revenue in its hands after payment of the international control of all amounts needed for service on old loans.

**Bond House to Pay Yule Bonus**

All employees of Metzler & Co. of California, underwriters of first mortgage bonds and its affiliated organizations, will receive a Christmas bonus of a full half-month's salary, it was announced yesterday.

The affiliated companies of Metzler & Co. include Commonwealth Home Builders, United Mortgage and Loan Corporation, Associated Mortgage Securities Company and United Insurance Agency. The bonus applies to employees who have been in the organization for a year or more.

## LOS ANGELES EXCHANGE

## Prices Ease Fractionally on Light Turnover as Traders Mark Time

Cautiousness typified traders' operations from the opening yesterday on the Los Angeles Stock Exchange which checked somewhat the bullish sentiment exhibited to the close of Tuesday's session. The market generally backed and filled to fluctuate within a narrow range, presumably influenced by fears of a secondary reaction. Trading volume was relatively quiet and the closing gong sounded on an irregular price list in which the advance of the two preceding days was sustained to within a fraction.

Standard of California was a market leader in activity and advanced 1-4 point to 71 1/2. Union of California eased a similar amount to 32-1-4 after reaching 3-4. Union Associated held steady. Richfield played a prominent part in the turnover but reacted 13-8 points under pressure to end at 45-3-8. Barnhill was forced off 15-8 to 39-3-4. Signal eased 1-4 to 42.

Lower-priced oil shares were spotty. Mt. Diablo and Mascot each advanced 10 cents to 3-30 and 3-00, respectively. Bolca China lost 15 to 3-10 and Buckeye, 25 to 2-00. Gil-

## LOS ANGELES CURB

Uncertainty characterized operations yesterday on the Los Angeles Curb Exchange, and brought about an irregular list of price fluctuations. Mexican Seaboard, leader of the activity, faced a concentrated selling attack to drop 3-8 points to 53-3-8, after a transfer of more than 12,000 shares was recorded. Other favorites such as Claude Neon and Lockheed were forced down, although several gains took place in the balance of the market.

Bank of America was a spectacular performer with a jump of 6 points to 100-1/2. Banca D'Italia advanced 1-4 to 53-4. Banca D'Italia Petroleum, Globe Petroleum, Tidewater and

**A Frank Statement About Giving Investment Information**

**P**ROSPECTIVE investors often wonder, no doubt, why bond houses are so ready to give information gathered and analyzed at considerable expense.

Broadly, the offering of such data and opinions based upon studies is a form of indirect selling. It affords opportunity to make new contacts; to win the good will and confidence of investors and inspire them with a desire to do business with the house.

That is the "why" of our own Statistical Department.

**BY HOWARD C. KEGLE**  
Completion of a pipe line from Pass Creek oil field to a station on the Kern Front Street General Petroleum Corporation's pipe line system opens a new outlet for about 10,000 barrels a day of production from that area.

The line was built by the General Petroleum Corporation, its new line and the pipe is 42 in. in dia. It has a daily capacity of more than 10,000 barrels. The line was built in response to the production demand of the General Petroleum Corporation.

has about 2500 barrels of oil production in the field. Under the lease terms, this oil was to be started moving last month. The corporation is said to have paid an extension of six months for the property owners. The production was discovered in the Creek field about two years ago because of lack of trust in it. It has been necessary to shut-in well as it was owned by the General Petroleum Company, Petroleum Service Company and Union Oil Company. According to reports.

## STEADY RAIN BRINGS JOY TO FARMERS

Slow Downpour Soaks in; Season's Total Brought to More Than 4 Inches

Southern California's latest rainstorm, which struck Los Angeles at 3 p.m. yesterday, was adding steadily to the season's rainfall total at a late hour last night.

The storm total at midnight, according to unofficial figures, was approximately an inch, which brings the season's total to more than four and a half inches. Last season at this time 3.75 inches of rain had fallen. Normal rainfall on the same date is 3.60 inches.

Showers are expected today, according to the official forecast of the United States Weather Bureau, and tomorrow is expected to be fair, with moderate temperatures prevailing.

Beach cities of Southern California were reported late last night to be getting more rain than inland communities, reports from outlying points indicating that the rains were not general and that several inland points received little moisture.

It continued to rain steadily in Los Angeles at a late hour last night with little promise of slackening.

### VALUE REVEALED

The value of the present rain has been increased greatly by its following closely on last Monday's storm, agricultural experts agree.

"The ground didn't have a chance to dry out until this rain came along and pounded the moisture already present further into the soil," Marvin B. Rounds, Los Angeles county farm adviser, declared last night.

"A reserve of moisture is being built up which will prove to be of unestimable value to the tree crops—particularly walnut and citrus trees."

### RAINFALL FIGURES

Following is the rainfall, in inches, reported from various Southern California points, up to 6 p.m. yesterday:

Point	Rainfall
San Francisco	1.50
San Jose	1.20
San Diego	1.00
Los Angeles	1.00
San Bernardino	0.80
San Luis Obispo	0.60
San Francisco	1.50
San Jose	1.20
San Diego	1.00
Los Angeles	1.00
San Bernardino	0.80
San Luis Obispo	0.60

### RAIN AND SNOW DISRUPT AIR MAIL SCHEDULES

SAN FRANCISCO, Dec. 12. (Exclusive)—Heavy rain and snow arrived at most Northern and Central California points today exactly in accordance with the weather bureau's timetable but, by so doing, they disrupted air-mail schedules for the second time this week.

San Francisco, where the rain brought precipitation totals to the point where uninterrupted continuation will mean damage to agriculturalists. Danger of the latter is not so great as it was yesterday, when the rain was so heavy that it was feared that the city would be completely isolated.

The second depression of the week, which gave promise of its presence and design yesterday, moved into the region west of the Rockies and Sierras during the day and was expected to reach the coast tonight.

Eighteen inches of new snow fell at Summit in the Sierras, bringing the total pack there to thirty inches. Proportionate falls are reported throughout the Sierras and Sierras. Rain was lightest at Fresno where it was an inch and a quarter at Bakersfield. Stockton escaped entirely.

Severely blizzards proportion caused entrapment of the south-bound coastwise air mail from Seattle at Medford, north bound air mail from Portland at Bellingham, and the Burbank-Palo Alto transcontinental at Omaha.

Heavy squalls along the Coast, whipped up by southerly gales from Point Barrow to Cape Henry, drove the motor boat Delia ashore at Half Moon Bay and prohibition authorities began an investigation.

The Delia was fined \$500 last week for failing to stop when ordered by a Coast Guard patrol boat. It is registered to N. K. Hale of San Pedro, but is being sold to H. C. (Continued on page 12, column 7)

## BABY'S NAME PURCHASED AND THEN CAST ASIDE

Strange Story of Woman Hiring Husband for Child's Sake Revealed in Court

People's Exhibit "A" Whose Paternity Was Determined by Jury. A jury of twelve women to determine the paternity of (Gale Dean Pickard) held in his arms.

### WORK BEGUN ON ANOTHER HUGE PLANT

Los Angeles Can Company Takes First Step to Carry Out \$1,000,000 Program

Construction was launched yesterday on the first unit in a building program of \$1,000,000 for the Los Angeles Can Company on a site of eight acres in the Union Pacific Industrial Tract near Indiana street and the Union Pacific tracks.

The Los Angeles Can Company, a subsidiary of the Continental Can Company, is managed by W. M. Berryman. Representing the Continental Can Company in the expansion plans, W. M. Thompson, Pacific Coast manager, has been conferring with officials here.

Scotfield-Twits Engineering and Construction Company has been placed in charge of construction. The first building will be 340,000 feet, with an office unit and other buildings to follow, it was learned.

Officials of the parent organization are said to be due in Los Angeles about the first of next year to supervise building operations. Present headquarters of the Los Angeles Can Company are at 303 San Fernando Road. Development of the Pacific Coast together with the city's position as a distribution point and industrial center was given as reason for the selection of this site for the expansion.

### First National Studio Suffers Second Blaze

The second fire on the lot within the past month yesterday swept through the still photography department at the First National studio, Burbank, causing damage estimated between \$15,000 and \$25,000. It is believed the fire originated in the ventilating machinery of the operating department building.

The still photography department and several small shops were destroyed by the flames, which were extinguished by members of the Burbank Fire Department and studio employees.

### PIPE LINE COUP REVEALED

Job Under Coast Highway at Santa Ynez Canyon Completed in Quarry Battle

Construction of a pipe line under the Coast Highway at the mouth of Santa Ynez Canyon was completed early this morning by the Los Angeles Mountain Park Company as a surprise move in the battle which has been waged to prevent establishment of a limestone quarry in the canyon.

While the Pacific Palisades Protective Committee was seeking support for its opposition movement from the Beverly Hills Chamber of Commerce, a crew of men working under the direction of Wilkie Woodard, chief engineer of the land company, was forcing the eight-inch wrought iron casing under the road way and for a number of feet on either side of the pavement.

**KNOWLEDGE ADMITTED**

Although Alphonse E. Bell, president of the company seeking a permit to operate the quarry, admitted last night that he had knowledge of the construction of the pipe line, he denied knowing of the work which was in progress or of any particular significance to the move.

Bell said he had learned of the work when he received instructions from Claude Wayne, secretary of the company. He declared that no legal difficulties or entanglements are expected.

### Order Stresses Special Care for Air Mail

"Air mail must be given special attention and must not under any circumstances be handled as ordinary mail," said an order just issued by John H. Bartlett, first assistant Postmaster-General, a copy of which has been received by Western Air Express. The order emphasizes the value of air mail dispatch during the Christmas rush period.

"The essence of the air mail service is speed," states the order, "and it is necessary that mail bearing such special treatment shall be given its dispatch so as to make the earliest possible connection with the air mail service. Air mail postage carries with it an obligation which involves the attention required to give the service purchased by the patron."

### Damage Plea for \$50,000 Nets Him \$50

Damages amounting to \$50 were awarded by a jury in Superior Judge Beecher's court yesterday for the death of Mrs. Mary E. Lorenz.

Walter C. Lorenz, husband of the deceased, brought suit against the Builders' Service Bureau for \$50,000 damages. In his complaint he asserted that in August, 1927, he and his wife and two children were overpowered by fumes caused by a faulty furnace flue in the apartment house where they made their home. Mrs. Lorenz, he said, died after sleeping 145 hours.

The husband was awarded \$50 for the death of his wife; \$100 compensation for loss of work, and \$1500 for medical expenses.

### BIDS FOR HANGARS SENT TO COUNCIL

The lowest bid submitted to the Board of Public Works yesterday for the construction of two steel hangars at Mines Field, according to the estimate of Superintendent of Construction Brittain, was from the Union Iron Works and offered to furnish the steel complete for \$21,000, or the steel for the roof without side walls for \$16,477. The bids were sent to the City Council with the request that they be acted upon under the emergency provision. The hangars are to be 100x100 feet, with a connecting building 30x100 feet, to be used for shops.

### DEATH BEATS TRAFFIC BELL

Haste to get across the street before the traffic bell sounded proved too much for David Lynchick, 68 years of age, at Third street and Broadway and he fell dead in the street amid a crowd of Christmas shoppers.

Mrs. Lynchick was the father of Sgt. Morris Lynchick, a hero of Vim Ridge, whose body was the first of the Los Angeles dead to be brought back from France. The body of Sgt. Lynchick was received in state by Los Angeles and a huge Memorial Day parade was held with more than 30,000 soldiers and sailors in line to Rose-dale Cemetery in 1921.

The body had lain in state in Pershing Square for three days

## JULIAN IN ROW WITH JURYMEN

Argument Brings Threat of Contempt Action

Promoter Defies Inquiry and Reads Letter

Prosecutor Steps in to End Heated Argument

Questioning of C. C. Julian, former head of the Julian Petroleum Corporation, by members of the grand jury investigating a charge that the promoter had sold mining stock illegally, brought forth a heated argument late yesterday and a threatened contempt of court action when Julian attempted to read a lengthy letter after the jurymen had declared they did not care to hear further evidence.

The tense situation was relieved after a few moments when Assistant Chief Deputy District Attorney Jordan, in charge of the investigation, took the document and read it into the record.

**CALL FOR RAILIFF**

The first intimation that grand jury observers had that the inquiry was not proceeding along the customary lines, came when a member of the jury requested the services of a bailiff. This order, however, was quickly countermanded, and after adjournment Jordan explained as much of the controversy as expedient while Julian gave his version of the affair.

Near the close of a two-hour questioning Julian rose to his feet and offered the letter, which he asserted was an opinion written by Dep. Dist. Atty. Becker and covered the identical case under investigation. The reading of the letter by Julian was objected to by Col. Thomas E. Cooke, foreman of the grand jury, who ruled that additional evidence was not required at this time.

Julian, according to his statement, then declared that he would read the letter, regardless of the attitude of the jury foreman. Another objection followed and then Jordan took the letter and explained to the jurymen that it was inadmissible.

**EXPLAINS MINING DEAL**

The stock promoter appeared before the grand jury to explain his side of a \$65,500 stock-mining deal, which Mrs. Amelia Miller, a wealthy widow, on Monday had told the jurymen was illegal, and did not conform to state laws. She asserted that Julian sold her stock in the Monte Cristo and Old Gold Mining companies without a Corporation Commission permit, and that the stock was worthless.

Julian asserted he sold the stock as an individual and not as a stock broker, and in such action did not violate the corporate securities statutes. He also contends that the letter he offered to the grand jury is the result of an investigation started more than a year ago on the case, and that the document is based on the authority of a former case before the District Court of Appeal in which it is held that it is no offense for an individual to sell his privately owned securities without the Corporation Commission approval.

Further investigation of the case will be undertaken, it was understood last night, with Jordan directing the activities of the grand jury.

**MARCO CASE UP**

Additional information on the Albert Marco case was heard yesterday when John B. Biscailly and Deputy Sheriff Wright and Fox were questioned on trips Marco is asserted to have made to business houses from his cell in the County Jail.

Another investigation, which filled a busy day yesterday for the grand jury before adjournment until 10 a.m. Friday, was the hearing of Mrs. Eunice Martin, who related her story of an alleged kidnapping by four police officers. Mrs. Martin, it is understood, asserts that the former District Attorney's office had refused to issue complaints or investigate her charges. She contends that she has been prevented from telling the "real truth" about the Hickman case.

## The Lancer

Harry Carr

OWENS and I went to a swell party in the crumbling old town of Compostela. This old village, unspoiled and unknown to tourists, dates back to 1570—back to the conquistadores.

We heard the squeal of a fife and the beat of a drum and took the liberty of crashing the gate to the shindig.

**WE GO TO A PARTY**

In a tiny adobe room that opened out into a lovely patio were two musicians lost in their art. One was a fat Indian with a scrawny white beard. He had a little horn like a Chinese piccolo; and he shut both eyes with rapture when he tooted. The other was a lean peon who with a scarping glow-blast upon an aged and hand-made drum.

They were playing in honor of the "best damn caballero in Mexico."

**UN GRAN CABALLERO**

The guest of honor had ridden his horse right into the room and sat there in lordly splendor and warlike dignity. Don Quixote would be a light and frivolous character by comparison.

He was un gran caballero. His sombrero was as big as an umbrella. Under his left leg on the ornate saddle was the longest and wickedest machete I ever saw. On the other side of the saddle was a native knife in a sheath.

He invited us in with an imperial gesture and produced a bottle of tequila. Besides dynamite and TNT I am not sure of what tequila is made. I took one swig and promptly felt that I, too, was un gran caballero. Had I taken two swigs I should probably have proclaimed myself dictator of Mexico.

**WE ARE HONORED**

After a congratulatory of portentous and solemn dignity, the musicians announced that they would now play in honor of the Americans—a very bonita piece. Whereupon the squealing piccolo burst out with "O Katarina."

**A SAINT'S DAY**

It was a saint's day in the 1500 church. It was piteous and dramatic.

The image of the saint lay in a flower-buried glass coffin; and the old walls gave back the tear-drenched echoes as fifty or sixty old men and women, without benefit of clergy, crept inch by inch on their knees to the foot of the altar. In their hands were candles which threw strange flickering shadows through the memories of four centuries as they sang the litany.

**DEVOTION**

In the rear of the church knelt a ragged peon and a tiny little boy—not more than 3 years old. Together they prayed for a long, long time. Then the peon took the little boy's tiny forefinger and helped him make the sign of the cross three times—on his forehead; across his lips and upon his heart.

Then the child took his father's hand and kissed it—the age-old Spanish gesture of fealty to the head of the house; they rose together and with grave dignity made their way out into the sun-drenched plaza, where the women in rebozos were drawing water from the old fountains—raising the water jars to their heads—just as Rebecca did in a yet older day.

**EXCHANGE PLEA RECEIVED**

Request of the Los Angeles Chamber of Commerce for renewal of the contract for service of the Marine Exchange for 1929 at \$300 a month was referred to General Manager Edwards by the Harbor Board yesterday for recommendation.

## MANAGER MUST RULE

Approval requested by C. C. Kruger, Co. agent for the Dimock Steamship Corporation, of arrangements made with the Dollar Steamship Company to use its Berth 232 until increased tonnage requires more space, was referred to the general manager by the Harbor Board yesterday for a recommendation.

## INSTITUTE HEARS NAVY AIM

World Relations Group Given Defense Plea by Robertson at Riverside Session

**BY JOHN WEBSTER CULLEY**  
"Times" Staff Representative

RIVERSIDE, Dec. 12.—The Navy of the United States abhors war. We do not want a navy for aggression; we want one adequate to the needs of our defense only and that, I may add, is a navy equal in strength of personnel and material to that of any other nation in the world.

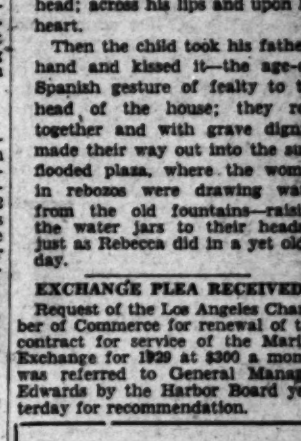

This was the message presented today by Rear-Admiral A. H. Robertson, commander of the Eleventh Naval District, to delegates attending the fourth session of the Institute of International Relations, held at the Mission Inn here.

Admiral Robertson was one of seven speakers who included Countess Maria A. Loschi of Rome, George H. Huntington, dean of Robert College, Constantinople; Dr. John Parke Young, economics department, Occidental College; Dr. Waldemar Westergaard, professor of history, University of California at Los Angeles; Dr. Charles E. Edmunds, president of Pomona College; and O. W. E. Cook, assistant professor of political science, University of Southern California.

Admiral Robertson said it is a hopeful sign of the times that

## AUNT HET

BY ROBERT QUILLLEN

# Northcott Refuses to Plead 'Not Guilty by Reason of Insanity'

## YOUTH REJECTS LAWYER'S PLAN

Change in Counsel Hinted as Sequel to Event

Mother and Son Deny Crime at Arraignment

Officers Prevent Any Word Between Suspects

BY JAMES M. KENDRICK  
Times Staff Representative  
RIVERSIDE, Dec. 12.—Gordon Stewart Northcott refused to enter an insanity plea here today to the indictment charging himself and mother, Mrs. Louise Northcott, with the murder of Walter Collins, but made the straight plea of not guilty.

The refusal of Northcott to use the two pleas as provided under the new California law, one, a plea of not guilty and the second not guilty by reason of insanity, was made known last night by his attorney, Norbert Savay. Savay said that he had advised his client to make the dual-plea to the charge, but that Northcott declined.

Northcott and his mother pleaded not guilty when they appeared before the trial date of the mother and son was set for January 10. This is eight days after Northcott is due to go on trial for the murder of an unidentified Mexican youth. Dep. Dist. Atty. Redwine said that the prosecution would be able to present the Collins case in approximately three days, but the defense counsel announced that at least two weeks would be needed for presenting the Northcott side of the hearing.

The youth, who the State contends murdered four boys on his Winville chicken ranch near here, and his mother, Mrs. Louise Northcott, faced each other for the first time since they separated in Canada during their flight from the United States.

### GUILT DENIED

"Not guilty to the charge against me," Northcott declared in a firm voice as Judge Morton asked that he plead to the indictment, while Mrs. Northcott's denial of her guilt was uttered in a voice hardly audible and she had to repeat it for the benefit of the court stenographer.

Immediately following the arraignment of the pair, Mrs. Northcott told newspaper men that if her son so desires there will be a change of defense counsel.

Mrs. Northcott's announcement came after she had been informed that her son was quoted as saying that he had discharged Norbert Savay, Los Angeles attorney who was retained by J. McKinley Cameron, Mrs. Northcott's attorney in California, Alta., where she fought against extradition to this country for two months. Savay appeared for the mother and son today.

### WORRIED ABOUT BOY

"It is unnecessary for me to repeat again that I am not guilty of the crime now charged to me," Mrs. Northcott declared.

"I am worried only about the treatment being accorded my boy. He doesn't look the same to me. I never will believe that he confessed to the crimes he is said to have committed and if he did the only thing I can say is that he is crazy," the aged mother continued.

Mrs. Northcott's near-hysteria, which has made its appearance in previous interviews, was not apparent today and the woman spoke in mild tones even when accusing officers of mistreating her son.

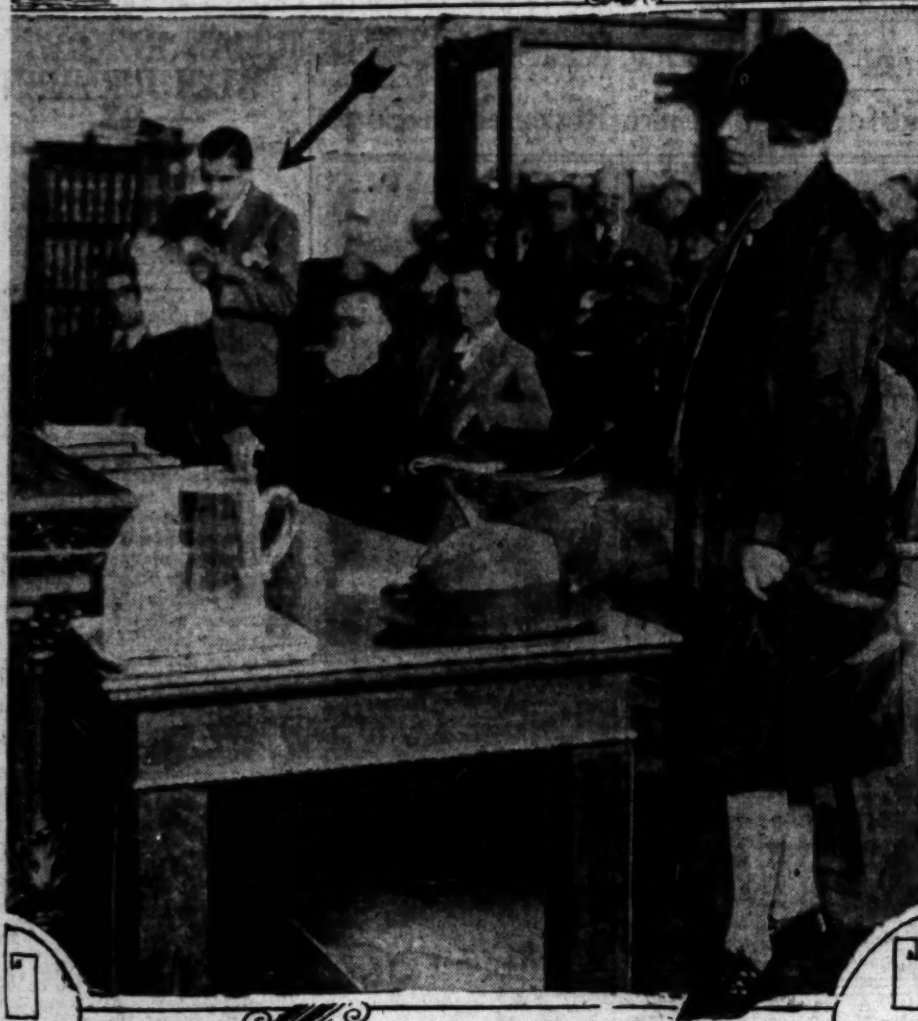

"Stewart has had many things happen to him in his life that may have had something to do with his mental condition, but I am not convinced yet that he is mentally wrong," the woman said.

### INNOCENCE AFFIRMED

Despite statements attributed to her, the elderly woman has maintained continuously that she does not believe her son is guilty of the crime for which he is accused and asserts that alienists and specialists will not be the judges as to his sanity.

"If I am ever allowed to talk to my boy I will know whether or not he is deranged," the mother said.

## Mother and Son Meet in Court for Grim Ordeal

They Are Reunited After Long Separation  
Mrs. Northcott is shown in the foreground while arrow points to her son, Gordon Stewart Northcott, standing consulting papers in the background.

(P. & A. photo)

Mrs. Northcott reiterated that she will not discharge her attorney until she has talked with her son and is assured that he is not satisfied with him, she told interviewers. Before a crowd of approximately 350, which overflowed the courtroom after she had been informed that her son was quoted as saying that he had discharged Norbert Savay, Los Angeles attorney who was retained by J. McKinley Cameron, Mrs. Northcott's attorney in California, Alta., where she fought against extradition to this country for two months. Savay appeared for the mother and son today.

### SHE BEGINS TO WEEP

As the woman entered the courtroom she hastily glanced around until she saw her son seated beside Under Sheriff Rayburn. A faint smile appeared on her mouth and then she began to cry. Northcott smiled broadly as he rapidly chewed a wad of gum given him by Deputy Sheriff Croubhorn and Brewster, who brought him here today from Los Angeles.

Despite Northcott's written confession that he murdered Alvin Gothes, asserted to be the headless murder victim found near Puente a year ago, in his Riverside-county ranch house, Dep. Dist. Atty. Redwine revealed to Judge Morton that it has not yet been decided definitely whether Northcott's first trial will be here or in Los Angeles, and the youth was remanded back into the custody of Los Angeles county. Los Angeles county's indictment against Northcott asserts the murder was committed in the Los Angeles Britannia-street home of the family.

Sheriff Sweeters seated himself on Mrs. Northcott's right-hand side at the long counsel table and when he would bend forward, revealing to her a view of her son, Mrs. Northcott would take advantage of the opportunity to attempt to convey messages to her son with her lips. At no time were mother and son allowed to be within speaking distance.

### RETURNED TO JAIL

As soon as the arraignment was concluded, Mrs. Northcott was returned to the County Jail, while Northcott was held in Dep. Dist. Atty. Redwine's office until his mother had reached her quarters.

Northcott then was taken to the ground-floor tank of the jail and kept for fifteen minutes preparatory to his return to Los Angeles.

Immediately at the conclusion of reading the indictment and the pair's plea, Attorney Savay began an argument to have Northcott placed in custody of the Riverside officials, but Redwine's argument that Northcott is being held for observation in Los Angeles, and the fact that the decision as to where he first will be tried has not been reached, brought a decision from Judge Morton favoring Redwine's motion.

As Mrs. Northcott prepared to enter her cell, which opens off a balcony above the dining-room of Sheriff and Mrs. Sweeters' home on the top floor of the jail, the 61-year-old mother hesitated long enough to issue a bitter statement against the county for refusing her an opportunity to talk with her son.

"If Gordon wants to change attorneys I certainly will abide by his wish," the mother said.

### FLOOD WATERS ATTACKED

A petition headed by J. D. McHaffey was filed with the Council yesterday by property owners who seek relief from floods from storm waters emptied by the storm drain at El Centro and Selma avenues. The petition was referred to the City Engineer.

### PROTEST REFERRED

A protest against changing the name of East Rose Hill Drive to Emerald street was received by the Council yesterday from Henry P. Del Canto and referred to the City Planning Committee.

## Father Sues Son in Battle on Two Wills

A dispute over an estate valued at \$60,000 was revealed yesterday when Frank E. Scott filed a contest in Probate Court asking that the will of his father, the late Everett W. J. Scott, be set aside.

The will in the case was filed by the grandson of the deceased, Howard L. Scott, son of the contestant. Frank Scott contends the will offered for probate by his son Howard had been revoked. The contestant says he already had filed a later will as valid. This will, according to Scott, was a joint instrument made by the deceased and his wife dated two days before the death of Everett Scott on April 29 last. It provided, Scott declares, that the entire estate go to Scott's widow. In case of the death of both Scott and his wife the will provided that all the property except \$10,000 should go to the son, Frank, but on his death he leave one-half to his son Howard. This was made, however, with the proviso that the grandson receive the portion if his father "thought best to do so."

### LOS ANGELES HISTORY

PLANNED BY SCRIBE

Four volumes on the history of Los Angeles and of Los Angeles county are to be started immediately by William A. Spaulding, pioneer Los Angeles newspaper man and president of the Los Angeles County Pioneer Society, according to an announcement made yesterday by the publishers, Finkel & Co., 6419 West Sixth street. Accounts of leading local institutions and biographical sketches also will be contained in the work.

## PIPE LINE COUP COMES TO LIGHT

(Continued from First Page)

solved itself into an earnest campaign for support on both sides. It has been proposed by the land company to establish a quarry in the canyon and rather than manufacture cement on the quarry site the limestone would be forced through a pipe line to barges in the Santa Monica Bay for transportation to San Pedro, from where it would be carried to a manufacturing plant. The limestone deposit has been valued at \$250,000,000.

### BEVERLY HILLS GROUP TO STUDY CEMENT PROJECT

Appeals to directors of the Beverly Hills Chamber of Commerce made last night by representatives of the Pacific Palisades Protective Committee that that organization oppose establishment of a cement crusher and limestone quarry in Santa Ynez Canyon resulted in the appointment of a committee of five to investigate and report on the project next Wednesday.

The committee is headed by Stanley Anderson and comprises Dr. Robert E. Haddock, Hunnewell and Burnaby of the Beverly Hills organization. Establishment of such an industry as has been proposed by the Los Angeles Mountain Park Company would mean the beginning of an influx of industries to the residential district, the meeting was told by Thorwald Siegfried, chairman of the protective committee. Residential property adjoining the site of the proposed quarry was sold by the owners of the quarry property, Siegfried stated, and restrictions placed on it which would prevent such operation. He contended that the same restrictions should apply to the land still owned by the company.

## Harry Garrity, Veteran Actor, Dies at Home

Harry Garrity, veteran actor and one of the best known comedians of the American stage, died at his home at 4229

Pickford street last night, following an illness of six months.

The stage favorite was in his fifty-sixth year. His death was the result of a complication of heart and kidney ailments. He leaves his widow and his mother.

Funeral arrangements are not completed but the last rites will be conducted at Long Beach, where burial will take place.

Garrity's passing marks the close of a long career of stage success and popularity, and takes from the ranks of the cast of the original "Able's Irish Rose" company, which started in the Morisco Theatre here several years ago. Other appearances in a multitude of attractions at the theatre made Garrity an actor of unusual popularity, whose character parts were handled with outstanding ability.

## Attorney From North Missing

W. T. L. Hawkins, San Francisco lawyer, was reported missing last night by W. E. Howell, business partner, when Hawkins failed to appear at his hotel room in South Spring street after an absence of forty-eight hours.

According to Howell, Hawkins carried \$200 on his person when he left the hotel. His failure to visit the Los Angeles Stock Exchange Tuesday and Wednesday caused Howell's apprehension, he stated to police.

Coincident with the San Francisco man's disappearance there occurred the loss of certain legal papers which, according to Howell, were to be introduced in a civil suit for breach of contract against a Los Angeles brokerage concern. The papers, it was stated, were being kept in an office in the Stock Exchange Building.

## Lottie Pickford Home Entered

Lottie Pickford, sister of Mary Pickford, yesterday called police for the second time within the last five weeks to investigate robberies for her.

Miss Pickford returned to her home at 6622 Iris Circle, Hollywood, yesterday afternoon and found a rear window on the first floor of the house shattered, she reported. She called Hollywood police and with the arrival of Detective Lieutenant Clark entered the house. Nothing was missing, however, and Clark closed the investigation. The shattered window still a mystery.

## FOREIGN PROFESSORS TO HOLD CLASSES

Prof. Rene Belle of France, Henry Niese of the Argentine, and S. O. Pandit of India, will have charge of evening college classes opening this evening at University College, downtown division of the University of Southern California, at Seventh and Los Angeles streets. Prof. Belle will have charge of a course in advanced French composition; Mr. Niese will teach commercial Spanish; and Mr. Pandit will give a twelve-week lecture course on Hindu poetry and literature.

Prof. Rudolph Hirschberg of the Institute of Air Law at the University of Koenigsberg, Germany, will have charge of a Friday night course in air law opening tomorrow evening at University College.

## ARREST CRIMPS NARCOTICS RING

Asserted "Runner" Arrested in West Hollywood

Drugs Worth \$1500 Seized by Federal Agents

Hunt Made for Main Stock of Illegal Dope

Federal agents early last night slipped in the bud what they declared to be the first activities of a well-organized dope smuggling ring, when they arrested Alexander Pain, colored, whom the officers described as a "runner" for the ring, in a drug store in West Hollywood.

More than \$1900 worth of narcotics was found on Pain after he had accepted marked money from Federal Officer Butlerland, according to the Federal report.

### WRAPPED LIKE GIFTS

Packages, wrapped in Christmas paper, tied with ribbon and decorated with holly branches, disguised the narcotics, which Pain is asserted to have carried.

Pain was booked by the Federal agents on a charge of violating the Harrison Narcotic Act and placed in the County Jail. Immediately on Pain's arrest, Federal investigators increased their efforts in search of an additional 400 ounces of morphine, which they believe comprises the main supply of the asserted ring, and from which they believe Pain got the fifteen ounces found on him. He also carried an additional ounce of cocaine, the agents stated.

### MAILS USED

Negotiations for the sale of the dope by the organization with which Pain is believed to be connected have been carried on through the mails, the Federal investigators reported.

Letters have been sent, they said, from points outside the State to prospective customers in Los Angeles and Hollywood. They stated that the delivery made by Pain was the first of a concentrated peddling to "prospects."

The narcotic supply is coming either from Mexico, or an eastern city, investigation carried on for several weeks by the Federal men indicated.

Pain came here recently from Oklahoma City and has been under surveillance by the local Federal officers since his arrival.

## State Expected to Close Today in Hawkins Trial

The prosecution today is expected to close its case against Jimmy Hawkins, on trial before Superior Judge Hardy charged with three counts of burglary and three of grand theft, with the questioning of one more witness, it was disclosed last night.

Johnny Hawkins, elder brother of Jimmy, probably will be the first defense witness to be called today. Jimmy recently pleaded guilty to five of thirty-one counts of burglary and was sentenced to from five to seventy-five years in San Quentin Prison.

When Jimmy Hawkins first was arrested, Johnny declared that his younger brother was innocent of any crime and that he alone was responsible. He is expected to reiterate this statement when he is called to the witness stand.

J. W. Ryan is acting as attorney for young Hawkins. The prosecution is represented by Dep. Dist. Atty. Dennison.

## St. Nick's Lane to be Brighter

Arrangements to decorate with gay tinsel and ornaments the 100 brightly lighted Christmas trees lining Hollywood Boulevard from Vine street to La Brea avenue, now known as Santa Claus Lane, were made last night by officials in charge of Hollywood's preholiday festivities.

St. Nicholas is continuing his nightly tours down the screen capital's principal thoroughfare, accompanied always in his reindeer-drawn sleigh by a film celebrity. A feature of last night's festivities was the distribution as pre-Christmas gifts of 1000 free tickets to Hollywood theaters.

# Alhambra Grid Squad May Battle Bellefonte Academy in Christmas Day Game

## EASTERN TEAM SEEKS CHAMPIONSHIP

Ready to Come West to Face Southland Champions

Academy Squad Boasts Great Five-Year Record

Cadets Have Won 45 Contests in Last 50 Games

Old Dame rumor cashed in with another good one yesterday. Alhambra High, the "unofficial" prep football champion of Southern California, will meet Bellefonte Academy of Pennsylvania, recognized as the "premier" of the East, in a game to be played here.

The gossip started in Alhambra, where E. L. Hughes, head master of Bellefonte, living at 220 East Emerson street, of late, telegrams have been flying back and forth between the two brothers in attempt to arrange a game between the two institutions.

Mr. Hughes of Alhambra says that, according to his brother, Bellefonte would be willing to make the trip out here, provided, of course, the game would be scheduled for the New Year's Day classic or on the 23rd inst., which isn't very far away. It is unlikely that the Pasadena stadium will be available.

Another suggestion for the site of the battle is the Los Angeles Coliseum. After Saturday the huge local arena will be closed until track season. If the game could be scheduled for Christmas Day, which seems to be the logical date, and the Coliseum obtained for the game, the Alhambra boys would get another chance to see Orv Mohler, Moor fish, perform and also witness prep football of the eastern brand.

Bellefonte boasts a wonderful record over the last five years. During that time the academy boys have played fifty games and have lost only one. So far this year the cadets have run up a total of 340 points to the opposition's 28.

## MOORE PLAYERS TO BE FETTERED

ALHAMBRA, Dec. 12.—The Alhambra High School football team, champions of the Coast League and hailed as the strongest prep school grid unit in Southern California, will be honored guests at a banquet at the Alhambra Athletic Club tomorrow night when representatives of the Chamber of Commerce, will gather to sing the praises of the pigskin warriors and their coach, George Hobbs.

## Sweep-out is Easy Winner

TIA JUANA RACE TRACK, Dec. 12.—Though on the ground but two days, the stable of William R. Cox, millionaire New York sportsman, made its presence known with results today.

Sweep-Out, a 2-year-old filly from the eastern establishment, was sent out in the feature event of the afternoon and proceeded to come home with a seven-length victory.

Sweep-Out, with Jockey C. Lyon in the saddle, beat Deep Thought, Orates II, Serenader and other good ones in hollow style. The race was at six furlongs on a slow track, and was run in 1:13 1-5. Results:

First race—Six furlongs. 8:00. Sweep-Out, 112 (Bartlett) won; Orates II, 103 (Hobbs) second; Deep Thought, 101 (Morrison) third. Time, 1:13 1-5.

Second race—Five and one-half furlongs. 8:10. Sweep-Out, 112 (Bartlett) won; Orates II, 103 (Hobbs) second; Deep Thought, 101 (Morrison) third. Time, 1:13 1-5.

Third race—Five and one-half furlongs. 8:20. Sweep-Out, 112 (Bartlett) won; Orates II, 103 (Hobbs) second; Deep Thought, 101 (Morrison) third. Time, 1:13 1-5.

Fourth race—Five and one-half furlongs. 8:30. Sweep-Out, 112 (Bartlett) won; Orates II, 103 (Hobbs) second; Deep Thought, 101 (Morrison) third. Time, 1:13 1-5.

Fifth race—Five and one-half furlongs. 8:40. Sweep-Out, 112 (Bartlett) won; Orates II, 103 (Hobbs) second; Deep Thought, 101 (Morrison) third. Time, 1:13 1-5.

## RABBIT PUNCHES

PAUL LOWRY

## THE RAMBLING TROJANS

FOR those who like their statistics the University of Southern California football team will travel something like 8000 miles next fall in fulfilling three major engagements—Stanford at Palo Alto, Washington at Seattle and Notre Dame at Chicago.

This is more traveling than the Trojans have ever attempted before in the quest of pigskin laurels and probably will rank them right up with the leading ramblers of the country in point of mileage.

Scheduling of the Carnegie Tech game in the Coliseum as the wind-up of the Southern California season will somewhat soften the sting for Trojan rosters who thought three "big games" away from home were too many.

It gives Southern California two climaxes to the season. One comes with the Stanford game on November 2, which follows the California battle by a week.

There is a let-down and then the Trojans rebuild for the Carnegie Tech fray December 14. It should be a great homecoming game for the Trojans with the Tech eleven rated as one of the most powerful teams in the country this year and losing few of its stars next fall.

And there won't be any more seasons with three "big games" away from home. That's the promise of the powers that be at Southern California. They had to concede something at the conference meeting this year to get the "Big Four" agreement between Stanford, California, Southern California and Washington in rolling order for 1930.

## "WILD BILL" COX

"HE DOESN'T know his left hand from his right. He can't punch. He can't kick a lick as you understand fighting. But he'll chase Armand Emanuel out of the Olympic ring next Tuesday night."

The speaker was Morris Cohen, demon young Pasadena promoter, and he was referring to "Wild Bill" Cox, who is booked to meet Emanuel in the last fight of 1929 at the Grand-avenue swat palace.

Morris only unphased when the word unorthodox was mentioned in discussing "Wild Bill's" stilted abilities, but he did say that Bill wins his fights, and that's what counts in the record books.

Much to the consternation of all concerned "Wild Bill" beat tall Ernie Owens at Pasadena the other night, and got something like \$175 for his pains. It was a main event, too. Owens planted three right hands on Cox in the first round, and it looked bad for "Wild Bill."

But from then on Morris says it was all Cox, and he did everything but make Owens jump out of the ring. "Wild Bill" does nothing according to Hoyle and while the boys don't seem to be agreed on just how he beats his rivals he whips them just the same.

"Wild Bill" was an amateur nine months, and won the light heavyweight championship in the A.A.U., championships staged at the Olympic. He has had about ten professional fights, most of them at Cohen's club. His outstanding victories have been scored at the expense of Andy Mitchell, Mack House and Ernie Owens.

## A MISSING CYLINDER

BABY JOE GANS looked like a lean, lithe race horse at the Olympic the other night, but while he beat Charley Rosen easily so did Dick Stoppel—twice.

I have always had the impression that Gans was a great fighter, but he has an unflinching faith of confining his greatness to one round.

If he was a Bud Taylor, who went out to fight ten full rounds, he would be the biggest riot in America.

He can box, he can hit, he has generalship—everything but the inclination to let both barrels go for thirty minutes.

## FOR THE HOLIDAYS

JACKIE FIELDS and his manager, "Old" Rooney, are back from San Francisco, where Anell Hoffman was unsuccessful in lining up a welterweight championship bout for Fields with Joe Dundee, the 147-pound king.

Rooney says they will stay here until after the holidays, fight once or twice, and then he himself East for proposed bouts in Boston, Cleveland and Detroit.

Rooney says there will be no New York for them until somebody gets ready to talk turkey on the title match with Dundee.

## CHICAGO IS WORSE

LOS ANGELES isn't the only bum fight city at the present time. Chicago is worse.

Dick Hoppe went there recently to try his fortunes. Dick is a pretty fair sort of a fighter. He has packed them in at Hollywood many a week.

But Dick had only one fight there. It didn't pay for his time. He had to send for money to come home.

The first week he was in the Windy City the Coliseum fights were called off because there was only something like \$400 in the house. The second week Dick got into action, and the intake was so bad he sent out an S.O.S. call to Charley McDonald.

Hoppe returned yesterday.

## ATTEMPT TO STOP LEWIS FROM GOING UNDER ROPES

Joe Malowicz, the Utica mat sensation, who meets Champion Ed (Strangler) Lewis, world's wrestling king, in a finish title match at the Olympic next Wednesday night, and Promoter Lou Daro, are scheduled to confer with Bill Bomb, chief deputy of the State Athletic Commission here tomorrow, regarding the habit the champion seems to have developed of crawling out of the ring during critical moments of his matches.

Lewis's habit of seeking protection on the outside of the ropes has been found most annoying to his opponents here in the past. Malowicz had to put up with it in their first match, while Paul Jones, the lanky popular Texan, who will also appear on this card, was deprived of a possible fall over Lewis here last month in the same manner, mat veterans declare.

According to Daro, he and Malowicz will ask Deputy Bill Bomb for a ruling to cover Lewis's fondness for running through the ropes to escape punishment and at the same time obtain a little rest. The ruling they will seek, Daro stated, would penalize Lewis a fall if he does not return to the ring within a certain length of time.

At first Lewis used the ropes only to get out of some punishing blow, but lately he has also been going out of the ring to recuperate after taking some terrific punishment.

Malowicz, who knocked out Marj Plesch with his head-breaking backward body slam last week, is generally recognized the country over as the leading contender for the title. Wrestlers and promoters alike look upon him as the next mat king. He has twice had the title, but never for any length of time because of the alleged inactivity of his manager, who never took the

## THREE FISTIC LEADERS HERE

(Continued from First Page)

the wind-up at Boston tomorrow night. Andy Mitchell fights Jimmy Maloney and Leo takes on a black brother, Homer Robertson. Kearns says Leo has turned out to be quite a pugilist, and is the better of the two brothers.

Another heavy Kearns has in tow is Al Say, who he says, is a great prospect.

Napoleon Dorval, a former Kearns protege, may never fight again. According to "Doc" Napoleon has brittle hands, and he has been turned over to another manager.

CAMBRIDGE SOCCERITES WIN LONDON, Dec. 12. (AP)—Cambridge defeated Oxford by a score of 3 to 2 at Stamford Bridge today in the fifty-first intervarsity soccer match. Yesterday Cambridge trounced its rival at Rugby football.

## FAIRFAX FIVES TRIUMPH

Hunter Bergner Stars as Colonials Trim Garfield Cagers, 36-15; Lightweight Score, 23-12

With Hunter Bergner, elongated center, playing the starring role, Coach Ross Bowen's Fairfax cagers continued their winning ways in Minor City League basketball circles by humbling Garfield, 36 to 15, yesterday in the Colonial gym.

Bergner found the hoop for the modest total of 16 points, and was a source of annoyance to Garfield's defense all afternoon. The triumph was the Colonials' second straight win and put them on top of the league race.

In the opening periods, the Colonials started off with a rush and were sitting pretty with a 22-to-2 margin at half-time. Bowen used a second team in the third period, but finished up with his regulars.

Milt Mohrman, Bulldog forward, accounted for ten of Garfield's digits and it was his work in the last half that turned the outcome from a rout to a fairly respectable trimming.

In the preliminary affair the Fairfax lightweights, also coached by Bowen, thumped the Garfield side, 23 to 12, on the other side of the scale. Phil Anderson, Colonial forward, chalked up 19 of his team's points.

The line-ups:

Colonials started off with a rush and were sitting pretty with a 22-to-2 margin at half-time. Bowen used a second team in the third period, but finished up with his regulars.

Milt Mohrman, Bulldog forward, accounted for ten of Garfield's digits and it was his work in the last half that turned the outcome from a rout to a fairly respectable trimming.

## JONES ALL SET TO COME WEST

Georgia Tech Game May Lure Famous Atlantan

Comey Certain Bobby Coming for \$10,000 Open

Women's Auxiliary Winds Up Hillcrest Tourney

(Continued from First Page)

his amateur championship, won at Brac Burn, over the Pebble Beach course at Del Monte. Bobby has definitely given his promise to play at Pebble Beach, and a few games would familiarize him with the course. And Pebble Beach is going to be a stiff test of golf for the amateur.

Junior Chamber of Commerce officials have been angling with Bobby to come West for some time without much hope of success until Georgia Tech was selected out of a clear sky to furnish the New Year's Day tidbit with the Bears from Berkeley. Junior chamber officials, however, go so far as to state that if Bobby comes out for the New Year's Day game he will play in the \$10,000 open.

In all probability if Jones does decide to take in the Pasadena game he will pack his bag and come with the Georgia Tech team, making as little fuss and flurry as possible. Jones is busily engaged at present making his living as a barrister, but it would be unusual if one of the world's greatest golfers couldn't get away for a couple of weeks.

Keller's wire, which read "al-moost certain not to come" carries enough of a may-be to it to suggest that Bobby may come. Jones's appearance at the New Year's Day game and then in the open would be a great boost for golf in Southern California.

Golf addicts, and those who are not, will be glad to see Bobby. He is still in a short pants. And he still in his teens.

If Bobby needs any swaying to influence him the Junior Chamber ought to get busy and see that the necessary swaying machinery is put into motion to bring Jones to Los Angeles, not only for the New Year's Day game and the \$10,000 open, but for as many of the multitude of midwinter tournaments as Bobby can be signed up for.

MRS. DAN JONES LEADS AT HILLCREST WITH \$7

Mrs. Dan Jones, former California State champion, shot an 87 in the thirty-six-hole medal tournament staged by the Women's Auxiliary of the Southern California Golf Association, over the Hillcrest Country Club course today.

The second eighteen holes will be played today. Players will be paired.

Mrs. Gregg Lifer, California State champion, was second low in Class A yesterday with an 88. In Class B, Mrs. L. R. Conner led with a 90, while Mrs. George H. Gardner, 97, took second place.

Following are starting times, distances and scores of the tournament:

9:30—Mrs. Gregg Lifer vs. Mrs. L. R. Conner. 10:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 10:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner.

11:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 11:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 12:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner.

12:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 1:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 1:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner.

2:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 2:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 3:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner.

3:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 4:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 4:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner.

5:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 5:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 6:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner.

6:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 7:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 7:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner.

8:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 8:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 9:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner.

9:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 10:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 10:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner.

11:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 11:30—Mrs. L. R. Conner vs. Mrs. L. R. Conner. 12:00—Mrs. L. R. Conner vs. Mrs. L. R. Conner.

## State Jaycee Title Goes to Pasadena

Paadena Junior College claimed the State Jaycee football title yesterday when San Mateo College, winner of the Northern Conference, definitely refused to meet the demands of Pasadena officials that they conform to the two-year player rule. Pasadena and San Mateo were scheduled to meet in a play-off for the title at the Rose Bowl Saturday.

The difficulty arose over the fact that since there are several small four-year colleges in the northern league, there is no rule prohibiting them to play in junior college three or four years, while the southern loop, of which Pasadena is a member, prohibits the use of three or four-year men.

The Bulldog eleven are now pointing for their game on the 29th inst., with Kamehameha College of Hawaii. The game will be played at Horrel Field, Pasadena.

pro, state that the recent rain has put the course in tip-top shape for the first annual \$2500 Wrigley open championship, which will be played the 15th to 23rd inst. Qualifying rounds for golfers who must qualify, are scheduled the 19th and 20th inst.

Oxy Juniors Add to Lead

The junior classmen, and representatives of the Pal Delta Chi Fraternity at Occidental College, finally placed more men in the winning columns of the novice tracksters yesterday than did the other class and fraternal organizations, with a result that the odds against this of these two groups soared considerably higher. The juniors lead the class division with 44 points against the novice competitors, the freshmen with 25. Pal Chi has 7 markers against 4 each for the Sigmas and Kenowans.

Don Emier, senior, won his second race yesterday in taking the 440 dash in 54. Emier won the 800 on Tuesday. Dale Henaly, sophomore, and Don Carey and Dud Dorman, juniors, were winners, respectively, of the 100-yard dash and javelin throw. Blue of grid fame, a freshman, won the pole vault at 11 ft.

The summary:

440-yd. dash—Don Emier, senior, Pal Delta Chi, 54. 800-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 2:00. 100-yd. dash—Don Carey, junior, Pal Delta Chi, 1:10. Javelin throw—Dud Dorman, junior, Pal Delta Chi, 110 ft.

Pole vault—Blue, freshman, Pal Delta Chi, 11 ft. 220-yd. dash—Don Emier, senior, Pal Delta Chi, 3:00. 400-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 1:30. 600-yd. dash—Don Carey, junior, Pal Delta Chi, 1:20. 800-yd. dash—Dud Dorman, junior, Pal Delta Chi, 2:00. 1000-yd. dash—Don Emier, senior, Pal Delta Chi, 3:30. 1200-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 4:00. 1400-yd. dash—Don Carey, junior, Pal Delta Chi, 4:30. 1600-yd. dash—Dud Dorman, junior, Pal Delta Chi, 5:00. 1800-yd. dash—Don Emier, senior, Pal Delta Chi, 5:30. 2000-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 6:00. 2200-yd. dash—Don Carey, junior, Pal Delta Chi, 6:30. 2400-yd. dash—Dud Dorman, junior, Pal Delta Chi, 7:00. 2600-yd. dash—Don Emier, senior, Pal Delta Chi, 7:30. 2800-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 8:00. 3000-yd. dash—Don Carey, junior, Pal Delta Chi, 8:30. 3200-yd. dash—Dud Dorman, junior, Pal Delta Chi, 9:00. 3400-yd. dash—Don Emier, senior, Pal Delta Chi, 9:30. 3600-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 10:00. 3800-yd. dash—Don Carey, junior, Pal Delta Chi, 10:30. 4000-yd. dash—Dud Dorman, junior, Pal Delta Chi, 11:00. 4200-yd. dash—Don Emier, senior, Pal Delta Chi, 11:30. 4400-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 12:00. 4600-yd. dash—Don Carey, junior, Pal Delta Chi, 12:30. 4800-yd. dash—Dud Dorman, junior, Pal Delta Chi, 13:00. 5000-yd. dash—Don Emier, senior, Pal Delta Chi, 13:30. 5200-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 14:00. 5400-yd. dash—Don Carey, junior, Pal Delta Chi, 14:30. 5600-yd. dash—Dud Dorman, junior, Pal Delta Chi, 15:00. 5800-yd. dash—Don Emier, senior, Pal Delta Chi, 15:30. 6000-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 16:00. 6200-yd. dash—Don Carey, junior, Pal Delta Chi, 16:30. 6400-yd. dash—Dud Dorman, junior, Pal Delta Chi, 17:00. 6600-yd. dash—Don Emier, senior, Pal Delta Chi, 17:30. 6800-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 18:00. 7000-yd. dash—Don Carey, junior, Pal Delta Chi, 18:30. 7200-yd. dash—Dud Dorman, junior, Pal Delta Chi, 19:00. 7400-yd. dash—Don Emier, senior, Pal Delta Chi, 19:30. 7600-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 20:00. 7800-yd. dash—Don Carey, junior, Pal Delta Chi, 20:30. 8000-yd. dash—Dud Dorman, junior, Pal Delta Chi, 21:00. 8200-yd. dash—Don Emier, senior, Pal Delta Chi, 21:30. 8400-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 22:00. 8600-yd. dash—Don Carey, junior, Pal Delta Chi, 22:30. 8800-yd. dash—Dud Dorman, junior, Pal Delta Chi, 23:00. 9000-yd. dash—Don Emier, senior, Pal Delta Chi, 23:30. 9200-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 24:00. 9400-yd. dash—Don Carey, junior, Pal Delta Chi, 24:30. 9600-yd. dash—Dud Dorman, junior, Pal Delta Chi, 25:00. 9800-yd. dash—Don Emier, senior, Pal Delta Chi, 25:30. 10000-yd. dash—Dale Henaly, sophomore, Pal Delta Chi, 26:00. 10200-yd. dash—Don Carey, junior, Pal Delta Chi, 26:30. 10400-yd. dash—Dud Dorman, junior, Pal Delta Chi, 27:00. 1

Commissioner Andreani  
Back from Washington  
Reports on Trip

It is surprising how little is known in Washington, D. C., about the extent and development of Los Angeles Harbor. Commissioner Andreani informed the harbor board yesterday, referring to his recent trip to the nation's capital in the interest of the greater breakwater project and unified operation of the harbor belt line.

While in New York, he said, he saw a news reel of the departure of President-elect Hoover on the battleship Maryland, and was amazed, he said, to find that the film gave the departure as "from San Diego."

His revelations were made by Andreani in discussion of the removal of the sunken tanker from the main channel at the port. General Manager Edwards reported the owners had formally abandoned the wreck. In reply to a query sent to Maj. Gross, United States district engineer, Maj. Gross informed the board that the United States District Attorney had rendered an opinion that no action will be taken by the Federal engineers unless ordered by the War Department.

Commissioner Andreani was requested by President Allen to communicate with the Rivers and Harbors Committee of Congress with the object of getting some action at Washington toward removal of the sunken tanker.

**Vagrancy Cases**  
**of Four Men Put**  
**Off Till January**

Because of the detention in a hospital of two of the defendants and a crowded court calendar the vagrancy cases of four men questioned by police in connection with the murder several months ago of August Polombo, reputed Sonoma town racketeer, were postponed until January 23, 1929, by Municipal Judge Garrett yesterday morning.

The men are Dominick Diello, 25 years of age of 3021 West Boulevard; Leonardo Gargano, 33, of 738 College street; Vito Ardito and Mike Pupilo.

Diello and Gargano suffered severe burns in the fire which destroyed the \$20,000 home of A. Martini in Pacoima November 26, last. Rocco Gravino, who is said to have confessed that the fire was incendiary, died from burns he received.

**BOND CLAIM TO COUNCIL**

Insisting that the bill of \$475, presented by Thomson, Wood & Hoffmann, bond attorneys of New York who approved the validity of the harbor bond issue of \$2,000,000 for the railroad classification yard, should be paid from the bond premium, President Allen of the Harbor Board yesterday referred it again to the City Council for payment, following a ruling from the City Attorney that it could not be paid from bond funds.

**Machine Turns Over at Corner, Pinning Him Underneath**

The left leg of Ernest Reed, 36-year-old truck driver, of 13304 Euston street, Plinridge, was amputated by Police Surgeon Loplich at the Georgia-street Receiving Hospital yesterday shortly after Reed's truck had turned over on the Franklin-avenue bridge.

Reed, according to a police report, failed to negotiate a turn at the end of the bridge as he was driving toward Los Angeles, and the truck turned over, pinning Reed's leg to the pavement. The leg was amputated just below the knee. Reed was taken to the Golden State Hospital.

**CITY CLUB**  
**HEARS PLEA**  
**BY ACTRESS**

Nance O'Neil Makes Clear  
Relation of Art to Urban  
Advancement

Nance O'Neil, star of "The Silver Cord," now playing at Los Angeles Repertory Theater at Ninth and Figueroa streets, told a City Club audience yesterday that individualism, communities and nations advance in true culture in proportion to their support of artistic enterprises.

"True education means the unfoldment of all that is best in men and women and its purpose is the development of strong bodies, calm minds and singing hearts," said Miss O'Neil. "The flower of education is that genuine culture which never is satisfied with the mediocre but which ever hungers for an expansion of consciousness, for spiritual experiences that transcend the ordinary thoughts and activities of life. Since only the breed of beauty can appease the hunger for the beautiful, it follows that only in so far as communities rally to the support of movements which administer to the esthetic life of society, do they progress in the development of those finer attributes that are the gladness and glory of humanity."

Discussing "The Theater as a Civic Asset," E. Ellis Reed, Miss O'Neil's manager and secretary of the Repertory Theater, paid high tribute to Simon Gert, president, and L. E. Behymer, vice-president of the theater, and said that plans are being made, through arrangement with the New York Theater Guild, to present many famous plays at the local theater and at other points on the West Coast.

Evidence of the value of popular entertainments to a community was cited by Mr. Reed, who said that the Pilgrimage Play, the Mission Play, Hollywood Bowl concert, the Los Angeles Grand Opera Association and the motion-picture industry, here have made Los Angeles world famous.

**GOLF GAME**  
**ON SUNDAY**  
**NOT CRUEL**

However, Judge Awards  
Wife Divorce on Curses in  
Plea Over Bridge

Judicial approval of a man playing golf on Sunday is seen in a divorce decree signed yesterday by Superior Judge Wood. Judge Wood decided in giving Mrs. Beatrice Hannibal a legal separation from Thomas Hannibal that when Hannibal absent-ed himself from his wife on Sunday and played golf it was not an act of cruelty.

However, the judge was emphatic in deciding that if the husband swore at his wife when she played the wrong card in a game of bridge or let loose a flow of profanity when she fed the family dog a strip of bacon, his acts were sufficiently cruel for her to obtain a divorce.

Mrs. Hannibal, when she came into court, first asked for a divorce on the grounds her husband played golf all day Sunday.

Judge Wood held Sunday golf is not cruelty.

Later, however, when Mrs. Hannibal testified as to the other acts of cruelty, Judge Wood decided she was entitled to a divorce.

A huge map of the heavens has been completed by astronomers at the Oxford and Greenwich observatories after forty years of labor. More than 15,000,000 stars were photographed.

**Drug Suspect**  
**Taken in Chase**  
**Pleads Guilty**

Arrested last September after a flying chase by police who pursued him from Ventura to Hollywood and accused him of possessing morphine and driving an automobile while under the influence of liquor, Gerald Watson appeared before Superior Judge Edmonds yesterday for arraignment, entered a plea of guilty to the charges and asked for permission to file an application for probation.

Judge Edmonds granted the application and fixed January 3, next, as the date for hearing on the application.

Police reports show that Watson was arrested in Chatsworth, Pas September 29, last, after detectives had pursued him from Ventura. The officers had received information, the latter stated, that Watson was carrying a \$50,000 consignment of morphine to Los Angeles. Search of the car, however, revealed only a small quantity of the drug, valued at \$1900, it was reported.

**LECTURER CARRIED**

Miss Ale. Caro-Delvalle will give an illustrated lecture before the Alliance Francaise at its regular monthly meeting at the Arlington club house, 1718 South Figueroa street, this evening at 8 o'clock. Her subject will be "Modern Decorative Art and Furniture." Mercedes Jordan will give a group of French songs.

lunches.

TILLAMOOK cheese is rich in vitamin A—that necessary vitamin which builds sturdy bodies and increases resistance to disease and illness. Perhaps this explains the hardness of Europeans who eat more cheese than do Americans. Theirs is cheese like Tillamook, never re-cooked or re-worked.

You get Tillamook at your grocer's with the original flavor and vitamin content. Always keep some on hand—you can use it for both cooking and eating. Tillamook County Creamery Association, Tillamook, Oregon. Twenty-three cheese kitchens owned and operated by the dairymen of Tillamook County.

CHEESE

### SOCIETY

BY JUANA NEAL LEVY

Invitations are being issued by Mr. and Mrs. John Joseph Broughall of 445 South Berendo street for the marriage of their daughter, Miss Helen Katherine Broughall, to Stephen Eugene Metcalf, the ceremony to take place Saturday evening, the 22nd inst., in St. John's Church with Bishop Stevens officiating, assisted by the rector of the parish, Dr. George Davidson. The engagement of Miss Broughall to Mr. Metcalf was announced at a beautifully appointed tea given by the former for an Alpha Phi Sorority sister, Mrs. Howell Dyon, at her mother's home.

Miss Broughall was graduated from the Bishop's School at La Jolla, Stanford University and the University of Lyons, France. She has traveled much in this country and all over Europe several times. Last summer she passed abroad with several young friends. Mr. Metcalf is the son of Dr. and Mrs. John E. Metcalf of Berkeley. He is a University of California man and is now located here in business and after the wedding trip will bring his bride back to make their future home here.

Miss Broughall is the incentive for much entertaining before the wedding day. Tuesday evening being the honor guest at a bridge party with which Miss Elizabeth Niles entertained at her home in Yucca street, while last evening a theater party was arranged in her honor with Mr. Metcalf sharing the honors of the evening and Saturday evening Miss Broughall and Mr. Metcalf will be honor guests at a dinner Mr. and Mrs. Raymond Tremaine are giving.

Monday evening Miss Eleanor Connell and Miss Katherine Connell are planning an affair for the bride and a few close friends at dinner with bridge following, the affair to take place at their home in Mariposa street, while Tuesday Mrs. Peter James Pierce will entertain at luncheon for Miss Broughall at the Victor Hugo, and Wednesday evening Mr. and Mrs. Colin Timmons are giving a dancing party for Miss Broughall and her fiancé.

Immediately following the ceremony a reception and wedding sup-

per for the bride party and a few close friends will take place at the home of the bride's parents.

**Intimate Affairs**  
Following the current events talk of Miss Aline Barrett Greenwood in the music room of the Biltmore Saturday morning Mrs. Judson Claudius gives an informal luncheon, having invited a few intimate friends to meet Miss Greenwood.

The following Thursday morning (the 20th inst.) Mrs. Isaac Hampshur Jones and Mrs. John Edgar Maurer will give a small luncheon at the Ambassador honoring Miss Greenwood, following her talk in the Ambassador Theater.

**Home Again**  
Mr. and Mrs. Joseph Allen O'Connor (Mary Lenahan Wilson) have returned from their honeymoon in Honolulu and are greeting their many friends at their new home, 3217 West Adams street.

**Announces Wedding**  
Mr. and Mrs. Albert Platt Worthington of 451 South Kingsley Drive announce the marriage of their daughter, Miss Helen Worthington, to Walter B. Cox of Hollywood, the ceremony having taken place in Los Angeles the 11th inst.

**Visiting Here**  
Mrs. Frank Hooper and Miss Julie Van Fleet of San Francisco are enjoying two weeks' visit in Los Angeles, where they are domiciled at the Biltmore.

**Benefit Dance**  
Alpha Chi Omega at the University of California at Los Angeles is planning a benefit dance Saturday evening, the 15th inst., the proceeds to be devoted to the fund for building the new chapter house at Westwood.

The dance is to be given at the Breakfast Club and a dancing contest will be one of the interesting features of the evening.

**For Bride-Elect**  
Mrs. Charles Young and Mrs. Burton Ames were cohostesses at a bridge-luncheon given in the Crystal Room of the Beverly-Wilshire Friday as a compliment to Miss Athalia Richardson, whose marriage to James Irving, Jr. will be solemnized during the Christmas holidays.

### BRIDGE-LUNCHEON TO BE EVENT

Bride-Elect Will Be Guest of Honor

Miss Gertrude Brown (Ray Huff studios)

ONE of the many prenuptial courtesies planned for Miss Frances Rea is a bridge-luncheon to be given by Miss Gertrude Brown of 2566 West Fifteenth street Saturday afternoon.

Miss Rea and Miss Brown are both graduates of the University of California at Berkeley, where they were affiliated with the Alpha Gamma Delta Sorority. Miss Rea's marriage to Dwight Rea, an alumnus

of the University of Southern California law school and a practicing attorney of this city, is to be an event of the early new year. Among the guests at Miss Brown's luncheon will be Misses, Ramon Shaffer, Leslie Nelson, Roy Cunningham, Fred Peters and Misses Mary Baker, Frances Donovan, Harriet Stafford, Phyllis Herring, Virginia Herden, Evelyn Lewis, Janet Watson, Olive Hays, Barbara Watson and Dorothy Allen.

The table was beautifully decorated in pastel shades and covers were laid for Misses, Fred Shurtz, Frank Fassel, W. H. Mather, H. L. Charles Griffin, Murray Imhoff, Richard Bates, Charles Wolfe, Frank Fassel, W. H. Mather, H. L. Blocker, George Richardson, George Tweedy, Cormac McConnell and Misses Mae Huseboe, Genevieve Young, Evelyn Whitaker, Jeanne Richardson and Eva Haight. After luncheon the guests repaired to the Venetian room where the afternoon was enjoyed playing bridge.

**MISSOURIANS TO MEET**  
Officers of the local organization of former residents of Missouri will be elected for 1929 at the Christmas reunion scheduled on the evening of the 18th inst. in Moose Hall, 1024 South Grand avenue. Dancing, a musical program and awarding of prizes are planned as part of the evening's entertainment. Officers of forty-eight State societies are to be guests of honor.

**YOUR BABY AND MINE**  
Mrs. Elford will be glad to answer all questions pertaining to babies and children. A stamped and addressed envelope, forwarded to this office, will bring a personal reply. This department offers leaflets on various subjects, such as: How to train a baby, how to wean a baby, how to dress a baby, how to feed a baby, how to soothe a baby, how to sleep a baby, how to bathe a baby, how to change a baby, how to hold a baby, how to play with a baby, how to talk to a baby, how to read to a baby, how to sing to a baby, how to dance to a baby, how to make a baby happy, how to make a baby healthy, how to make a baby beautiful, how to make a baby successful, how to make a baby a blessing to the world.

**THUMB SUCKING AMONG OLDER CHILDREN**  
It is possible for small babies, when tired and sleepy, to suck their

**BROCCOLI HOLLANDAISE SAUCE**  
Cut off the tough stalks and leaves from the broccoli and wash well in cold water, and let stand in water for thirty minutes, drain, cover with boiling water, and cook until tender; do not over cook. Season with salt and pepper, arrange on a hot dish and serve with a Hollandaise sauce.

**HOLLANDAISE SAUCE**  
The yolks of four eggs, one-half a cupful of unsalted butter, one-fourth of a teaspoonful of salt, a few grains of cayenne, three-quarters of a cup of boiling water, two tablespoonsful of strained lemon juice; beat the yolks of the eggs until light and creamy and gradually stir in the melted butter, add the seasoning, and slowly add the

thumbs with small harm to themselves; but the child of school age who prefers sitting in a corner with his thumb in his mouth, is menaced by more dangers than just the loss of his shapely mouth. The child of 5 years should be active most of the day. He runs helter-skelter from this to that. He asks innumerable questions, he digs holes and pours sand, cuts paper dolls, makes crayon pictures, pounds with a hammer and saw with a saw, is at one moment a proud mother wheeling her infant and next the businesslike proprietor of a flourishing drug store consisting of numerous bottles full of colored liquids.

If he has no interest in any of these fascinating plays and prefers sitting beside his mother and sucking his thumb, there is something very wrong. It isn't the thumb sucking that needs correcting, that is only a symptom. It is the child's whole environment. He needs joggling out of the listless, apathetic state of mind that can make a solitary, unthinking habit like thumb sucking, more satisfying than his normal interests.

**GET TO THE BOTTOM OF THE SITUATION**  
Putting tape on the child's thumb may prevent his sucking it until he digs out the tape, but that doesn't right the situation. The mother must find out why the child is dead to all other interests that should be engaging his attention. Is he timid and fearful and finds

**Date Fixed for 'Gay Paree' Trial**

Valentine Kennedy, house manager of the Biltmore Theater, and four members of the cast of "Gay Paree," now playing there, waived their right to jury trial yesterday and will be tried before Municipal Judge Gibbs on the 27th inst. on charges of producing an indecent show.

**Andrews Case Will Go Before Another Judge**

Another episode was written in the story of Mrs. Edith Andrews' attempt to obtain alimony from her husband, Del Andrews, motion picture director, when her attorney, R. D. Krickerbocker, filed an affidavit yesterday asserting prejudice on the part of Superior Judge Rosenkrantz, who, at the hearing of the case, continued it for two weeks.

**SURPLUS TO BE SOLD**

Harbor Commissioner Crawford yesterday was appointed by President Allen of the Harbor Board to proceed with arrangements for disposal of surplus stock in the department's supply yard.

**ASSESSMENTS CONFIRMED**

Confirmation of assessments was voted yesterday by the City Council on the improvement of Buda avenue between Crouse and Martin streets, the improvement of Westgate avenue between Santa Monica Boulevard and Mississippi avenue and the sewerage of Seventy-seventh street between Cypress and Tenth avenues.

**DESPONDENT TAKES OWN LIFE**

G. H. Bethman, 56 years of age, 3214 West Pico street, yesterday killed himself in the garage of his home while despondent, after having sent his wife downtown to shop. Bethman was found dead by his 16-year-old son, O. M. Bethman. A bullet in his temple had ended his life. According to Mrs. Bethman, her husband came to Los Angeles from Denver, six months ago. In a recent business venture he lost considerable money and this is believed to have been the cause for ending his life.

**AUCTIONEERS NAME OFFICERS FOR YEAR**

At the annual election of officers of the Los Angeles Auctioneers' Association, Dean S. Bedilion was elected secretary for the ninth consecutive year. Lewis B. Hart was elected president, succeeding George Fischer, A. L. Moxley, vice-president, and A. Well, treasurer. Miles D. Allen, R. A. Jacobs and Sol Blanc were named trustees and Fred Hillson sergeant-at-arms.

**SEARCH CONTINUES FOR BERMAN TAXES**

The Federal government yesterday continued its search for \$1,405,834.88, which it asserts is due from Jacob Berman as an income tax for 1926, by filing another tax lien for that amount against H. L. Stanley, as transferee, and Berman as transferor. Numerous other such liens have been filed.

**WANT TRIP COMPANIONS**

"It occurred to us that while there must be many who are desirous and able to see wild Africa, when it is yet time, but who are deterred by the (to them) strangeness of the undertaking, we, on our side, would welcome companions," explains Admiral Weston. "We are pleased, therefore, to set it be known that we would be glad of the company of persons of good repute, wishing to make the journey. We expect to spend eighteen to twenty-four months in Africa, but suitable arrangements could be made for those who did not wish to remain that length of time. Our vehicle already carries its full complement, but we are prepared to meet intending companions and advise them fully regarding the equipment they would require. It must be clearly understood, however, that this proposal is made solely in a spirit of good-will and is entirely disinterested. Those joining us would each bear his or her own expenses and nothing more."

**PAROLE SOUGHT FOR MRS. PEETE**  
*Asserted Slayer of Denton Has Served Seven Years*  
*Murder of Los Angeles Mining Man Never Admitted*  
*Prisoner Intellectual Leader of San Quentin Women*

SAN FRANCISCO, Dec. 13. (Exclusive)—Mrs. Louise Lofa Peete, who has served seven years in San Quentin prison for the murder in 1920 of Jacob C. Denton, wealthy Los Angeles mining man, will be considered for parole at the current monthly meeting of the State Prison Board. Her name was one of twelve life-termers appearing on the December parole calendar, made public today. The application will be under that part of the State law which allows at times for release after seven years of a life sentence have been served.

Mrs. Peete, the acknowledged social and intellectual leader of the women prisoners, has been in prison since December, 1921. Although convicted of Denton's murder, she has never acknowledged it. Some years ago a purported confession was announced in Los Angeles from her prison cell, but she repudiated it. At the time it was contended the confession absolved her, but named two Los Angeles men as the actual slayers.

**BODY HIDDEN IN CELLAR**  
Denton's body was hidden in the cellar of his home in an attempt to conceal the crime, and the case hung fire for fourteen months before Mrs. Peete was convicted of it. She has a daughter 11 years of age, now believed to be in Denver. She has been divorced by her husband, assertedly at her instigation to keep the shame of her imprisonment from the daughter. It was significant that when Richard C. Peete, the husband, obtained the divorce the charge was mental cruelty, and no mention was made of the commission of a crime.

Mrs. Peete has spent much of her time while in prison sewing, reading and writing. She is an omnivorous reader, according to reports from the prison, and has maintained a daily diary, which she plans to convert into a book bearing the title: "My Life in Prison," upon her release.

**PRISON RECORD CLEAR**  
Her prison record, it is said, is without blemish, and it is understood the prison board is inclined to look with favor upon her application.

Fifty-eight parole applications and 118 indeterminate sentence terminations are listed on the current calendar.

Among the slayers are Salvino Lavarino, George F. Green, Henry Murray and Gusie Poulson of Los Angeles county; Juan Garcia and Julian Castro of Orange county; Manuel Felix of Imperial county; and D. G. Gallura, leader of the prison band.

**POPE HONORS PERUVIAN**  
ROME, Dec. 13. (AP)—Pope Pius has conferred the Supreme Order of Christ on President Leguia of Peru.

**IT'S EASY TO DRESS SMARTLY**  
*Woman Needs But \$10,000, Outside Furs and Jewels, Says Former "Best Gowned" Celebrity*

[Copyright, 1928, by North American Newspaper Alliance.]  
NEW YORK, Dec. 13. (Exclusive)—On a \$10,000-a-year clothes budget a woman can easily be nicely dressed if she buys no furs or jewels, is the opinion of Mrs. Paul Dubonnet.

As Mrs. Jean Nash she was famous as "the best-dressed and most extravagant woman in the world." Mrs. Dubonnet announced now that she no longer is striving to uphold her title.

With a pleasant nod to her successor, she is retiring from the strain and worry of her position. Henceforth Mrs. Dubonnet will be placed only on the lists of the three best dressed women instead of at the head. The hardships of keeping pace with her own reputation were too wearing.

**HORRID ORDEAL**  
"At the openings of the collections," began Mrs. Dubonnet, "I go, and I love everything. I order several dozen dresses. They all need special hats, shoes, stockings. Then I fit and fit, until I am worn out. At Chanel's stand for hours. Then at Reibout my vestments tries on. After that there is the long process of cutting the felt an inch over my eye, pulling it down over my ear. The clothes come home. I haven't time to wear them all. By then I have seen of my clothes that I like better. I order them. It is most discouraging."

With her fifth husband, Mrs. Dubonnet is now a visit, and she has much of that visit will be spent in a tour of the shops. Tall, with smoothly-waved blond hair, Mrs. Dubonnet has a carefully cared-for face, a high voice and a wide, charming smile.

She was dressed most characteristically in a simple beige frock with beige stockings and black opera pumps. Around her neck was a double strand of giant pearls, and on her wedding-ring finger sat an emerald ring, an inch long and a quarter of an inch wide. Beside her was Mr. Dubonnet, tall, thin, salow.

**SOME SPEND \$50,000**  
"It costs a tremendous amount of money to be among the best-dressed women in the world," she said. "Most of those women spend at least \$50,000 a year."

"No, my dear," interrupted Mr. Dubonnet, "at least \$75,000."

"Yes," agreed Mrs. Dubonnet, "that is what I spend even more. That is without hats or shoes. I have a double wrap coat \$50,000, and you simply can't get a mink coat that you would wear under \$12,000. The baroness Eugenie de Rothschild spends more than that. Why Mrs. James O'Donoghue bought an emerald chain for \$450,000. So you see."

The smartest dressed woman in America, according to Mrs. Dubonnet, is Mrs. Alan Lehman, who is tall, olive skinned with slanting eyes, and a superb taste in clothes. Miss Ina Claire follows as the next best dressed woman, and then comes Europe the smartest dressed woman are Lady Louise Mountbatten, Mrs. Reginald Fellows, Lady Abby, the baroness Eugenie de Rothschild and Mme. Revel.

**AT LOWER COST**  
Of all of these, Mme. Revel spends the least, about \$10,000, but she is unique, said Mrs. Dubonnet, because she is the one woman who never buys more than she needs, never makes a mistake in chic. The smartest woman gathered during the two weeks when the Biarritz season is at its height. Over here the most beautiful women in the loveliest clothes are seen together lunching at a certain smart restaurant. Added Mrs. Dubonnet, who discounts the number of actresses who know how to dress.

"At a restaurant last Saturday night there were scores of the loveliest looking girls, adorable faces, pretty as could be—but the clothes! What dresses! Terrible."

Mrs. Dubonnet gave a few scattered scraps of advice to women who cannot afford to buy everything that pleased them, and who cannot afford to make mistakes.

(1) Buy only a few clothes at a time.

(2) Buy simple but exquisitely fine clothes.

(3) Take time with fittings.

(4) Have always one perfect costume.

Mrs. Dubonnet does not follow her own advice except in the case of simple but exquisite clothes. In her closet sometimes there are as many as a 1000 dresses, but she rarely wears any but the last three she bought. These three change weekly. Her shoes are innumerable, her fur coat priceless. Nothing—Chinchilla, Sable and Mink, down the line to sports furs—is missing.

**Yosemite Gets Snowy Blanket**  
YOSEMITE, Dec. 13. (AP)—Eighteen inches of snow fell yesterday and last night in Yosemite Valley, assuring winter sports here during the holidays. The fall is the heaviest in December for several years.

**FLORIDA PRODUCES ITS FIRST TUNG OIL**  
WIDELY USED ARTICLE MADE BY MACHINERY WITH GOOD RESULTS  
GAINESVILLE (Fla.) Dec. 13. (AP)—Another article was added to the list of American-made commodities today when first commercial production of tung oil was announced here.

This necessary ingredient of Chinese lacquer, many paints and varnishes and other materials, is produced also for the first time by machinery. Heretofore, China has monopolized the tung oil market after the substance was first introduced into the United States some twenty-five years ago.

Since then the oil has become almost indispensable in manufacturing certain types of electrical insulation and rubberized goods.

First trees were cultivated in this country at the experiment station here of the University of Florida in co-operation with the United States Department of Agriculture.

L. P. Moore of the Alachua Company said the sixty-gallon-an-hour capacity of the local crushers, takes the place of work done heretofore by 1000 coolies in China.

**EUGENE O'NEILL CAN'T BE FOUND**  
*Writer Mysteriously Drops from View in China*  
*Letter to Physician Says He Seeks Quiet*  
*Playwright Hints He May Go to Honolulu*

SHANGHAI, Dec. 13. (AP)—Eugene O'Neill, American dramatist, who has been suffering from a slight nervous breakdown and bronchitis, left his sick bed on Tuesday and his whereabouts is a mystery and his Dr. Alexander Renner, an Austrian nerve specialist, had repeatedly stated that the playwright was recovering rapidly. He was expected to leave his bed in the hotel where he had been undergoing treatment in a few days.

O'Neill's actions were revealed by a letter in the playwright's handwriting which is dated the 11th inst. and sent by messenger to Dr. Renner, who received it today. In the letter O'Neill stated that he planned to leave Shanghai immediately.

**SEEKING PEACE**  
O'Neill wrote it due to numerous persons seeking to interview him and inquiring into his personal affairs, and due to Shanghai's "wholesome virtues," he felt that Shanghai was no place in which to accomplish his work, "even if well physically." He added that he planned to leave for Honolulu in quest of "peace and solitude which, if I do not find there, I will find if I have to proceed to the South Pole."

The letter indicates the playwright was leaving Shanghai the same day that it had been written although no steamer had been scheduled to sail for Honolulu on that date.

It is possible, however, that he might have boarded an obscure Japanese steamer for Japan where he could catch a trans-Pacific liner, a number of which are leaving Japan within the next two days.

**SENDS APOLOGIES**  
The letter expressed apologies to Dr. Renner for leaving in an unannounced manner, then it continued:

"I came to China seeking peace and quiet and hoping that here at least, people would mind their business and allow me to mind mine. But I have found more snoops and gossipers per square inch than there is in any New England town of 1000 inhabitants. This does not apply to American newspaper correspondents who have been most decent, carrying out their duties in a most gentlemanly manner."

"I am going to Honolulu and then perhaps to Tahiti if Honolulu adopts the same attitude as Shanghai, that I am a politician whose life must be public. At any rate I will find peace and solitude to work in if I have to go to the South Pole."

**CONDITION BETTER**  
"My bronchitis is gone, my nerves are returning to normal and I expect to be in the pink of condition in the shortest time."

Efforts to trace O'Neill by inquiry at steamship offices were fruitless.

Plan now—the Greatest

**Gift for All of the Family**

THIS YEAR, instead of numerous short-lived gifts, let all the family contribute to the joy of owning a beautiful Baby Grand Piano for years of enjoyment.

AND CONSIDER first the Brambach—pioneer and largest selling baby grand piano in the world. Compare Brambach quality in every way—workmanship, tone value. Bring your musician friends to hear the Brambach. It will delight them. And the beauty of Brambach period encasements is a source of wonder to all who see them. Study them all at Barker Bros.

**The Brambach Baby Grand Piano**  
**\$675 up**

Select your Brambach now—and pay for it over a period of time. Barker Bros. liberal credit terms make this easily possible. Your old piano will be taken in as part payment.

**Sheriff Given Prison Term in Rum Conspiracy**  
EAST ST. LOUIS (Ill.) Dec. 13. (AP)—Sheriff Leslie B. Roche of Cairo, Ill., was sentenced to serve a year and a day in Leavenworth penitentiary and pay a fine of \$5000 by Federal District Judge Lindsey here today.

He and a majority of the thirty-four other codefendants on trial for widespread liquor conspiracy in Alexander county abruptly pleaded guilty on the fourth day of their trial.

**His Election Empty Honor**  
SAN FRANCISCO, Dec. 13. (AP)—Richard E. Robertson of San Jose was elected justice of the peace in 1926, but the State Appellate Court today held he is not entitled to the \$2400 annual salary that was supposed to go with the job.

The court affirmed a Santa Clara Superior Court judgment holding that there was no such office in San Jose because the municipal charter provided a Municipal Court with all powers formerly held by a justice of the peace. Furthermore, the State constitution prohibits duplication in such cases, the judges held.

Arthur B. Langford, County Auditor, called attention to the situation when he refused to issue warrants for Robertson's salary on the ground that no such office existed, even if he was elected to it by a vote of the people.

**FAMOUS NAMES PROVE POTENT**  
But Wives Get Divorces as Spouses Turn Homes Into Prize Rings  
CHICAGO, Dec. 13. (AP)—Jack Dempsey and Georges Carpentier were divorced yesterday because their wives testified they had pugnacious propensities of their more famous namesakes.

It was a right to her jaw, Mrs. Anna Dempsey told Judge Klarkowski, that caused her to sue her husband.

Judge Sabath entered a decree for Mrs. Kathryn Carpentier after she described Georges's inclination to disturb the peace of their home.

Preserve Working Man's  
Welfare, He Says

Steel Magnate Addresses  
Insurance Presidents

Year Sets New High Record  
in Policy Buying

NEW YORK, Dec. 13. (AP)—Conservation of American prosperity depends above all else on preservation of the welfare of the working man and assurance for him of a high scale of wages and a high standard of living. Charles M. Schwab, chairman of the board of the Bethlehem Steel Corporation, today told the Association of Life Insurance Presidents.

"Business is but a relationship between human beings," said Mr. Schwab in a brief address at the Hotel Astor. "Human beings must work and live, but above all things they want to be happy and it is the duty of every one of us to seek to make those around us as happy as we can."

### MANAGER RE-ELECTED

Mr. Schwab told his audience, which previously had heard that life insurance now in force totaled \$50,000,000, that the insurance business constituted "an agency which mobilizes an enormous share of the savings of the American people in the conservation of social forces which must be sound and confident if our business structure is to be maintained."

George T. Wight, secretary and manager of the association, was re-elected for another year. All other officers and members of the executive committee also were re-elected. Chandler Bullock, chairman of the meeting and president of the State Mutual Life Assurance Company of Worcester, Mass., announced that for the sixth consecutive year the American people had established in 1933 a new high record for the purchase of life insurance. The total, he said, was approximately \$18,500,000,000 of new insurance, or \$1,265,000,000 more than in 1932, the previous high year.

**HUNDRED BILLION MARK**  
At this rate, he predicted, total insurance in force will reach \$100,000,000,000 by autumn of 1935, the eighty-seventh year of American life insurance. He estimated the current total at \$85,000,000,000, a net increase of \$6,000,000,000 during the year after shrinkage.

In view of America's consumption of automobiles, silk hats, cosmetics and like products, the 1933 insurance record is evidence of amazing resiliency of the nation's purchasing power, Mr. Bullock declared.

The 1933 total, he added, was more than nine times the amount of life insurance the nation purchased in 1901.

**CAPITAL FUNDS GROW**  
Thomas J. Parkinson, president of the Equitable Life Assurance Society of the United States, said capital funds of American life insurance companies had doubled in the last seven years, totalling today \$16,000,000,000. The fund, he said, represents contributions of \$6,000,000 policy holders, and was increased this year by \$1,600,000,000.

Alfred Hurrell, vice-president and general counsel of the Prudential Insurance Company of America, declared the United States leads the world in life insurance by carrying more than 70 per cent of the total in force in all countries.

George W. Smith, vice-president of the New England Mutual Life Insurance Company of Boston, declared life insurance is one of the chief contributing forces toward individual economic independence.

Life insurance payments, he explained, prevent persons from becoming public charges. He disclosed life insurance payments during 1933 approximated \$1,700,000,000.

Cost Guard officials report that the value of the vessel's liquor cargo before its obvious depletion had been \$500,000.

## Rum Runner's Cargo Seized

NEW YORK, Dec. 13. (AP)—The ship Harbour Trader, with more than two-thirds of a large cargo of liquor apparently safely ashore, has fallen into the hands of the Coast Guard two miles off Rockaway Inlet, Long Island. It was learned here late today. Ten prisoners were taken and 1500 cases of liquor, valued by the raiders at \$150,000, were seized.

Cost Guard officials report that the value of the vessel's liquor cargo before its obvious depletion had been \$500,000.

## Lady Northesk to Wed Tuesday

LONDON, Dec. 13. (AP)—Lady Northesk, the former Jessica Brown, and her fiancé, Vivian Cornelius, are planning to be married next Tuesday morning at the Princes' Row registry office.

Only members of the bridegroom's family and close friends of the couple will attend the ceremony, the bride's mother not planning to cross the Atlantic because of recent storm weather.

The couple will spend their honeymoon in Switzerland and will return to London early in the spring.

## AMERICANIZATION BRINGS NEW YOUTH TO JUGO-SLAVIA RULERS

BELGRADE (Jugo-Slavia) Dec. 13. (AP)—King Alexander and Queen Marie have pleased their subjects by some Americanization. When the King returned recently from Paris, where he underwent an operation at the hands of American surgeons, his own subjects did not recognize him. Indeed, his own children, little Crown Prince Peter and Prince Tomislav, did not know him. This was not due to any physical change in the King. He had shaved off his mustache, and adopted American civilian dress, which altered his whole appearance.

A smartly cut light gray suit and a natty silver-gray slouch hat had replaced the King's customary dull military uniform and tall army cap, which made Alexander look ten years younger.

Not to be outdone by the King, the Queen had her beautiful golden hair bobbed American style, and brought back from Paris six trunksful of gowns, and the latest styles in hats, lingerie and footwear.

Friends who came to greet her at the railroad station commented upon her strikingly smart and girlish appearance, and said that she and the King resembled newlyweds.

**Arizona Names  
State Engineer**  
PHOENIX, Dec. 13. (AP)—Announcement of the appointment of W. W. Lane as State Engineer to succeed W. C. Lefevre was made late yesterday afternoon following a meeting of the Arizona State Highway Commission. Lane was chief engineer of the highway department.

The commission instructed Lane, who will take immediate charge of the office, to prepare a statement of the work of the department and a comprehensive program to be presented to the commissioners at their meeting, the 20th inst.

**School Society  
Gets Suspension**  
ANN ARBOR (Mich.) Dec. 13. (AP)—Sphinx, Junior Honorary Society of the University of Michigan, has been suspended as an organization after an investigation of statements that liquor was used in an initiation ceremony last week in which three initiates were castrated seriously.

All campus societies at the same time have been forbidden to hold a public initiation ceremony without written permission from the dean of students.

The liquor charges, while not brought formally, caused the investigation to be started.

## PEASANTS WIN DAY IN RUMANIA

Party Rolls Up Sweeping  
Victory at Polls

BUCHAREST (Rumania) Dec. 13. (AP)—The National Peasants' party rolled up a sweeping victory in yesterday's Parliamentary elections, the Minister of the Interior announcing today that the Peasants' party had captured 361 out of the 387 seats in Parliament.

The Liberals, headed by former Premier Vintila Bratianu, obtained only fourteen seats, while the Communists, who polled less than 35,000 votes throughout the country, failed to win a single seat.

Incomplete returns give the Peasants' party, headed by Premier Maniu, about 85 per cent of the total votes cast.

While another day must elapse before the count is completed in the rural districts, Premier Maniu has now so many seats assured as to be able to pass any legislation he may see fit.

**MEXICAN INSURGENT  
LEADERS EXECUTED**  
MEXICO CITY, Dec. 13. (AP)—Dispatches from Guadalajara today say that Librado Lorena, Meliton Fina, Hilario Gomez and Celso Lara, insurgent chieftains who were captured recently, have been court-martialed and executed.

519 BROADWAY

# Building a Greater Torrance

Is the very certain achievement assured by our present program of business and industrial expansion now definitely under way. With a population in excess of 6,000, the city of Torrance is looking confidently forward to doubling that figure within the not distant future.

A big order, but justified by the knowledge that the \$28,000,000 plant of the General Petroleum Corporation now under course of construction, will provide permanent employment for 3,000 to 3,500 men.

Think what that means! The majority of these skilled workers are heads of families. Hence, anticipating an influx of possibly 10,000 persons is well within the bounds of reason.

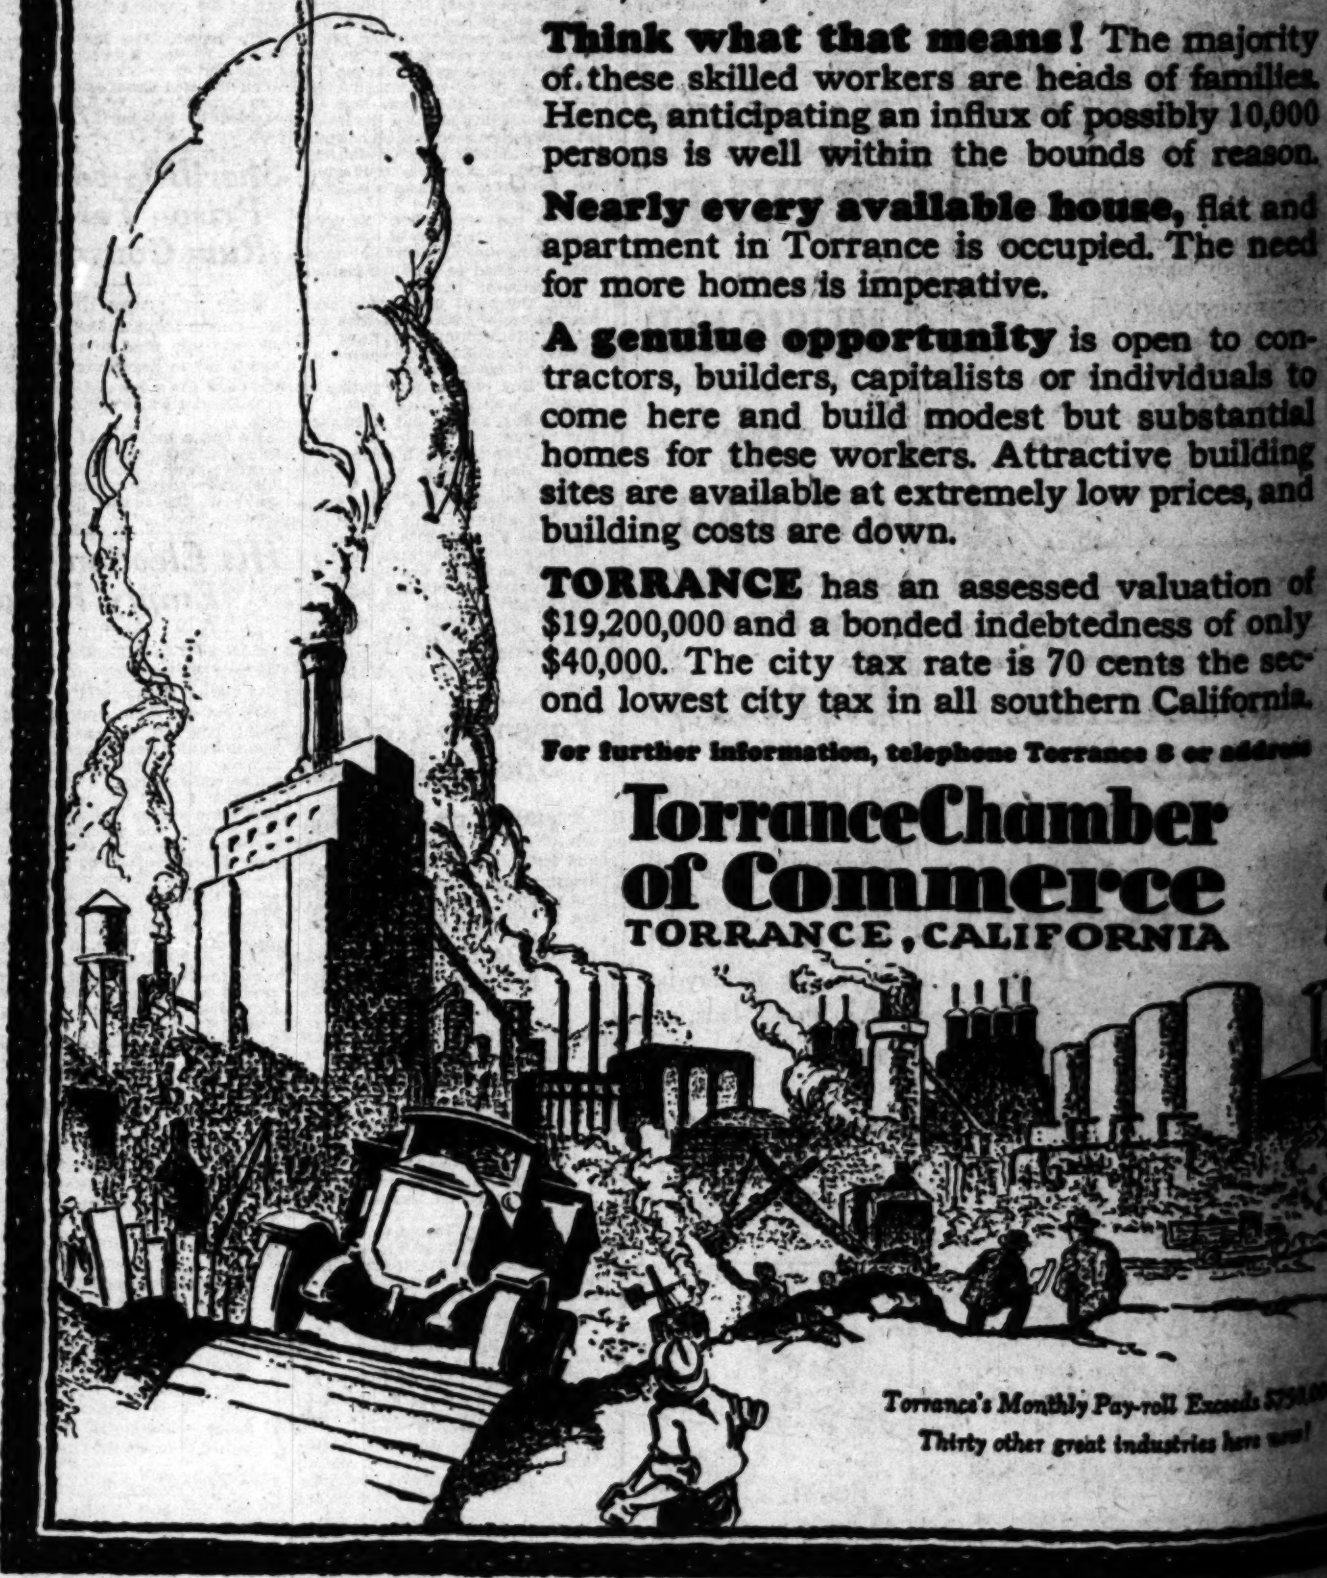

Nearly every available house, flat and apartment in Torrance is occupied. The need for more homes is imperative.

A genuine opportunity is open to contractors, builders, capitalists or individuals to come here and build modest but substantial homes for these workers. Attractive building sites are available at extremely low prices, and building costs are down.

TORRANCE has an assessed valuation of \$19,200,000 and a bonded indebtedness of only \$40,000. The city tax rate is 70 cents the second lowest city tax in all southern California.

For further information, telephone Torrance 8 or address

**WAR SECRETARY FOR TAFT DIES**  
End Comes to Dickinson in Chicago Hospital  
Burial at Nashville, Tenn., Set for Saturday  
Public Service Began Under President Cleveland  
CHICAGO, Dec. 13. (P)—Jacob M. Dickinson, 78 years of age, Secretary of War under President Taft, died today at St. Luke's Hospital after an illness of several weeks.  
Mr. Dickinson was taken to the hospital several weeks ago and recently underwent an operation. His death had been expected momentarily for nearly a week. Since retiring from the war office Mr. Dickinson had been practicing law in Chicago.  
The body will be sent tomorrow to Nashville, Tenn., where it will be buried Saturday.  
Dickinson's years were rich in public service. He was assistant Attorney-General for two years under Cleveland. He served the United States as counsel before the Alaskan Boundary Commission in London in 1903. He spent two years in the Cabinet from 1909 to 1911. He accepted a second political appointment from a Republican administration when Atty.-Gen. Daugherty chose him in 1923 as special assistant to handle injunction cases against the federated shop crafts.  
Dickinson was born in Columbus, Miss., January 30, 1851. He paid the expenses of his education by teaching and at 30 years of age had won his master's degree at the Uni-

\*\*\*\*\*  
versity of Nashville. He entered legal practice in Nashville in 1874. He met Martha Overton there, his bride, in 1876. Three sons were born to them.  
**One-Man Cars Bring Arrests**  
OAKLAND, Dec. 13. (Exclusive)—The city of Oakland expressed its distinct disapproval of one-man street cars in this city by arresting a motorman and the vice-president of the Key System Transit Company today.  
The action had been anticipated. The Railroad Commission has authorized the use of the one-man cars on all the Oakland lines except four, but city officials warned that if the company attempted to put the cars in operation they would be stopped.  
The threat was made good in the presence of several hundred spectators today.  
The Key System, in order to bring the matter to a court test, agreed to the arrests.

**WOMAN FIGURES IN BAR SCANDAL**  
Kin of Filipino Officials Sentenced to Prison  
Family Long Prominent in Philippine Islands  
Other Employees of Supreme Court Get Terms  
MANILA, Dec. 13. (P)—A bar examination scandal which has held public attention for weeks reached a climax today with the conviction of Miss Estela Romualdes, daughter of Miguel Romualdes, former Mayor of Manila, of a charge of falsifying public documents. She was sentenced to imprisonment for six years and one day.  
The Romualdes family is one of the most prominent in the Philippines. Miss Romualdes is a niece of Justice Romualdes of the Philippine Supreme Court.  
The falsification charge grew out of an incident which occurred while Miss Romualdes was serving as secretary to her uncle. She was accused of having changed the grades of two students who failed to pass a bar examination.  
Four other employees of the Insular Supreme Court of six persons who posed as lawyers have been convicted and sentenced to terms ranging from four months to ten years. Among these are Bienvenido Mapa, nephew of the late Chief Justice Mapa, and Virgilio Naval, nephew and secretary of the late Justice Villareal. Mapa was sentenced to eight years and Naval to ten years.

**LIQUOR GANG AVENGED ON SALOON Foe**  
Brick Tossed Through Window of Restaurant Owned by Bar Wrecker  
KANSAS CITY, Dec. 13. (P)—Retaliation for her Carrie Nation act, in which she wrecked a neighborhood saloon with an ax, was visited on Mrs. Maude Wilson early today when a brick was thrown through the plate glass window of a restaurant she operates.  
Witnesses reported the brick was thrown from a passing motor car occupied by several men.  
Shortly before the window smashing, employees of the restaurant related, eight men came into the place and inquired for Mrs. Wilson and her daughter, Iris. They ordered coffee and left without paying the bill. A few minutes later the brick crashed through the window, along with a salt shaker which had been taken from the restaurant.  
From the descriptions of the men, Mrs. Wilson identified one as "Joe, the bootlegger," whom she mentioned in a statement to the prosecutor yesterday.  
Mrs. Wilson wrecked the saloon, she said, after her husband and daughter had obtained liquor there and after authorities had failed to take action.

**Nine Film Men Killed in Fall**  
MOSCOW, Dec. 13. (P)—Nine motion picture men were killed today when they fell over a precipice in the North Caucasian Mountains near Gromy, it is learned here.  
The men were members of a party engaged in filming a section of the mountain area, it was said.  
**AMPLE LABOR FORCES AT KANSAS OIL FIND**  
WICHITA (Kans.) Dec. 13. (P)—C. E. Hall, superintendent of the Kansas State Free Employment Bureau here, today asserted that demand for labor has not yet followed the flow of oil in the Wichita area. The work is being handled by men already on the job and by a few of the more ambitious job hunters who went directly to the scene of drilling operations to seek employment.

No City Taxes  
No assessments  
No State Taxes

**MONTHLY egg profit checks** from your own unit in a scientific Egg Factory... ORO BLANCO... will solve many of your family and household financial problems, with a small initial investment.  
You don't have to buy land... nor build a home... nor own a chicken house! You don't have to do any work whatever. You simply own an efficient unit in a great egg factory, just as you might own a block of stock in a great automobile factory... but no stockholder's liability.  
Yet the virtually guaranteed opportunities for big income are such that a small investment in ORO BLANCO is a real wonder worker in the field of profit paying. Small down payments and easy terms enable you to start sharing immediately in the dividends of the egg production business.

**NO EXTRAS!**  
No such expenses as payments for Sidewalks, Streets, Curbs, Sewers, Storm drains, Electroliners, Lighting.

All the work is done scientifically by experts who feed, care for, and cull your hens. Here at last is your opportunity to get into the Egg business for yourself, by proxy... instead of the land business for someone else. REMEMBER... there is no land for sale at ORO BLANCO. Your profits go into your pockets... not into buying a lot. Your checks are mailed to you monthly.

**VISIT ORO BLANCO** this week end. See the ten units already constructed and in operation. Visualize the immensity, and the efficiency of the ORO BLANCO Program. Realize the great advantages of the ORO BLANCO plan over the ordinary individual poultry business.

## FRAUD LAID TO ART DEALERS

Executors of Edgar Mills Estate Charge Collector Was Victimized in Large Amount

NEW YORK, Dec. 13. (P)—Executors of the estate of the late Edgar Mills, whose collection of stringed instruments and objects of art was conceded to be one of the finest in the world, today filed an affidavit in Supreme Court charging that art dealers had victimized Mills to the extent of several hundred thousand dollars in the last six months of his life.

Their charge was in support of a counterclaim of \$40,000 in the suit to recover \$7858 on a promissory note brought by Frank G. Schnitzler, an art dealer whom Mills patronized. It was acknowledged that Mills made the note to Schnitzler last April, two months before he died, but the executors contended they were justified in refusing payment because the dealer misrepresented the value of the paintings and other objects he sold to Mills.

The executors, among whom are Thomas W. Lamont, a partner in J. P. Morgan & Co., and Tennant Harrington of California, alleged that between January and May, last year, Mills purchased from Schnitzler paintings for which he paid \$133,519. Subsequently they were declared to be replicas of imitations worth \$60,319.

Schnitzler, in an affidavit, declared that Mills knew as much as he did about the value of paintings.

Mills was a son of the late Edgar Mills of Menlo Park, Cal., and a nephew of the late D. O. Mills, California capitalist.

**MILLS LEFT ESTATE VALUED AT \$791,111**

SACRAMENTO, Dec. 13. (P)—Edgar Mills, native Californian and a nephew of the late D. O. Mills, pioneer Sacramento banker, left a California estate worth \$791,111 when he died in New York last June. It was disclosed here today with filing of an inventory and appraisal in the Superior Court. Other properties are in New York.

**Valenzuela to be Candidate of Obregonistas**

MEXICO CITY, Dec. 13. (P)—El Universal Grafico today said that the Confederation of Obregonistas and the National Agrarian party had decided to support the candidacy of Gilberto Valenzuela, Mexican Minister at London, for the Presidency in the national elections to be held next November.

This support, it was said, would be given, of course, only in the event that Valenzuela agreed to become a candidate.

Valenzuela arrived here a few days ago from London on a leave of absence and at that time told interviewers he would consent to become a candidate if the people convinced him they so desired.

**Mme. Walska Ill With Influenza**

CHICAGO, Dec. 13. (P)—Mme. Ganna Walska is ill with influenza and will be unable to appear in a concert scheduled next Saturday afternoon. Henry K. Voegell, sponsor of the concert, announced tonight. Her appearance has been postponed indefinitely. Voegell stated that Mme. Walska's condition is not serious.

Mme. Walska, who is the wife of Harold H. McCormick, returned to Chicago this week after spending several years abroad.

Judge Rejects Motions for Acquittal

Washington Trip Figures in Testimony

JACKSON (Miss.) Dec. 13. (P)—Unable to agree on a verdict, the jury in Federal court holding the fate of Perry W. Howard, former Republican national committeeman, three other negroes and a white man accused of violating the Federal anti-patronage statutes, was ordered locked up tonight until 9 a.m. tomorrow. Final arguments were heard at the afternoon session.

Before testimony was concluded Judge Edwin R. Holmes overruled two motions by defense for peremptory instructions to find the defendants not guilty.

The first was offered in behalf of T. Scott Hubbard of Magee, former deputy marshal, alleged to have loaned \$2000 to A. P. Russell, candidate for marshal, who declared he delivered \$1500 to Howard for Howard's endorsement.

Similar instructions were denied for Howard and the other defendants, S. D. Redmond, A. M. Redmond and Ed L. Patton.

The prosecution sought to shed further light upon the trip of the defendants and Russell to Washington in 1927 when Russell was presented to Howard for endorsement.

Russell denied testimony of S. D. Redmond that the latter had returned money to him. It was agreed Russell paid for the drawing-room and fares for the Washington trip.

Judge Holmes announced continuance of the case involving indictments against eleven defendants until the May session because of the prevalence of influenza.

**Capital Dry Law Revision Sought**

WASHINGTON, Dec. 13. (P)—Material revision of District of Columbia laws to give police greater authority to enforce prohibition in the capital city is being considered by a House subcommittee looking into the situation.

A report by Commissioner Doran of the Prohibition Bureau that 3000 persons in Washington were engaged in the illicit liquor traffic has stirred committee members and Chairman Gibson today had Edwin B. Hesse, Superintendent of Police, before that body to report on conditions.

The superintendent and other police officers recommended that all members of the force be given authority to make arrests for violation of the prohibition law and also suggested that legislation to make it a felony to purchase liquor as well as to transport it would be effective.

**Addict Hospital to be Enlarged**

SACRAMENTO, Dec. 13. (Exclusive)—Plans for the immediate construction of an additional building at the State narcotic hospital at Spadra, near Pomona, were announced today by Carl E. Jensen, State director of institutions.

The new building will raise the capacity of the institution from fifty patients to 100.

The State narcotic hospital, authorized by the 1927 Legislature, was opened during the present year. Soon after its opening it was completely filled.

**Jury Condemns Father of Five**

SPOKANE (Wash.) Dec. 13. (P)—Archibald F. Much, 33-year-old mill worker and the father of five children, was convicted here tonight of murdering Mrs. Catherine Clark, Boston divorcee.

The jury recommended that he be hanged. The jury was out two and one-half hours.

**FRENCH WAR NURSE CONVICTED IN KILLING**

NEW YORK, Dec. 13. (P)—Mrs. Marjorie Nave, young French war nurse indicted for the murder of Andrew Devola, her lover, was convicted today of first degree manslaughter. Such a verdict is punishable by a sentence from one to twenty years. She was remanded to jail after the jury returned its verdict, for sentence Monday.

**Killed in Highway Crash**

NEW YORK, Dec. 13. (P)—A woman, Mrs. Mabel, was killed in a highway crash today. She was driving a car when it collided with a truck. The driver of the truck was not injured.

**Dies in Electric Chair**

NEW YORK, Dec. 13. (P)—A man, John, was executed in the electric chair today. He was convicted of the murder of a woman. The execution was carried out without incident.

## Runnymede

WHETHER you live in California or Maine, Washington or Florida, the Runnymede Income Plan will serve you equally well. You can live where you choose, and without work or worry, participate fully in the profit opportunities which Runnymede ownership brings you. You pursue your regular work while your investment at Runnymede is growing and earning.

### Two Profits

Runnymede profit sources are two-fold, so designed that one earns while the other grows. Earning and growing, with an ever increasing security back of your investment, the Runnymede Income Plan meets every requirement of the investor seeking profitable employment for his funds.

Runnymede operates the world's largest poultry plant, specializing in mass production of eggs through factory methods. More than 180,000 White Leghorn hens are housed in this big plant. These birds are the property of hundreds of non-resident owners who profit from the earnings of their own flocks in addition to the increase in the value of their land holdings.

This huge plant is not a transient enterprise—it is not a business for a week, a month or a year—but a soundly established, growing industry that has proven its earning power over a period of about a year and a half of actual operation.

### Land and Eggs

The Runnymede Income Plan combines land ownership with a profitable egg business, the latter operated for the individual owner by expert poultrymen. The land you get is in the marvelous San Fernando Valley, right here in Los Angeles. The assessed valuation of this valley is greater than 48 out of the 58 counties of the state. Values are established and are keeping pace with the phenomenal growth of this section of our great city. Industry and population are fast pushing these values upward.

You should investigate the Runnymede Income Plan at once. Drive out to Runnymede and see this gigantic enterprise in full operation, or clip and mail the coupon for illustrated folder giving the details.

## SUICIDE CLOSES 'HELL ON EARTH'

Ohio Wife Kills Self in Husband's Presence

He Says She Confessed Murder of Friend

Denouement Occurs on Way to Police

CANTON (O.) Dec. 13. (AP)—Mrs. Margaret Heidman, 31 years of age, of Lorain, O., asserted to be the comely young woman who called Vernard E. Fearn, coal operator, to the door of his home and shot him to death last Thursday night, committed suicide in an automobile on a road just outside of Canton tonight.

The woman's husband, W. O. Heidman, who told police that she had confessed the slaying to him, was taking her to Canton from their Lorain home to turn her over to authorities when suddenly she drew a .38 caliber revolver and shot herself through the heart.

Examination revealed that it was the same weapon used in killing Fearn.

**SUICIDE NOTE**  
Heidman said his wife had planned to end her life and had left him a "suicide note" which he discovered in their home at Lorain this morning. Because he knew that she had been acquainted with Fearn and "gone out with him" on several occasions, Heidman previously had suspected her of the slaying, he said.

The suicide note which Heidman discovered before his wife intended to reach him, made no mention

## MUSICIAN KICKED UPSTAIRS

Harding Discharged as Trombone Player of Skating Rink Finds Career Leading to Presidency

NEW YORK, Dec. 13. (AP)—Robert H. Davis tells in a copyrighted story in the Sun today of a skating-rink proprietor who discharged a trombone player and so turned the aspiring musician into other paths of endeavor, paths that led in time to the Presidency of the United States. When the roller-skating craze—the youngest of those sons joined up, and when the war was over Private Venuti was listed as missing and unaccounted for; somewhere in the mire of battles fiercely fought lay the bones of the youngest son of Pete Venuti.

From their fellow townsman, Warren G. Harding, President of the United States, Pete Venuti and his two remaining sons received invitations to attend the solemn ceremonies incident to interment of the Unknown Soldier at Washington as guests of the White House.

**NOT WORTH RISE**  
The day after the ceremonies the President and the former skating-rink proprietor sat smoking in the White House and talking of days gone by. The executive recalled the discharge of the young trombone player from Venuti's rink.

"Pete," said the President, "why didn't you see that 25-cent rise?" "Because," Venuti answered after a thoughtful pull at his cigar, "I didn't think you were worth the rise then, Warren, and I still don't think so."

upon receipt of a reply from Bolivia in time to make the plan possible. The leaders of the Council favored putting a "punch" into the affair by addressing a strong, earnest appeal for immediate submission of the dispute to arbitration. They thought this could be done without suggesting whether the case should be taken up through the good offices of Argentina or some other Latin-American country, or through the League of Nations itself.

The primal anxiety of members of the Council was not to thrust that body unduly into political affairs of the American continent.

While there was widespread belief that the Council should take some further action, there seemed nothing like a complete agreement as to what form that action should assume. As the League leaders were groping for light some of them talked about the possible attitude of the United States, and one diplomat said:

"It is hard for the League to consolidate world peace without the presence of the United States in the organization."

### BOLIVIAN CABINET NAMED BY PRESIDENT

LA PAZ (Bolivia) Dec. 13. (AP)—Formation of a new Cabinet by President Siles was announced late today. His formation followed the resignation yesterday of the former Foreign Minister, Abel Iturza, and conforms to the exigencies of the critical international situation.

In the Cabinet as announced tonight Thomas Manuel Elio will hold the Foreign Relations portfolio; Francisco Traine will be Minister of Interior and Justice; Alberto Palacios, who as ad interim Foreign Minister greeted President-elect Hoover at Antofagasta, Minister of Finance, Labor and Agriculture, and Jose Antezana, publisher and former Minister to Cuba, Trade Development and Communications.

**SHERIFF GETS TIP**  
She waited until the first bus came along, boarded it and rode into the public square of Canton. Mrs. Heidman took the next car to Akron, about twenty-five miles away. She remained at a hotel there overnight and returned to her home at Lorain the following day, her husband said.

Sheriff Gibson, it was revealed tonight, came upon a "tip" that linked Mrs. Heidman with Fearn's name. The Sheriff was in his office tonight making preparations for the trip when Heidman drove up in his automobile.

### MORAL CURBING OF WAR URGED

(Continued from First Page)

tempt to conciliate the dispute before Bolivia should have received moral satisfaction from Paraguay. "This legislation has received information from the government," the Paraguayan note said, "that notwithstanding the peaceful sentiments of the people of Paraguay and of that country's disposition to submit the difficulty between the two countries to a committee of conciliation, Bolivia is actively concentrating troops and war materials on the frontier, all of which tends to make the outbreak of war imminent."

The danger to peace which the massing of Bolivian forces on the Paraguayan border produced was due, according to the Paraguayan Charge d'Affaires, to the fact that Paraguay habitually kept a relatively strong garrison in the neighborhood of Fort Vanguardia where the clash occurred. The legislation estimated that about a thousand Paraguayan troops were in that vicinity.

Meanwhile the Bolivian legation denied all knowledge of any warlike activities in Bolivia, emphasizing instead that the latest advice received from its government at La Paz indicated that no mobilization of reserves had taken place. The Bolivian Minister, however, said he was inclined to believe that there is anxiety in Bolivia to have reinforcements near the border in view of the situation and especially because of last week's clash.

### LEAGUE COUNCIL PLANS PEACE MOVE

LUGANO (Switzerland) Dec. 13. (AP)—Action by the Council of the League of Nations in the Paraguayan-Bolivian dispute may take the form of sending to Paraguay the expected reply from Bolivia to the Council's appeal for peace, and to Bolivia the Paraguayan reply, which came in today.

A. Aguirre y Belandier, Cuban member of the Council, said that several members had discussed this possibility informally. He thought it might eventuate if Bolivia sends its promised reply before the Council adjourns.

The idea of the Cuban member was that the Council could accompany this action with a communication emphasizing to each government that the other seemed disposed to achieve a friendly settlement. He added that the program would necessarily be contingent

## DECEMBER JOB SITUATION GOOD

Federal Employment Service Reviews Month

Building Volume Reported Well Maintained

Department Stores Reveal Increased Pay Rolls

WASHINGTON, Dec. 13. (AP)—Employment conditions at the beginning of December were held to be generally satisfactory over the country as a whole by the United States Employment Service today in its monthly review.

In spite of the seasonal decrease in out-of-door construction, the report found the metal mining and metal-working trades were particularly speeding operations and increasing working forces and that building volume was being well maintained.

It also said that such dissimilar lines of industry as coal mining and department-store operating were likewise indicating increases in persons on pay rolls. A surplus of agricultural workers in California, and a winter shutdown of northwestern saw-mill and logging plants were among the less favorable points noted.

However, the report concluded that "no locality was there any serious unemployment, the list inst.

## MAN KILLS HIMSELF TO HONOR SAINT

Mexican Makes 'Sacrifice' Leap Off Church Tower in Tribute to Virgin

MEKICO CITY, Dec. 13. (AP)—Anouncing that he desired to make a sacrifice in honor of the Virgin of Guadalupe, patron saint of Mexico, an unidentified man yesterday jumped to his death from the tower of the church in San Angel, the Federal District town which witnessed the spectacular assassination of Gen. Alvaro Obregon last July.

It was the day of the saint and a big crowd had assembled about the church. Suddenly the bells of the church began to ring softly then they pealed loudly and as they died away a man who had been ringing them appeared on the balcony of the tower and addressed the crowd below, saying:

"This is the day of Our Lady of Guadalupe. I am a devotee of the Virgin and I wish to make a sacrifice in her honor."

The crowd seemed unmoved and the man exclaimed:

"What! You do not take me seriously? All right then, I am going to die this instant."

Whereupon he jumped from the tower.

## CANADA AGREES TO CONFERENCE

Antismuggling Pact Revision Slated for Discussion

Action Follows Tightening of American Barriers

Aims on Liquor Indicated by Commissioner Doran

OTTAWA (Ont.) Dec. 13. (AP)—Acting soon after American authorities had called for strengthening of the barriers against liquor running across the border the Canadian government today agreed to a conference with the United States for discussion of revision of the anti-smuggling treaty of 1924 between the two nations.

No definite proposals have come from Washington, although in interviews James M. Doran, American prohibition commissioner, has indicated he wants Canadian authorities to refuse clearance papers to vessels carrying liquor cargoes to the United States.

Parliament may legislate to effect such a change, although any amendment affecting, as this proposal would, sources of national revenue must be initiated by the government.

The conference on the treaty will take place some time next month. A date is expected to be set after William Phillips, United States Minister in Ottawa, communicates with Washington.

## AS INTERESANTES DE ULTIMA HORA DEL MUNDO EN ESPANOL

Muy bien: voy a morir en este instante."  
No bien acababa de pronunciar esas palabras, cuando se arrojó a vacío.  
Se Venga una Banda de Licoristas  
de una Enemiga de las Cantantes

**KANSAS CITY, Diciembre 13.**—Esta mañana temprano fue víctima de una venganza la señora Maudie Wilson, en represalias de que, imitación de Carrie Nation, entró en una cantina a hacer destroncos hecha en mano. Los licoristas le rompieron hoy de un ladrillo la luna de cristal de una ventana de su restaurante.

Poco antes de que los señores ocularan, el ladrillo fue lanzado desde un auto que pasó frente al restaurante, y en ese momento viajaban varios hombres. Poco antes de ser estrellada la ventana, dicen las empleadas del restaurante que entraron en este momento hombres y preguntaron por la señora Wilson y su hijo. Los señores que fueron a pagar la cuenta, pocos minutos después, fueron arrojados el ladrillo, el cual cayó junto con un salero que se había sustraído de la fonda, a través del vidrio de la ventana.

Por las señas de estos individuos la señora Wilson identificó a "Joe el botigaster" cuyo nombre mencionó al ser interrogado por el presentador al ser el procurador

Dice la señora Wilson que ella fue a destruir la cantina, porque su marido y su hija habían comprado licor allí, y porque las autoridades nada hicieron cuando ella

les dio informes sobre dicho lugar.  
**Los Tecayo de Fágiles que Emulan a Estos sin Riesgo Personal**  
**CHICAGO, Diciembre 13.**—Ayer quedaron divorciados de sus mujeres Jack Dempsey y Georges Carpentier, notorios guerrillas, testigos

La señora Anna Dempsey dijo al juez Klarkowski que un golpe derecho a la quijada de ella era lo que la había obligado a solicitar el divorcio de su esposo.

El juez Sabbath otorgó un auto de separación a la señora Kathryn

Carpentier despues de haber descrito ella las propensiones de Georges a alterar la paz doméstica.

**NOTAS LOCALES**  
**Piérdense un Abrigo y un Vestido**  
**de Señora Vallaeos**

Ayer de parte a la policía Eddie Schmidt, jefe de la compañía de Eddie Schmidt, de la calle Séptima, 714, de la pérdida de un abrigo de terciopelo de señora, con cuello y puños de cebellina, valorado en \$1525, y de un vestido de noche, también de terciopelo cuyo precio es de \$250. Otro el caballero citado \$100 de gratificación a quien le entregase sus prendas.

Después de lo que Schmidt que se las había comprado el miércoles a Clifford Gantt, menajero, parece que las llevara a la señora Chester Thompson, al hotel Ambassador. El muchacho regresó, y dijo a Schmidt

que había colocado las dos cajas que contenían la ropa citada en el estribo de un auto, y que probablemente se habían caído de ahí camino del hotel.

**Se Solicitan Donativos**

La Misión de Media Noche, sita en la esquina de las calles Cuarta

En la esquina de las calles Cuarta y de Los Angeles, ha solicitado ayer donativos de juguetes, ropa, dulces y pasteles para la tertulia de Navidad que va a ofrecérsiles dicha misión a los niños necesitados el día 24 del actual, a las 2 p.m. Esa institución está ansiosa por conseguir voluntarios que vayan a ayudarlo en su benéfica fiesta, particularmente personas que sepan distribuir a los niños contándoles cuentos.

vertir a los niños contando sus cuentos. Espérase que concurren entre 700 y 900 niños a la reunión, y va a hacerse todo lo posible porque cada uno de ellos reciba un juguete, por lo menos.

madre (Once a mother bear tried to  
kill him). He le hizo fuego con su  
fusil, pero no la mató del balazo  
(He fired his gun at her, but the  
bullet did not kill her). La osa se  
le abalanzó (The bear ran at him).  
El extendió el brazo con un largo  
cuchillo en la mano (He held his  
long knife in his hand). La osa  
se echó al cuchillo y quedó muerta  
(The bear ran against it and was  
killed).  
Hizo largos viajes solo por los bosques  
(He made long journeys alone  
in the woods). Un día miró hacia

atrás por entre los árboles y vio cuatro indios (One day he looked back through the trees and saw four Indians). Iban siguiendo la huella de Boone; pero no lo veían (They were following Boone's tracks. They did not see him). Se metió por aquí y por allí; pero los indios no le perdían la huella (He turned this way and that. But the Indians still followed his tracks).

## CUBA PLANS FIGHT ON RAISING SUGAR DUTY

**HAVANA, Dec. 13. (AP)**—Participation in hearings at Washington of the United States Tariff Commission is urged on Cuban sugar mill owners by the Cuban Sugar Export Corporation in a statement made public today. The statement declares the advisability of Cuban participation in order that any effort to increase the duty on Cuban sugar going into the United States may be counteracted.

## CONVICTED SLAYER SENTENCED TO HANG

**GREEN RIVER (Wyo.) Dec. 13.**  
(P)—Henry Basil Morris of Carthage, Mo., convicted slayer of Mrs. Anna Grabe and her 3-year-old daughter, Geneva, of Denver, was sentenced today by Judge Tidball to hang in the State penitentiary May 1, 1929. Morris was convicted by a jury in District Court here last Saturday.

A black and white illustration of a high-backed armchair. The chair features a dark, ornate wooden frame with curved legs and a decorative stretcher. The seat and backrest are upholstered in a fabric with a dense, floral or foliate pattern. To the left of the chair, a small, dark plant with long, thin leaves and round fruits hangs down. The background shows a window with vertical curtains. The entire scene is framed by a decorative border at the top and bottom.

ONLY WOMEN  
UNDERSTAND

... and in this merry Yuletide business of choosing men's usables and wearables, the fair sex stands supreme. Instead of getting all panicky and distraught, the lady-folks (wise little souls) rummage through dresser drawer and clothes closet in search of their men-folks' store preferences.

As the preponderance of Mullen and Bluett labels piles up, Mrs. Lady hies herself to the nearest Mullen and Bluett location and there, in an atmosphere of quiet and calm, makes the momentous decision which assures success on Christmas morn.

Really, the increasing number of wives, mothers, sisters and sweethearts who depend upon Mullen and Bluett merchandise for success is astonishing.

AND ACTIVITIES AT  
LOS ANGELES HARBOR

## SHIP LINE PLANS TO RECIPROCATE

McCormick Company Chief  
Makes Announcement

Increasing Amount of Repair  
Jobs Promised Yards

Other Concerns Expected to  
Adopt Same Policy

Los Angeles hereafter will receive an increasing portion of the ship repair and upkeep of the McCormick Steamship Company's great fleet, according to E. L. Hill, port engineer of the line, down from San Francisco yesterday.

It is due to this port's increasing contributions to the line's growing trade, and is purely reciprocal, he said, in appreciation of the bountiful business developing here. The company owns or affiliates with owners having in all sixty-five ships calling at this port, and its decision stands to favor local shipping utilities materially. Increases in purchases of supplies also will follow here, he said.

The line is one of the busiest operators in port, having as many as twenty-five ships calling here monthly in both American, inter-coastal, and coastwise general cargo and lumber services. It has sprung from a fleet of a half a dozen lumber carriers as many years ago, and is constantly augmenting its fleet, yesterday's announcement being of two more ships for the South American fleet.

Yesterday saw the Munton and C. D. Johnson in from the North Pacific, and the Walter D. Munson sailing for the east coast with capacity of Pacific freight. The Munton and the Abernethy are now undergoing their annual inspection here, and the Munson will go to Bethlehem shipyard the 18th inst. for dry docking.

Similar reciprocal patronage recently was accorded Los Angeles shipyards by the American Inter-oceanic Line, and other services will see fit to place more of their work in the port which is supplying them with much business.

## CARRIER TAKES OUT CARGO FOR CHINA

More than 5000 tons of Los Angeles cargo will go out in the holds of the O. & O. steamer Golden Tide for China tomorrow for the American Hawaiian Steamship Company. It exceeds the record of 4900 tons out of here on the Golden Harvest a few days ago, and indicates the strength with which American Hawaiian is invading Far East business. The cargo includes 20,000 cases of canned goods, 2000 drums of gasoline and several hundred tons of general merchandise.

The American Hawaiian inter-coastal steamer Hawaiian also was in yesterday with 2400 tons of local discharge, including many items for the Christmas trade. They include thirty-seven automobiles, several carloads of toys, and one each of cranberry sauce, dates and chocolate.

Sunday will see the Dakotan in to pick up 1800 tons for the east coast and the Nevada in to drop 2000 tons from the east coast.

Freight rate changes from the Gulf to the Pacific, which were to be given a trial period from January 1 to February 1, have been deferred, according to wire from New Orleans to E. Miles Cantelow, Los Angeles general agent for the Redwood Line. The rates of \$4.50 a ton on east iron pipe, owner's risk, and \$5 at shipper's risk, have been extended to February 1, next, according to Cantelow. It is understood the same applies to all members of the Gulf-Western Conference, including the Gulf-Pacific, Luckenbach and Transmarine lines.

Proposal of Pacific Coast shipping men to acquire the American Merchant Line fleet from the shipping board, for entry between this coast and Europe, is reported to have fallen through, and that the vessels were deemed not suitable for the trade. The vessels are steamers with accommodations for 200 passengers but limited freight holds. Seventeen foreign lines now operate on that run, but none flying the American flag. Practically all are new type motorships.

Norwegian steamer Silkeborg is due Sunday with 29,000 bags of sugar from Cuba for discharge here. It is the second such shipment from Cardenas in recent months. The vessel is under charter to the Canadian Transport Company.

The Japanese liner Korea Maru of the Nippon Yusen Kaisha will sail today for Japan with more than 100 local passengers and 2000 tons of Southland cargo. The Shenyu Maru of the same line is due here Christmas Day via San Francisco.

Laeco Line will have three liners in or out tomorrow. The Calawail is inbound from Hawaii; the City of Honolulu will sail for Hawaii; and the Harvard is due from San Francisco in the coastwise service.

\$207.50 Hand Carved Chair

Of rare distinction! Imported from Italy. Solid walnut—high back type with arms ornately carved. Upholstered seat. Sketched. (Just 6.)

### SALT CREEK OIL CASE EXPLAINED

Dr. Hubert Work Gives Data to Senate Committee

Lease Renewed on Advice of Congress's Experts

Clash of Legal Opinion and Cancellation Detailed

WASHINGTON, Dec. 13. (AP)—The contract of the Sinclair Crude Oil Purchasing Company for the government's royalty oil in the Salt Creek fields was renewed upon the advice of legal experts provided by Congress. Hubert Work, former Secretary of the Interior, today told the Senate Public Lands Committee.

Commenting on the subsequent decision of the Department of Justice that the renewal was illegal and the contract void, Dr. Work in a prepared statement declared, "in this respect conflict of legal opinion developed between the law officers of the two departments."

Dr. Work, who resigned his Cabinet office to become chairman of the Republican National Committee in Herbert Hoover's campaign, was called before the committee for an explanation of the renewal of the Sinclair contract last February and of its subsequent cancellation.

**WEST EXAMINATION**

The committee took up this case yesterday in examining Roy O. West, whose nomination to succeed Dr. Work now is up for consideration. In connection with the examination into the Sinclair contract today, Senator Walsh, Democrat of Montana, explained that he feels this inquiry is only "remotely related" to the West nomination.

Taking the witness stand at the opening of the meeting, Dr. Work pulled his seven-page printed statement from his pocket and asked permission to read it. The statement included a detailed, chronological history of all correspondence in connection with the Sinclair lease dating from the time it was allowed in 1922 under the administration of Secretary Fall of the Interior Department. Senator Walsh later supplemented this with some of the letters referred to but this ended the testimony of the former Secretary.

**DONOVAN ON HAND**

William J. Donovan, the assistant to the Attorney-General, who wrote the opinion declaring the contract void, was on hand for questioning by Senator Walsh, who wants to inquire into the time taken by the Department of Justice in reaching its decision. He will be called tomorrow.

James P. Kem, counsel for the White Eagle Oil Company, whose protest over the validity of the contract renewal led to the inquiry by the Department of Justice, told the committee of making his protest last April. The contract was canceled in October.

Mr. Kem said he protested the contract renewal in April and later took it up with Senator Capper, Republican, Kansas, and the Department of Justice. He told of going to see Senator Walsh at Helena, Mont., last September and testified that Walsh, after examining his protest, agreed that the contract should be declared void.

The oil man said, however, he was not protesting against the action of the government departments and had congratulated Secretary West upon the manner in which he canceled the Sinclair lease once it was declared void.

**WORK'S STATEMENT**

Dr. Work, in his statement, said in part:

"The records show that unusual attention was given to this matter covering a period of more than eight months following the notification by the Sinclair Crude Oil Purchasing Company, on June 7, 1927, that it elected to exercise its rights to renew under the original contract, several objections being invited several times orally and in writing to submit any facts showing illegality or fraud."

"The record further shows that copies of all papers relating to the original bid were furnished to the special government counsel in the oil suits, Messrs. Fomerie and Roberts, and to the emergency fleet corporation in 1924. Copies of records were also furnished to the protesters, and on March 27, 1928, to the chairman of the Public Lands Committee of the Senate."

"Before renewals were made the executive officers of the department carefully construed the law having in view all the facts and the complete data of the case and recommended renewal. The department of Justice later invalidated the original contracts of sale which, of course, nullified the renewal of said contracts. In this respect conflict of legal opinion developed between the law officers of the two departments."

**DIFFERENCE OF OPINION**

"The Secretary of the Interior, in the determination of questions like this, must depend upon the permanent expert legal and technical forces provided for him by Congress. In this instance the action of the department was taken in line of duty openly, by and upon the advice of four officials appointed by the President and confirmed by the Senate, and the other legal and technical experts of the general land office, the Geological Survey and the office of the solicitor."

"The matter involves no irregularity or concealment in the renewal, on the part of any officials of the Interior Department, but is solely a difference of opinion in the construing of the original contract and the law."

### SLAYER SUSPECTS IN GIRL DEATH ARRESTED

ABBEVILLE (Ala.) Dec. 13. (AP)—Two negroes are under arrest and a third was being sought today by Henry county officers for the slaying of Miss Alice Mourning, 23 years of age, as she was returning Tuesday night to her home from Fort Gaines, Ga. Foul play was suspected when a horse and empty buggy, which had carried the young woman, returned early yesterday morning. The body was found by searchers in a ditch near the highway. Death is believed to have resulted from a severe beating with the limb of a tree after her assailants had attacked her.

### Review of Day in Congress

An amendment to the Boulder-dam bill adopted by the Senate to increase the authorization for the project's cost from \$125,000,000 to \$165,000,000, the estimate of the engineer's board.

Former Secretary Work of the Interior testified on the Salt Creek-Sinclair oil lease before the Senate Public Lands Committee, which is considering the nomination of his successor, Secretary West.

A \$75,000 increase in the appropriation for the enforcement of prohibition among Indians was approved by the House in the Interior Department supply bill.

The House passed a bill to authorize the award of distinguished flying crosses to the Wright brothers for their invention of the motor-driven heavier-than-air airplane.

The Senate passed the Treasury-Postoffice billion-dollar supply bill after adding \$297,000,000 to the fund for prohibition enforcement.

### SAWTELLE BARRACKS PROPOSED

Coolidge Recommends to Congress Appropriation of \$1,050,000 for Veterans

WASHINGTON, Dec. 13. (AP)—President Coolidge today recommended to Congress that \$1,050,000 be made available for the construction of a three-story barracks building at the Pacific Branch National Home for Disabled Volunteer Soldiers in Los Angeles county.

The purpose of the estimate, the recommendation said, is to provide modern fireproof barracks for aged, infirm, crippled and blind members of the Pacific Branch now housed in wooden buildings. Buildings will provide 1024 additional beds in the barracks and ninety-six beds in dormitories over mess halls.

### Crail Proposes Pension Boost

WASHINGTON, Dec. 13. (Exclusive)—Representative Crail of Los Angeles introduced a bill today increasing to \$50 per month the pensions of all Civil War widows, regardless of age, who married veterans prior to January 1, 1919. The present scale is \$40 for widows 75 years of age who married prior to 1905, and \$30 for those who married since then. Crail said he believes the Pensions Committee favors his bill.

Another bill introduced today by Representative Fish, Republican of New York, would give veterans in government hospitals a Christmas present in the form of a cash spending allowance of \$8 per month.

### Indian School Bill Approved

WASHINGTON, Dec. 13. (AP)—The House Indian Affairs Committee today approved the Leavitt bill to authorize the Secretary of the Interior to contract with States for education, medical attention and relief of Indians. Approval, however, did not come until after the insertion of an amendment to include contracts for supervision of Indian agricultural products.

The measure would authorize the Interior Secretary to place Indian affairs directly under State supervision, paying over Federal funds under contract, and would permit States that entered into such contracts to use existing Indian school buildings, hospitals, live stock and other Federal property under Indian Affairs Office.

### Portland Wars on Bad Driving

PORTLAND (Or.) Dec. 13. (AP)—Traffic police hammering away at their drive against reckless motorists today had 273 more in Police Court. Offenses ranged from running through traffic signals to reckless driving.

To date 950 motorists have been arrested for minor infractions since Saturday.

### Superpressure Device Invented

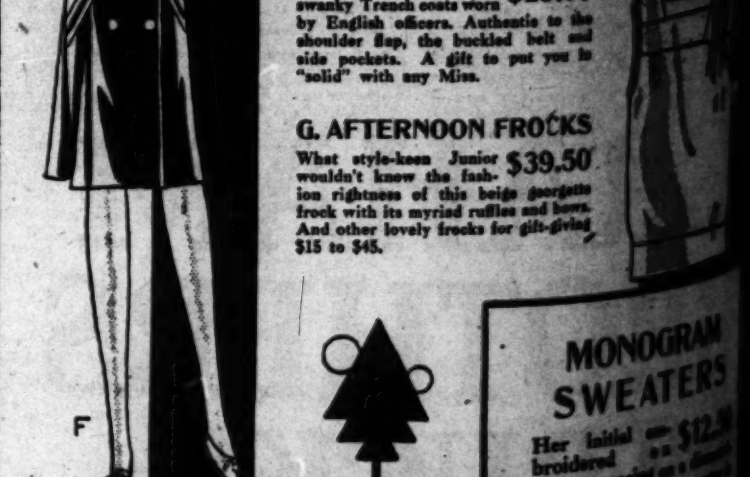

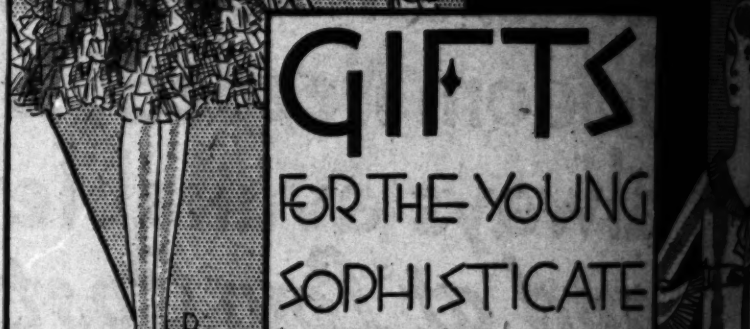

CAMBRIDGE (Mass.) Dec. 13. (AP)—A machine capable of exerting 600,000 pounds of pressure per square inch has been perfected here by Prof. Percy M. Bridgman, professor of physics at Harvard.

The device, a small one, was said to produce pressure as great as would be exerted by an ocean 250 miles deep or an atmosphere 5000 miles high.

### BILL HITTING STOCK GAMBLING PLANNED

WASHINGTON, Dec. 13. (AP)—A proposal to make speculation on the stock market illegal, where there is no intention to actually deliver stock to the purchaser, was made today by Representative Berger, Socialist, Wisconsin. Berger said his bill would not prohibit dealing in stocks where actual delivery of purchased stocks are made, but it would deny the use of the mails to speculators and brokers.

## THE MAY COMPANY

**THE MAY CO. GIRLS & JUNIORS' THIRD FLOOR**

## GIFTS FOR THE YOUNG SOPHISTICATE

**AS YOUR PRESENT HOME COME UP TO** your expectations? How does it compare with Palos Verdes Estates?

California's foremost seaside community has many advantages—personal and financial.

Here are some: Your home will be just a stone's throw from your own golf course. Your riding academy and your bridle trails are almost next door. All your favorite outdoor sports are five minutes distant, and downtown Los Angeles is but 45 minutes drive.

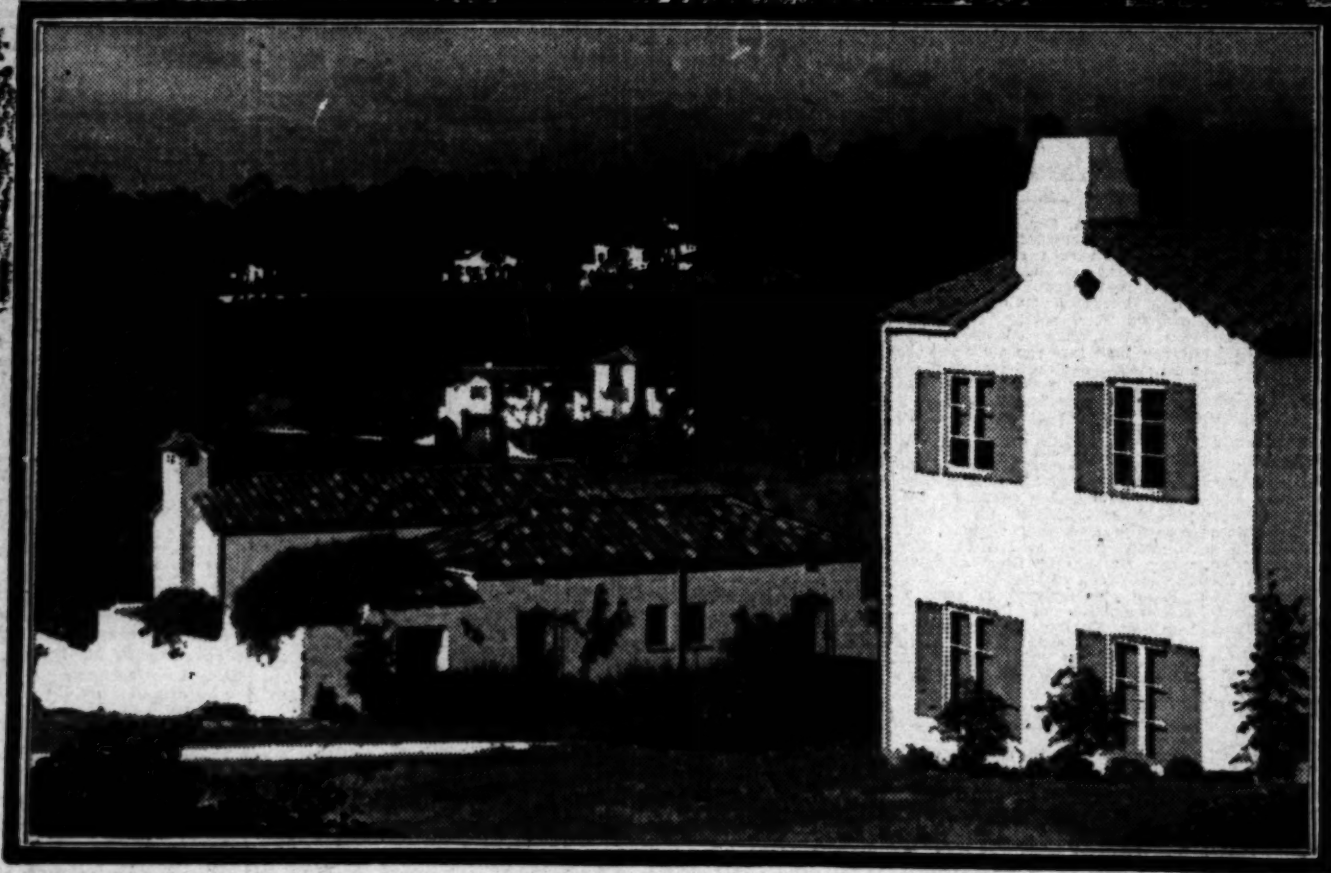

In Palos Verdes you will have a better kind of living. You will have the protection of wise building restrictions and architectural control. Artistic improvements, expert landscaping, parks, spacious boulevards, an absence of congestion—these are all valuable considerations.

You will have all these advantages for perhaps less than the investment you have in your present home.

Desirable ocean front property is already scarce. The demand is growing, values are increasing rapidly. This is why Palos Verdes, choicest of all seaside suburbs, is such a wonderful investment opportunity.

Prices here are lower than in any other community similarly located.

In other words, Palos Verdes offers you an exceptional opportunity for a home or an investment.

## SEATTLE BANKS MERGE ASSETS

Dexter Horton National and Bancorporation Join

Total Resources of Combine Set at \$95,000,000

Two Oldest Institutions in City United by Deal

SEATTLE, Dec. 13. (P)—Consolidation of the Dexter Horton National Bank of Seattle with the Marine Bancorporation with combined resources of \$95,000,000, was announced here today by officials of the two institutions.

The consolidated corporation will be known as the Dexter Horton Marine Corporation. The total deposits of all member banks are more than \$75,000,000.

The National Bank of Commerce and the National City Bank of Seattle will be consolidated with the Dexter Horton National Bank of Commerce. The National Bank of Commerce will continue to operate in its present location. With the National City Bank being merged physically with the Dexter Horton.

W. H. Parson, president of the Dexter Horton, and Andrew Price, president of the Marine Bancorporation, announced ratification by directors of the long-discussed plan for consolidation.

The Dexter Horton National Bank of Commerce combines two of the oldest banks in the state, making it the largest bank in point of invested capital and deposits in this district. The bank of exchange of Dexter Horton stock for marine stock was not announced.

### TWO CONSOLIDATE IN CHICAGO FIELD

CHICAGO, Dec. 13. (P)—The Central Trust Company and the Bank of America formally announced merging of the two institutions today. Combined assets will total more than \$161,000,000, it was announced.

The consolidated institution will have a capital stock of \$10,500,000, of which \$5,000,000 represents the present outstanding capital stock of the Central Trust Company of Illinois and \$5,500,000 will be issued to the stockholders of the Bank of America share for share in lieu of its present stock. The combined deposits will total about \$160,000,000.

Stockholders of the Bank of America will be given equal rights to purchase Central Securities Company stock at asset value, as have stockholders of the Central Trust Company.

Joseph E. Otk, who will head the merged institution, has been vice-president, acting president and president of the Central Trust Company for more than a decade. Charles G. Dawes will become chairman of the board of directors after common stock of the Neve company.

## Pacific Gas and Electric Offers Stock Warrants

Directors of Pacific Gas and Electric Company have voted the distribution to stockholders of one share of common stock at \$35 which is the par value, for each ten shares held, subject to approval of the State Railroad Commission, it was announced yesterday.

The proposed offering is the fourth of this nature, similar rights having been extended to shareholders during each of the past three years. The subscription privilege applies to stockholders of record February 8, next.

The regular quarterly dividend of 3 per cent on the common was declared payable January 15 to stockholders of record the 31st inst. This is the fifty-second common stock dividend paid by the company and the twenty-first at the present rate of 3 per cent per annum.

## Neve Drug Deal Details Given

Details of the contract under which the United Cigar Stores Company of America will acquire control of Neve Drug Stores, Inc., through its recently formed subsidiary, United Retail Chemists Corporation, were outlined yesterday by A. Neve, president of the drug chain, in a letter to stockholders.

United Retail Chemists will deliver two shares of its cumulative preferred stock and a voting trust certificate for one share of class B stock, for each three shares of convertible A stock of Neve Drug. It will also exchange one share of Class A stock and a voting trust certificate for one share of Class B stock for each two shares of common stock of the Neve company.

## Motor Transport Slated for Call

American Motor Transportation Company Class A cumulative convertible \$2.50 preferred stock of no par value will be called for trading on the Los Angeles Stock Exchange today, Norman B. Courtney, secretary and manager of the exchange, announced yesterday. He also announced that the Republic Petroleum Company has applied to list additional stock.

The motor stock was approved for listing a month ago but trading was held up to permit simultaneous listing on the San Francisco Stock Exchange. The additional issue of the oil stock amounts to 50,000 shares of the total listing of this company to 2,500,000 shares.

## Brokers to Pay Generous Bonus

Christmas bonuses, amounting in some instances to two months' salary, will be distributed to the twenty-six employees of Dunk-Harblson Company, member of the Los Angeles Stock and Curb exchanges, tomorrow evening at a banquet at the Biltmore. The company has already distributed several bonuses since the record-breaking activity in the market entailed extra work on the part of employees.

Edward Dunk, president of the company, will act as toastmaster, and McCarty Harblson, vice-president, will officiate as chairman.

## Building-Loan Branch to Open

Pacific States Savings and Loan Company will open an office in San Diego tomorrow, F. A. Wright, executive vice-president, announced yesterday. This will be the eighth complete operating unit of the institution.

A. E. Simons, former vice-president of the American Bank of San Francisco, will be vice-president in charge of the new office. Temporary quarters will be maintained on Seventh street pending erection of a new building.

## REPORT OF CROATIAN OIL DISCOVERY STIRS

BELGRADE, Dec. 13. (Exclusive) Oil strata has been discovered near Sisk in Croatia at a depth of 1500 feet. Experts report large quantities available and that the field is likely to prove superior to the Caucasian oil fields. Foreign capitalists are displaying great interest in the discovery.

## TICKER EXPANSION PLANNED

Growth of Stock Business Here Requires Higher Speed Facilities; New Service Ready January 1

There is no uncertainty in the minds of the Western Union officials on the future of stock-market activities in Los Angeles. This company, which furnishes ticker-quotations service for stock and commodity markets to all large centers in the United States, is backing its analysis of the Los Angeles market with another sizeable increase in facilities, and will inaugurate a new high-speed service to subscribers on January 1.

W. R. Williams, city superintendent, who was chiefly responsible for the extension of ticker service to the Pacific Coast about three years ago, made the foregoing announcement yesterday. He has seen his earlier predictions fully corroborated by the growth in Los Angeles stock transactions, and now has the satisfaction of planning for an even greater volume of business than he originally anticipated.

Facilities will be installed here by the first of the year that will increase the speed of quotations from the Los Angeles Stock and Curb and San Francisco Stock exchanges from 200 to 300 characters a minute. This investment in new equipment, involving about \$50,000, will bring to Los Angeles brokers and their customers the same high-speed tickers now serving the New York Stock Exchange. The estimated cost of the new line does not cover the expense of scraping old equipment.

Along about June 1, Mr. Williams expects to install an automatic sending device in the Los Angeles ticker plant which will increase the speed of service to 400 characters a minute, or the same speed at which the New York quotations are now coming from the floor of the exchange. Service from New York, however, will be further accelerated some time during next year.

The new tickers developed by the Western Union engineers are installed. High-speed tickers involved in the current plan of the Western Union will be installed on both the stock and curb exchanges here, Mr. Williams believes that the curb alone has splendid possibilities of growth. The new tickers will be installed on the San Francisco Stock Exchange circuit because of the large volume of business done here in Bay City securities and the rate of increase forecast.

To date, according to Mr. Williams' figures, the Western Union has 23 tickers in operation in Los Angeles, which is an increase of more than 50 per cent over last year. Tickers are segregated in three groups: Los Angeles Stock Exchange, 112; Los Angeles Curb Exchange, 10; San Francisco Stock Exchange, 10; San Francisco Curb Exchange, 10; and San Francisco Curb Exchange, 10.

In all there are about 800 quotation tickers in service on the Pacific Coast. Throughout the United States and Canada the Western Union is operating a total of 5000 New York tickers alone, which compares with 3000 only three years ago. At a tickers eventually will be scrapped to make way for the new tickers which will print 800 characters a minute.

## Union Launches Oil Subsidiary in Old Mexico

Formation of a subsidiary company of the Union Oil Company of California, to be known as the "Compania Mexicana de Petroleo Union, S. A.," with headquarters at Tampico, was announced yesterday by Chester W. Brown, director of exploration and production of the Union Oil Company.

The new company will carry on drilling operations on its 25,000-acre lease of the Michapam Concession in the State of Vera Cruz, and will take over the drilling of a wildcat well being drilled south of the Tuxpan River. The district is regarded as a possible extension of the famous "Gold Lane."

The officers of the new company are L. P. St. Clair, president; Chester W. Brown, vice-president; Ralph M. Putnam, vice-president and general manager; and Frederick Steinkruger, secretary. John A. Hendricks will be manager in Mexico.

## Garrett Heads Exchange Club

Ernest Garrett, assistant cashier of the Farmers' and Merchants' National Bank, was elected president of the Foreign Exchange Club, and H. E. Ross of the California Bank and H. D. Turner of the Los Angeles-First National Trust and Savings Bank were elected vice-presidents and secretary-treasurer, respectively, at a meeting of the club held at the Elsie Wednesday evening, last.

A. S. Cowie, assistant vice-president of the Citizens' National Trust and Savings Bank; Fred C. Cowlin, assistant cashier Security Trust and Savings Bank; and W. C. Neary, assistant cashier of the Union Bank and Trust Company, were appointed to the executive committee. A. A. Dorion, retiring president, outlined the past year's work. James Loudon of James Loudon & Co., customhouse brokers, spoke on customs procedure.

## STANLEY COMPANY REPORTS EARNINGS

NEW YORK, Dec. 13. (Exclusive) Stanley Company of America today reported net income for the thirteen weeks ended September 29, last, of \$202,982 after depreciation. Federal taxes and subsidiaries' minority interest equal to 22 cents on 904,958 shares. For the thirty-nine weeks to September 30, the net was \$693,640, or 77 cents a share.

## INDUSTRIAL JOINS YULE BONUS LIST

Claude Neon Company to Distribute in Excess of \$20,000 Among Staff

Christmas greetings in the form of bonuses were extended to employees of two Los Angeles institutions yesterday as Claude Neon Electrical Products, Inc., took action to distribute approximately \$20,000, and Union Bank and Trust Company awarded checks amounting to more than \$25,000. California employees of State Life Insurance have also been advised of a similar action by their company.

Employees of the Los Angeles and Oakland plants of the Neon Company will participate alike in the distribution. Paul D. Howe, president stated. Those that have been with the company ten years will receive 10 per cent of this year's salary; five years, 5 per cent; and so on down to three years.

Claude Neon Electrical Products, Inc., has not made application to list its stock on the New York Curb Exchange, but it is understood that eastern brokerage houses have made the application on their own initiative. Mr. Howe said. New lawsuits have just been filed in Portland and Tacoma against alleged infringers of the company's patents.

Christmas bonuses of the Union Bank and Trust Company were given out to about 150 officers and employees at the annual staff banquet and costume ball held at the bank last evening. The distribution was equivalent to 5 per cent of this year's salary plus \$1 for each successive month's service.

California members of the \$100,000 and \$200,000 clubs of State Life Insurance Company of Indiana are to be awarded a bonus of approximately \$75,000. The California business of the company this year is about \$2,000,000 ahead of 1933, Arthur J. Hill, California manager, stated.

## Terms in Auto Merger Given

NEW YORK, Dec. 13. (P)—Terms for the acquisition by the Hupp Motor Car Corporation of the Chandler-Cleveland Motors Corporation announced today, provide for the exchange of two shares of Chandler-Cleveland stock for one share of Hupp common and three one-half shares of Chandler common for each share of Hupp common. Deposits of Chandler-Cleveland stock will be received until January 10.

Ladenburg, Thalmann & Co. and A. C. Becker & Co., who have been designated as managers of the proposed undertaking, state that consummation of the plan will follow the deposit of at least 95 per cent of the preference stock and at least 95 per cent of the common stock of the Chandler corporation.

## New Financing of Department Store on Mart Yellowlaw Stage Adds to System

Leading the list of new issues on the investment market today will be \$22,700,000 of 6 1/2 per cent convertible preferred and 44,000 shares of common stock of the recently organized Hahn Department Stores, Inc., a nation-wide chain. The preferred will be offered at 103 and the common at 98. The preferred is convertible into common in the ratio of one of preferred for two of common, at any time.

Offering of the stocks will be made by a syndicate including Lehman Brothers, Private Whittely & Co., Bond & Goodwin & Tucker, Inc., Bank of Italy, Anglo-California Securities Company and Anglo-London-Paris Company. The chain will have stores in twenty-two cities, annual sales of more than \$100,000,000, and assets of more than \$50,000,000.

Also scheduled for sale today is \$2,500,000 Omaha Bee-News (Bee-News Publishing Company) 8 per cent serial debentures, by Halsey, Stuart & Co., and Anglo-London-Paris Company. The debentures mature serially from 1931 to 1943, and will be offered at prices to yield from 8.10 to 8.25 per cent.

George H. Burr, Conrad & Broome will offer 42,000 shares Vogt Manufacturing Corporation capital stock at \$1. The corporation, founded in 1874 in Rochester, is engaged in the manufacture of interior fabric trimmings for automobiles, and fittings and lightweight accessories for airplanes bodies.

## Barnsdall Oil Debentures to be Redeemed

NEW YORK, Dec. 13. (Exclusive) Outstanding debenture of the Barnsdall Corporation, to maturing \$21,185,500, will be called for redemption on February 15, next, at the principal amount, plus interest. E. B. Reiser, president, announced today. Stock purchase warrants originally attached to the debentures which entitle the holder to purchase common stock at \$25 a share will become null and void unless redeemed on or before January 31, next.

Funds realized from the exercise of the warrants will be used to redeem the debentures, Mr. Reiser said. By this action the number of shares will be increased by 846,220 shares, or to a total outstanding of 2,238,475 of "A" stock and 15,613 shares of "B" stock.

Retirement of the debentures, he added, will leave Barnsdall without funded debt, and will save the company \$1,269,330 annually in interest charges.

WASHINGTON, Dec. 13. (Exclusive)—Detailed statement of broker's loans follow:

## Security Loan Figures Show Sharp Decline

WASHINGTON, Dec. 13. (P)—Loans to brokers and dealers held by New York Federal Reserve member banks for the week ending the 12th inst. were announced by the Federal Reserve board today as \$5,175,751,000, representing a decrease of \$218,839,000, compared with the preceding week.

The loans for the week ending December 14, 1933, were \$5,358,355,000.

Following are the brokers' loan figures since the first of the year, compared with corresponding weeks of last year:

	1933.	1932.
Jan. 1	\$5,310,032,000	\$5,813,341,000

## BANKS OF NATION PROSPER

Gain in Resources During Year of \$3,441,770,000 Swells Total to \$71,574,328,000

(Copyright, 1934, by North American Newspaper Alliance.) NEW YORK, Dec. 13.—Imagine one's assets increasing at the rate of \$10,000,000 a day, yet that is substantially what the banks of the United States added every day during the last fiscal year.

On October 31 there were 7076 national banks, or 125 fewer than one year ago; while the rest—18,506—were State banks.

Briefly, resources of American banks now stand at the unthinkable total of \$71,574,328,000, an increase of \$3,441,770,000 for the last twelve months, and an increase of \$14,420,830,000 since 1924.

The 120,000 people living in the United States and its possessions, had in the 26,218 banks within this territory, on June 30, last, bank deposits of \$32,844,000,000. In other words, a per capita deposit of \$408.40, according to the last report of the Comptroller of the Currency.

However, savings deposits are better kept of thrift than individual deposits. Savings constitute more than one-half of the total deposits, or \$18,125,578,000. Divide this figure by the population, and every person in the United States and its possessions would get \$145.23.

No increase in history is comparable with this!

W. Randolph Burgess of the New York Federal Reserve Bank, whose public utterances are always watched by business interests, and whose speech this week before the American Acceptance Council is supposed to have had a direct effect on stock market operations, is just 39 years old.

He was born in Rhode Island, graduated from Brown University in 1912, and received his doctor's degree from Columbia University in 1928. He is a close friend of Col. Leonard Ayres, famous economist of the Cleveland Trust Company, for one of his children takes the name Leonard and the other Ayres.

He has been with the Federal Reserve Bank since 1920, first as editor of their publications, and for the last five years as assistant Federal reserve agent. His volume, "The Reserve Bank and the Money Market," has become a standard work.

Dr. Burgess does not believe that the Federal Reserve Bank of itself can dictate the money and credit policy either of the United States or the world. It is not so simple.

"The human mind delights in personifying the forces of good and evil. It is constantly seeking a scapegoat," he says. "The reserve system has large powers, but powers more limited than often credited to it in popular imaginations."

Dr. Burgess makes a suggestion that some modification of the Federal Reserve Act may be necessary to broaden the definition of paper eligible for rediscount. He does not view the present organization of our money market, especially the American bill market, with "entire complacency."

No doubt there will be many suggestions for amending the Federal Reserve Act offered in the next few months.

## Irregular Tone on London Mart

LONDON, Dec. 13. (Exclusive)—The stock market had an irregular tone today with banking machine issues in supply, especially Victrola and Columbia Graphophones. The tobacco list was a strong feature, with British American in good demand. Wireless Securities moved irregularly, and rubbers were quiet. The mining list was dull with most Nickel well supported. Oils maintained a steady tone while textile and artificial silk issues were neglected. The gilt-edge division had a steady tone. Foreign issues were quiet. Canadian Pacific was easier. Some rails were in supply while Argentine rails had a firm tone.

## The Clearinghouse News of Spring Street

## NEW YORK BOND PRICES

NEW YORK, Dec. 13.—Prices worked lower in moderate trading on the bond market today. Time money rates showed a slight decline, reflecting the growing disposition to avoid placing funds in the time money market because of expectations of stringency after the end of the year. While market quotations generally ranged from 1/8 to 1/4 per cent, the time money market was active at 1/8 to 1/4 per cent, with a few rates as high as 1/2 per cent.

U. S. Government bonds were active, particularly among the industrial issues. American Government bonds were active, particularly among the industrial issues. American Government bonds were active, particularly among the industrial issues.

The market for foreign bonds was quiet, with a few rates as high as 1/2 per cent. The market for foreign bonds was quiet, with a few rates as high as 1/2 per cent.

Mr. Lew Hahn, President of Hahn Department Stores, Inc., has summarized his letter regarding the Corporation in part as follows. Copies of this letter may be had from the undersigned upon request.

## A NATION-WIDE DEPARTMENT STORE CHAIN

"Hahn Department Stores, Inc., has been incorporated to centralize the ownership and coordinate the operation of a large number of long-established department store businesses of demonstrated individual earning power.

The initial group, comprising the following 22 companies, all of the capital stock of which has been or will be acquired directly or indirectly, will constitute the nucleus for further additions of similar character. Among the businesses being acquired at the outset are several stores which are the most important in their respective sections of the country.

Jordan Marsh Company	Boston, Mass.
C. F. Hovey Company	Boston, Mass.
L. S. Donaldson Company	Minneapolis, Minn.
The March Company	Seattle, Wash.
The Golden Rule	St. Paul, Minn.
The Rollman & Sons Company	Cincinnati, O.
Haroldson Company	Grand Rapids, Mich.
Titche, Gottlinger Co., Inc.	Dallas, Tex.
O'Neill & Company, Incorporated	Baltimore, Md.
Quackenbush Company	Patterson, N. J.
The A. Polsky Company	Akron, O.
The Morehouse-Martens Company	Columbus, O.
The James Black Dry Goods Company	Waterloo, Ia.
Rudges & Gushel Co.	Lincoln, Neb.
The Meyer Company	Greensboro, N. C.
The L. H. Field Company	Jackson, Mich.
F. N. Jolin Company	Malden, Mass.
The Muller Company, Limited	Lake Charles, La.
A. E. Troutman Company	Greensburg, Pa.
Louis Samler, Inc.	Lebanon, Pa.
The Weller Company	Columbus, O.
Wright-Mattler Company	Connellsville, Pa.

## CONSOLIDATION

The aggregate sales volume of over \$108,000,000 for the twenty-two units in the fiscal year ending January 31, 1928, indicates the large purchasing power of the Corporation. This will make possible for each store an outstanding buying representation in all the important markets of the world which should result in important economies, and in a closer contact with style trends and with the many buying markets. Each of the stores will have the benefit of improvements in systems and methods resulting from expert comparison of all phases of operations.

All of the common stock of Jordan Marsh Company and C. F. Hovey Company has already been acquired directly or indirectly and the Corporation has firm contracts to acquire all of the common stock of the other twenty companies. The Corporation reserves the right not to acquire any stock contracted to be acquired, if the vendors fail to comply with any of the conditions of their contracts, in which event the common stock of the Corporation and/or the cash delivered in exchange or payable as the purchase price for each stock will be retained in the treasury of the Corporation, to be available for future acquisitions, and the pro forma consolidated balance sheet and earnings statement referred to above will be subject to appropriate adjustment.

The Corporation has agreed to make application to list both the 6 1/2% Convertible Preferred Stock and the Common Stock on the New York Stock Exchange.

6 1/2% Convertible Preferred Stock—\$103 Per Share  
and Accrued Dividend  
Common Stock—\$38 Per Share

This offering is made in all respects, when, as and if issued and delivered to and accepted by us and subject to the approval of our counsel. We reserve the right to reject any and all subscriptions in whole or in part, to allot less than the amount applied for, and to close the subscription book at any time without notice. It is expected that delivery of temporary stock certificates will be made on or about January 1, 1929, at the office of Lehman Brothers, 16 William Street, New York, N. Y., against payment therefor in New York funds.

## IRON INDUSTRY HOLDS UP WELL

Sales and Output Heavy for Winter Season

December Promises to Make Another Record

Banner Year Mark of 1926 Expected to Fall

CLEVELAND, Dec. 13. (Exclusive) Iron Trade Review this week says: The iron and steel industry has come up to the middle of December with sales and production only mildly impaired by seasonal conditions another monthly steel record seems in the making. November with a daily rate of \$5,822 gross tons of ingots surpassed all previous November, topping 1927 by 30 per cent and if December holds within 8 per cent of last month—as now seems possible—it will be the sixth consecutive record month.

Including the 4,239,280 tons of November, the eleven month ingot total stands at 45,837,791 tons. In 1926, the banner year, only 36,971,475 tons was produced. An estimated 3,900,000 tons for December puts 1928 across the line with 3,150,000 tons to spare. There being no stocks in the hands either of producers or consumers a record consumption of 45 is indicated.

Giving proper weight to year-end and inventory let-up, which are approaching steel making operations, the past week showed extraordinary vigor. In the Mahoning Valley accelerated bar and pipe production has more than compensated for the dropping of some sheet-making capacity and independent steel makers have lighted three additional open hearth furnaces. The Chicago and Pittsburgh districts hold at about 80 per cent. Steel corporation subsidiaries this week are at 82 per cent, down 2 points from last week.

Sheets are noteworthy for their vigor in all markets. Orders booked by Pittsburgh and Youngstown mills have rarely been exceeded in December. An increasing volume of business for the first quarter is being booked at the new prices, generally \$2 higher than for the current quarter and makers are insisting that specifications be by December 15. Some large automotive users have covered at the new levels.

Parts makers have re-entered the steel bar market in sufficient force to push deliveries back to three to five weeks on the more desirable sizes. Farm implement manufacturers also are specifying at a high rate and their takings of bar steel apparently will exceed previous highs. In the Pittsburgh and eastern Pennsylvania districts bar users are easing out.

Inquiries are out in the East for two more steamers, requiring 4500 tons of steel each, swelling to practically 100,000 tons the amount of ship work pending. Fresh inquiry at Chicago for western tank work totals 10,000 tons of plates. A 4500-ton pipeline for Brooklyn, N. Y., is added to 55,000 tons of plates already sought for eastern lines.

With wire products advanced 34 per cent the Iron Trade Review composite of four leading iron and steel products has regained all the ground it lost recently and is up 8 cents this week to \$36.24, the highest since September, 1927.

## SEATTLE BANKS MERGE ASSETS

(Continued from Sixteenth Page)

his retirement next March as Vice-President of the United States.

The bank will move into the quarters now occupied by the Continental National Bank and Trust Company, which vacates its skyscraper at the first of the year.

The American Bank completed its physical consolidation with the Illinois Merchants' Trust Company.

The Central Trust Company has total assets of \$122,134,000 and deposits of \$108,268,000. The Bank of America lists assets at \$39,128,000 and total deposits at \$33,107,000.

## INTERNATIONAL PHONE PLANNING EXPANSION

NEW YORK, Dec. 13. (Exclusive) International Telephone and Telegraph directors today authorized an issue of ten-year convertible 4 1/2 per cent gold debentures in the amount of 40 per cent of the par value of the outstanding stock on January 3, next, or about \$27,300,000, to provide funds for the acquisition of the United River Plate Telephone Co., Ltd., and for other purposes.

The bonds will be offered to stockholders at 98 in the proportion of \$100 principal for each 2 1/2 shares held on the 21st inst.

## SMITH PUT ON NEW BANK OF ITALY JOB

SAN FRANCISCO, Dec. 13. (Exclusive)—Russell G. Smith, 34 years of age, connected with the bank and brokers' department of the Bank of Italy for the last seven years, yesterday was appointed a vice-president of that institution by James A. Bacigalupi, president. Mr. Smith is chairman of the public education committee of the American Institute of Banking, a member of a similar commission with the American Bankers' Association, and belongs to several bay district clubs.

## CABBAGE PLANTING INCREASE FORECAST

CHICAGO, Dec. 13. (AP)—Florida is to double its cabbage plantings this season, according to a report today from the government bureau of agricultural economics. The report adds that a preliminary estimate from Florida, Louisiana, Texas and California indicates that the cabbage area of the country's four cabbage States taken all together will be the largest in any recent year, 35,200 acres, an increase of 2100 acres over last season.

## METAL MARKETS

NEW YORK, Dec. 13. (AP)—Copper steady, unaltered, spot and future, 16.37. Lead firm, spot, 49.75; future, 49.37. Zinc steady, spot, 49.75; future, 49.37. Tin steady, spot, 49.75; future, 49.37.

## LOS ANGELES EXCHANGE

Stock Prices Hold in Unusually Quiet Session as Traders Adopt Waiting Attitude

General anxiety and lack of confidence resulted in the most listless session yesterday the Los Angeles Stock Exchange has experienced, this year. Total sales of slightly more than 30,000 shares having a market value of \$700,000 reflected the undertone of uneasiness.

Despite the light turnover, prices of a few shares of interest to those as a whole held firm to the level of the previous day, excepting Rio Grande Oil, which advanced 1/4 point on the transfer of only one share last during the session, and California Bank, which spurted 5/8 points on the declaration of an extra dividend. All changes were fractional, with the gains and losses about evenly divided. Rio Grande closed at 163 1/2 and California Bank at 133 1/2. The new Rio Grande stock moved up 1/2 to 33 1/2.

Aside from the oil list, practically all transactions were confined to odd lots. Commitments among oil shares were of a highly selective character.

Bank stocks were of a highly selective character, with the possibility of a good turn was thought to exist. Union, Barnardall, Richfield and Standard of California were the most active issues of the day. Barnardall advanced 1/4 to 4 1/2, Richfield held steady to 45 1/2, while Standard Oil and Union of California eased off 1/4 and 3/4, respectively, to end at 71 1/2 and 52 1/4. Pacific Western moved up 1/4 to 22. Bolsa Chica, Buckeye and Occidental eased fractionally while Mascot, Merchants' Republic Petroleum and U. S. Royalties registered small improvements. Los Angeles-First National Bank dropped 1/4 to 122 1/2 while Merchants' National firmed up 1/4 to 250 1/4.

Los Angeles-First National Bank dropped 1/4 to 122 1/2 while Merchants' National firmed up 1/4 to 250 1/4.

Bank stocks were of a highly selective character, with the possibility of a good turn was thought to exist. Union, Barnardall, Richfield and Standard of California were the most active issues of the day. Barnardall advanced 1/4 to 4 1/2, Richfield held steady to 45 1/2, while Standard Oil and Union of California eased off 1/4 and 3/4, respectively, to end at 71 1/2 and 52 1/4. Pacific Western moved up 1/4 to 22. Bolsa Chica, Buckeye and Occidental eased fractionally while Mascot, Merchants' Republic Petroleum and U. S. Royalties registered small improvements. Los Angeles-First National Bank dropped 1/4 to 122 1/2 while Merchants' National firmed up 1/4 to 250 1/4.

Mr. A. E. Vogt, President of Vogt Manufacturing Corporation, has summarized his letter to us regarding the Corporation as follows:

**History and Business:** The business of the Vogt Manufacturing Corporation was founded in 1874 in Rochester, N.Y. incorporated in 1892, the present name was adopted in 1919.

The Corporation is one of the oldest manufacturers of interior fabric trimmings for automobiles. The business has progressed with improving modes of travel. The manufacture of carriage and coach trimmings has already given way to the manufacture of distinctive automobile trimmings, and today a growing branch of the business is the manufacture of fittings and light weight accessories for airplane bodies.

Among the customers of the Corporation are included the following: General Motors Corporation, Ford Motor Company, Chrysler Corporation, Packard Motor Car Company, Hupp Motor Car Corporation, Briggs Manufacturing Company, Hudson Motor Car Company, Graham-Paige Motors Corporation, The Willys-Overland Company, The Nash Motors Corporation, Auburn Automobile Co., Murray Corporation of America, Reo Motor Car Company and Stinson Aircraft Corporation.

Through the acquisition of the entire capital stock of The George R. Carter Company, which is to be presently acquired, the Vogt Manufacturing Corporation's line of products will be amplified and diversified and the management anticipates that in 1929 the total volume of business will be considerably increased.

**Net Profits:** The consolidated net profits, after Federal income taxes at 12%, as reported by Messrs. Wilson & Hays for the fiscal years ended July 31, 1926, 1927 and 1928, and for the three months ended October 31, 1928, are given below:

Year Ending July 31	Net Profits After Taxes	Earnings per Share
1926	\$288,344	\$2.68
1927	209,516	2.09
1928	280,095	2.80
3 Months ended October 31, 1928	134,582	1.34

**Balance Sheet:** The audited Balance Sheet, as of October 31, 1928, shows a strong financial condition, with current assets of \$873,091.27, as against total current liabilities of \$226,399.79, leaving a net working capital of \$646,691.48. The Corporation owns several valuable patents which are carried on the books at a nominal value of one dollar.

**Dividends:** It is the intention of the Board of Directors to declare a quarterly cash dividend on this Stock of 50 cents per share, payable April 1, 1929.

**Management:** The management and control of the Corporation remain unchanged.

All legal details in connection with this issue are subject to the approval of Messrs. Cadwalader, Wickersham & Taft, New York City, for the Bankers, and Messrs. Hubbell, Taylor, Goodwin and Moser, Rochester, and Messrs. Miller, Dailey & Thompson, Indianapolis, for the Corporation. We offer this Common Stock, if, and when authorized, issued and received by us, subject to approval of our counsel of all legal proceedings in connection therewith.

This offering does not represent any financing by the Vogt Manufacturing Corporation, but consists solely of stock purchased from individuals in connection with the acquisition of The George R. Carter Company.

Price \$31 per share

## STOCK TRADING NOTABLY LIGHT

(Continued from Sixteenth Page)

Bankers expected comparatively easy call money until Tuesday, aided by the expected government overdraft at the banks Saturday in connection with its new financing.

Some of the business machine stocks were in heavy demand on merger rumors and the introduction of new lines. Burroughs Adding Machine added 13 points to its 16-point gain of yesterday, touching a new high at 312. Underwood-Elliott-Fisher also broke into new high ground and International Business Machine gained 5 points. International Nickel bounded up 21 points to a record price at 230, and some of the coppers made fair headway. Greene-Canaana closing 6 points higher.

Chicago and better earnings were important factors in the upturn of the nondividend paying rails. Chicago Great Western common and preferred mounted about 4 and 8 points, respectively, to the highest price in sixteen years, while Chicago and Alton common and preferred stepped up 3 points each.

Houston Oil again broke sharply, touching 90, the lowest price of the year and down 15 points. Radio dropped 19 points and closed off 4.

Montgomery Ward rights slumped 3 points. General Electric lost about 3 points and closed off 6 points, high-canceled trust of the line.

In the motors, Packard was again erratic, selling off 5 points, rallying 1 and closing fractionally lower. Continued heaviness of General Motors was somewhat disturbing. The old stock sold at one time 3 1/4 points down to 185 1/4, more than a point under the low mark established in last week's reaction. The new stock sagged to a new low at 73 1/4.

Cotton gained about \$1 a bale in expectation that the census report will show a heavy consumption during November. Grains were dull and moved in narrow ranges.

Foreign exchanges were quiet, sterling holding firm and the Canadian dollar improving slightly on the gold movement.

## COTTON MARKET

NEW YORK, Dec. 13. (AP)—Prices after an early decline, advanced 20 to 25 points net higher in the late afternoon on the cotton exchange on active covering by recent sellers and covering on reports the Census Bureau tomorrow will announce large domestic consumption in November. The market held steady at the higher level.

**SUPREME COURT, QUEENS COUNTY.**  
William J. Wheeler, plaintiff, against  
Joseph A. McBride, if living, and Josephine  
G. McBride, his wife, if living,  
and if said defendants or either of them  
deceased, their, or his or her executors.

... administrators, executors, administrators, judgment creditors, assignees, grantees, trustees, trustees in bankruptcy, receivers, filenors and whom maintain an interest in any, all of whom and whose names are unknown to plain-  
The People of the State of New

To the above named defendants:  
You are hereby summoned to answer  
the complaint in this action and to  
serve a copy of your answer, or, if the  
complaint is not served with this sum-  
mons, to serve a notice of appearance  
on the plaintiff's attorney within twenty  
days after the service of this summons  
on you, under penalty of default in case

Dated, New York, August 16, 1923.  
 JAMES B. KILBURN,  
 Attorney for Plaintiff,  
 Office and Postoffice Address, 95 Liberty  
 Street, Borough of Manhattan, City  
 and State of New York.

by the defendants: Joseph A. Mc-  
ride, if living, and Josephine G. Mc-  
ride, his wife, if living, and if said  
defendants or either of them be de-  
ceased, their or his or her executors,  
administrators, widow, husband, heirs-  
at-law, devisees, grantees, legatees, as-  
signees, lienors and successors in in-  
terest, and their husbands, wives or  
widows, heirs-at-law, legatees, ex-ecu-  
tors, administrators, and assigns.

The foregoing summons is served on you by publication pursuant to an order of Honorable Norman S. Dika, a Justice of the Supreme Court of the State of New York, dated October 30th,

and, filed with the complaint on November 14th, 1923, in the Office of the Clerk of the County of Queens in the Borough of Queens, City and State of New York, the complaint having been duly filed in said office on October 1st, 1923.

The object of this action is to foreclose a mortgage made by the defendant Joseph McBride and Josephine McBride, "McBride and Josephine McBride, Trustees" under agreement.

is in the Fourth Ward, Borough of  
Manassas, City and State of New York,  
described as follows:—BEGINNING at a  
point on the southwesterly side of  
North Wertiland Avenue, distant Three  
hundred (300) feet northwesterly from  
the corner formed by the intersection of  
the southwesterly side of North Wertiland  
Avenue with the northwesterly  
side of Linden Street running thence

the westerly, parallel with Linden  
street, Two Hundred (200) feet, to the  
northeasterly side of Inglewood Road  
formerly Leonard Boulevard; thence  
northeasterly along said northeasterly  
side of Inglewood Road (formerly  
Howard Boulevard) forty feet; thence  
northeasterly parallel with Linden  
street, Two Hundred (200) feet, to the  
southeasterly side of North Westland

ness, and thence southeasterly to the southwesterly side of North Western Avenue, forty (40) feet to the point or place of beginning.

Dated, New York, November 14, 1928.

JAMES H. KILBURN,  
Attorney for Plaintiff.

Office and Postoffice Address, 95 Liberty Street, Borough of Manhattan, City and State of New York.

**Legg**

[illegible]

Dated, New York, August 16, 1928.  
JAMES B. KILBURN,  
Attorney for the Creditors.  
His Office and Postoffice Address, 95 Liberty  
Street, Borough of Manhattan, City  
and State of New York.  
In re: The Estate of Joseph A. Mc-  
Cord, Jr., if living, and Josephine G. Mc-  
Cord, his wife, if living, and if said  
deceased, their heirs or their executors,  
administrators, widow, husband, heirs-  
at-law, devisees, grantees, legatees, as-  
signees, creditors, successors, or in in-  
terest, and their husbands, wives or  
widows, heirs-at-law, legatees, execu-  
tors, administrators, successors, or in in-  
terest, grantees, trustees, trustees in  
bankruptcy, receivers, licensees and suc-  
cessors, or in interest, of whom the names  
and whose names are unknown to administer.

The following publication pursuant to an order of Honorable Norman B. Dika, Justice of the Supreme Court of the State of New York, in and to which said case No. 23, is filed with the complaint on November 14th, 1934, in the Office of the Clerk of the Supreme Court, County of New York, in the City and State of New York, the complaint having been filed in said office on October 19th, 1934.

The object of this action is to foreclose a mortgage made by the defendant, McBride, affecting real property situated in the Fourth Ward, Borough of Manhattan, City and State of New York, and described as follows:--BEGINNING at a point on the southwesterly side of the street hereinafter described, and extending easterly and southerly for 200 feet (200) feet, northwesterly from a corner formed by the intersection of

21 easterly side of North Westland  
 22 Avenue, Hudson River, New York  
 23 side of Linden Street running thence  
 24 easterly, parallel with Linden  
 25 Avenue, Hudson River, New York  
 26 easterly side of Inglewood Road  
 27 formerly Leonard Boulevard; thence  
 28 easterly along said road, formerly  
 29 Leonard Boulevard, forty feet; thence  
 30 easterly parallel with Linden  
 31 Avenue, Hudson River, New York  
 32 easterly side of North Westland  
 33 Avenue, and thence southerly along  
 34 easterly side of North Westland  
 35 Avenue, Hudson River, New York  
 36 easterly side of (60) feet to the  
 37 Hudson River, New York.  
 38 Dated, New York, November 14, 1924.  
 39 JAMES C. KILPATRICK,

**Wheat Futures Point Up; Corn Given Setback**

CHICAGO, Dec. 13. (Exclusive)—De-liveries of 350,000 bushels of corn in December contracts, with selling of the near-by deliveries by houses with foreign and cash orders, caused a decline in the price of 10 1/2% from the early high. The finish was about the low point, with December 1/4 lower at 82 1/2¢ and May 1/4 higher at 85 1/2¢, the spread widening 1/2¢ for the day and was 6 1/2¢ at the last. Houses with eastern connections and shorts were on the buying side of wheat and the close was 1/4¢ higher, with December 1 1/2¢ and May 3 1/2¢. Oats were unsettled and finished 1/2¢ higher to the lower, with December 48¢ and May 48 1/2¢. They gained 10 1/2¢ for the day, with December 10 1/2¢ and May 1 1/2¢.
